**We, the undersigned residents of Moreton Bay Regional Council, request that Council: (state action required)**

This petition is submitted by parents and concerned community members. We are dismayed to hear that the Council is seeking expressions of interest from non-profit early childhood education providers to assume the governance and management of Birralee Child Care Centre in Ferny Hills. We believe this action will have a detrimental impact on children and families within our community.

Birralee has consistently been ranked as "Exceeding" under the National Quality Standards and is the one of the most respected childcare providers within the region. Places for children at the centre are sought after due to its unique status as a community based non-profit centre, the natural environment of is outdoor play areas and its impressive record for staff retention.

Given the Queensland Government's stated commitment to reduce the percentage of Queensland children who are developmentally vulnerable in one or more Australian Early Development Census domains, it would seem counterproductive to change the existing arrangements for governance and management of a quality centre like Birralee and thus risk impacting the centre's ability to continue to support young children in the area to thrive.

We call upon the Council to reconsider its decision to offload its responsibility to serve the community and, instead, to continue its support of Birralee.
