

## Division 16 – Assessment Table for the Acid Sulfate Soils Overlay

**Note:**

- Zones also affect assessment categories. See zoning maps to determine the zone of the land. Also refer to Part 1 Section 1.11 of the ShirePlan explaining how the higher assessment category prevails.
- Planning scheme policies indicate when Council may seek further information about an application.

**Note:** In carrying out your activity you must take all reasonable and practicable measures to ensure that it does not harm Aboriginal cultural heritage (the "cultural heritage duty of care"). You will comply with the cultural heritage duty of care if you are acting in accordance with gazetted cultural heritage duty of care guidelines. An assessment of your proposed activity against the duty of care guidelines will help determine whether or to what extent Aboriginal cultural heritage may be harmed by your activity. Further information on cultural heritage, together with a copy of the duty of care guidelines and cultural heritage search forms, may also be obtained from [www.nrme.qld.gov.au](http://www.nrme.qld.gov.au) <<http://www.nrme.qld.gov.au>>.

### ASSESSMENT CATEGORIES AND RELEVANT ASSESSMENT CRITERIA FOR THE ACID SULFATE SOILS OVERLAY – ALL DEVELOPMENT

**Note:** Figure 4.6 outlines the areas to which the Acid Sulfate Soils Overlay applies.
