

## General Risk Assessment - Pine Rivers Heritage Museum year 2 school visit

The information in this document is provided to assist schools in undertaking risk assessments for your group to visit Pine Rivers Heritage Museum and may not cover everything. It is the responsibility of the school / teacher to carry out a risk assessment for the visit.

If an incident occurs on the day at the Museum, Museum staff must be notified. An incident report is required to be lodged.

### Museum staff

- All employees at the Museum, paid and unpaid, engaged in child-related activities possess a current Queensland Blue Card - Working with Children Check.
- Museum staff are facilitators only.

### Student supervision

- It is the responsibility of the adults bringing groups to the Museum to be aware of, and provide care for, the health and safety for all students in their care. Teachers and accompanying adults are responsible for the ongoing supervision, welfare and behaviour of students at all times.
- Appropriate numbers of supervisors should accompany each group and ensure active supervision of students. The minimum required adult to student ratio is:
  - Under 4 years old - 1:5
  - Kindy and prep (over 4 years old) - 1:8
  - Primary school - 1:12
  - Secondary school - 1:15
- Students are not permitted to use the bathrooms without a teacher or accompanying adult. Museum staff cannot supervise students when using bathrooms.
- The lead teacher/supervisor should carry a list of students/numbers, contact phone numbers, medical information and relevant health information for their group.

### Expected behaviour

- While visiting the Museum, it is expected that students display responsible behaviour. This includes:
  - Walking in the museum, not running.
  - No food or drink in the museum, unless approved by a Museum staff member (food and drink is permitted in the Programming Room).
  - Students are to stay in their group at all times.
  - Objects and displays cannot be touched, unless given permission to do so by a Museum staff member.
  - Listen carefully to instructions.
  - Be respectful of other visitors.

### Breaks

- Breaks are to be taken in the Programming Room and the outside area of the museum with 2 x picnic tables. The Museum also has 2 x mats available to use outside on the grass.
- School teachers and accompanying adults are to provide supervision during breaks.
- In the event of inclement weather, breaks will be taken in the Programming Room only, and the door to the outside picnic table area will be locked.

#### UNCONTROLLED IF PRINTED

Document Reference	WS-TEM-General Risk Assessment v2.0		
Document Owner:	Wellbeing & Safety Team	Page 1 of 20	Approved Date: Feb 2025

- During breaks, teachers and accompanying adults are requested to leave the area tidy and use provided bins.

### **First Aid**

- Teachers and accompanying adults should be aware of specific medical conditions affecting students and be able to manage and provide treatment as needed.
- The Museum will have at least one First Aid Officers on site.
- First Aid kits are located in the staff kitchen and staff office areas. Please inform a staff member if a first aid situation occurs during your visit, staff will obtain the First Aid kit if required.
- In the unlikely event of a medical emergency, Museum staff will contact 000.

### **Fire safety and emergency evacuation**

- On occasions, emergency evacuation drills are conducted to test personal preparedness and system functions. Museum staff make every effort to ensure drills do not occur during a school visit.
- In case of an emergency, emergency and evacuation alert systems are in place at the Museum.
- The evacuation assembly point is located at the front of the Museum, located in the car park of Old Petrie Town.
- Museum staff will provide direction to the supervisor in charge of the group, and it is this person's responsibility to ensure compliance with all students.
- Teachers and accompanying adults are required to conduct a roll call at the emergency assembly point and advise Museum staff and/or emergency personnel of any missing people from the group.

### **Accessibility**

- The Museum is committed to accessible and inclusive experiences for all visitors.
- A social guide is available for the Museum, to assist visitors to become more familiar and comfortable with the Museum before they visit:
- Public access areas of the Museum are wheelchair accessible, including toilets.
- For other accessibility requirements, please contact the Museum.

## Risk Matrix

Likelihood	Consequence				
	Insignificant	Minor	Moderate	Major	Critical
Almost Certain	MEDIUM	HIGH	HIGH	EXTREME	EXTREME
Likely	MEDIUM	MEDIUM	HIGH	HIGH	EXTREME
Possible	LOW	MEDIUM	MEDIUM	HIGH	HIGH
Unlikely	LOW	LOW	MEDIUM	MEDIUM	HIGH
Rare	LOW	LOW	MEDIUM	MEDIUM	MEDIUM

Likelihood Category	Descriptors (Chances of Risk Happening)	Event Frequency
Almost Certain	Is expected to occur in most cases	>75%
Likely	Will probably occur in most circumstances	>50% - 75%
Possible	Might occur at some time	>25% - 50%
Unlikely	Could Occur at some time	>5% - 25%
Rare	May only occur in exceptional circumstances	<5%

Consequence	Risk Category	
	Health and Safety	Plant (including Motor Vehicles) and Property Damage
Critical	Fatality	Major damage to a plant or a facility resulting in potential costs >\$1m
Major	Lost time injury Disabling injury	Serious damage to a major plant or a facility cost \$100,000 to \$1m.
Moderate	Medical treatment injury / Restricted Work Injury	Significant damage to plant, equipment or a facility costing \$10,000 to \$100,000
Minor	First aid treatment	Minor plant and equipment damage requiring repairs or replacement \$1000 to \$10,000
Insignificant	No treatment injury	\$1000 damage to plant and equipment. (This does not include damage to IT equipment.)

Risk Ranking Legend	
Extreme	EGM / CEO or delegated authority
High Risk	GM / Department Manager or delegated authority
Medium Risk	Branch Manager / Coordinator
Low Risk	Supervisor/Team Leader

## Hazard List

Use this table to help you identify hazards and to complete Section 2. There may be others that do not appear on this list.

Situational	Tick	Physical/ Chemical	Tick	Health	Tick
Assault by person	<input type="checkbox"/>	Chemical/dangerous goods use, process or storage	<input type="checkbox"/>	Disease causative agent	<input type="checkbox"/>
Attacked by animal	<input type="checkbox"/>	Communication issues/ difficulty	<input type="checkbox"/>	Infection	<input type="checkbox"/>
Breathing compressed gas	<input type="checkbox"/>	Contact with cold liquid/ vapour	<input type="checkbox"/>	Lack of food/ water	<input type="checkbox"/>
Cold environment	<input type="checkbox"/>	Contact with cold surface	<input type="checkbox"/>	Lack of oxygen	<input type="checkbox"/>
Confined space	<input type="checkbox"/>	Contact with hot liquid/ vapour	<input type="checkbox"/>	Physical fatigue	<input type="checkbox"/>
Crush by load	<input type="checkbox"/>	Contact with hot surface	<input type="checkbox"/>	Repetitive action	<input type="checkbox"/>
Difficult access or egress	<input type="checkbox"/>	Crane/ EWP use	<input type="checkbox"/>	Static body posture	<input type="checkbox"/>
Difficult rescue	<input type="checkbox"/>	Electric shock/ hazards	<input type="checkbox"/>	Stress	<input type="checkbox"/>
Drowning	<input type="checkbox"/>	Explosive blast	<input type="checkbox"/>	Venom Poisoning	<input type="checkbox"/>
Engulfment	<input type="checkbox"/>	Explosive release of stored pressure/ energy	<input type="checkbox"/>		
Entanglement in moving machinery	<input type="checkbox"/>	Fire	<input type="checkbox"/>		
High winds	<input type="checkbox"/>	Flammable materials	<input type="checkbox"/>	<b>Environmental</b>	<b>Tick</b>
Hot environment	<input type="checkbox"/>	Hazardous substance	<input type="checkbox"/>	Flora/ fauna hazards	<input checked="" type="checkbox"/>
Intimidation	<input type="checkbox"/>	Ionising radiation (UV, gamma, x-rays)	<input type="checkbox"/>	Litter	<input type="checkbox"/>
Manual Handling	<input type="checkbox"/>	Inhalant dust/ fibre	<input type="checkbox"/>	Nuisance noise/ vibration	<input type="checkbox"/>
Moving Plant/ machinery	<input type="checkbox"/>	Ladder use	<input type="checkbox"/>	Physical damage	<input type="checkbox"/>
Object falling, moving or flying	<input checked="" type="checkbox"/>	Laser light	<input type="checkbox"/>	Soil erosion	<input type="checkbox"/>
Obstruction/ exposed feature	<input type="checkbox"/>	Lightning strike	<input type="checkbox"/>	Waste substance released into air	<input type="checkbox"/>
Poor lighting/ visibility	<input type="checkbox"/>	Noise	<input type="checkbox"/>	Waste substance released into soil/ water	<input type="checkbox"/>
Restrictive work environment	<input type="checkbox"/>	Non-ionising radiation (microwave, infrared, radio waves)	<input type="checkbox"/>		
Remote area	<input type="checkbox"/>	Poisonous / explosive gas present	<input type="checkbox"/>		
Sharp object/ material	<input type="checkbox"/>	Pressurised fluids (air/oil)	<input type="checkbox"/>	<b>Managerial/ Organisational</b>	<b>Tick</b>
Shot by firearm	<input type="checkbox"/>	Underground services	<input type="checkbox"/>	Management factors	<input type="checkbox"/>
Slippery surface	<input checked="" type="checkbox"/>	Stroboscopic light	<input type="checkbox"/>	New/ junior / inexperienced workers	<input type="checkbox"/>
Suspended load	<input type="checkbox"/>	Steam	<input type="checkbox"/>	Language/ physical restrictions	<input type="checkbox"/>
Trap in moving machinery	<input type="checkbox"/>	Tool & equipment	<input type="checkbox"/>		
Trip hazard	<input checked="" type="checkbox"/>	Vibration	<input type="checkbox"/>		
Vehicle movement/ impaction/ collision	<input checked="" type="checkbox"/>				
Working at height	<input type="checkbox"/>				
Working near traffic, moving plant, pedestrians	<input type="checkbox"/>				
Working on, near, over water	<input type="checkbox"/>				

**UNCONTROLLED IF PRINTED**

## Hierarchy of Control

### Methods of controlling the risk (Hierarchy of Control) – commence with 1 and move down the options if necessary:

1. Eliminate: Could the hazard be eliminated altogether?
2. Substitute: Could something else be done instead?
3. Engineer/Isolate: Could equipment or structural changes help?
4. Administration: Would training help to reduce the risk?
5. PPE: What personal protective clothing should be provided?
