

Environment Centres - Grounds Volunteers

Environment Centre Grounds Volunteers play an important role in maintaining Council's Environment Centres and grounds

Grounds volunteers assist with the following tasks;

- Commit to an agreed upon regular roster of hours and communicate any required changes
- Basic maintenance of garden areas, utilising handheld, small battery & petrol-powered equipment supplied by Council, for example rakes, shovels, hose, whipper snippers
- Basic maintenance of natural areas, such as mulch distribution and hand weeding
- Basic grounds maintenance, for example leaf blowing of pathways and litter collection
- Basic boardwalk and walking track maintenance including undertaking general safety inspections, removal of minor hazards and/or installation of hazard fencing
- Assistance with event and activity set up and pack down, including table and chair placement and erecting marquees

Volunteers will need to have good communication skills, along with a polite, approachable and positive attitude. In addition, volunteers should have the ability and willingness to work as a team alongside Council employees and other volunteers, whilst fostering positive relationships and an inclusive environment.

An interest in the environment is an advantage.

Volunteers will require a moderate level of fitness and be capable of undertaking various activities including hand pulling weeds and operation of hand tools (blowers and wheelbarrows).

Council's Environment Centres are located at:

- Caboolture Region Environment Education Centre, (CREEC) is situated at 150 Rowley Road, Burpengary.
- Kumbartcho Sanctuary is situated at 15 Bunya Pine Court, Eatons Hill
- Osprey House Environment Centre is situated at Dohles Rocks Road, Griffin.
