**CC:**

**DATE:** 8 July 2021

**SUBJECT:** **LGIP Interim Amendment No. 1 Digital Model  
Consultation - July 2021 - Stormwater Quantity**

---

## **Purpose:**

The purpose of this memo is to advise on the record storage location of LGIP Interim Amendment No. 1 - Digital Model for Stormwater Quantity

## **Background:**

Due to restrictions on storage size this model cannot be stored in TechOne records manager (ECM).

## **Outcome:**

Models used for the LGIP Interim Amendment No. 1 **stormwater quantity** network planning are:

- 2010 WBNM executable
- TUFLOW Build version 2018-03-AE-iSP-w64

The link to the WBNM hydrology model used for the LGIP Interim Amendment No. 1 model is as follows:
