

**PLANNING SCHEME
OVERLAY MAP - BUSHFIRE HAZARD**

Property boundaries

State bushfire prone area (State mapping July 2015)

- Very high Potential Bushfire Intensity
- High Potential Bushfire Intensity
- Medium Potential Bushfire Intensity
- Potential Impact Buffer

Please read the following notes about this overlay map:

This overlay map only affects you if your property is identified in a State Bushfire Prone Area, and you wish to develop. It does not apply when proposing a change in use in the General Residential zone, Centre zone, Industry zone and Township zone.

Under State Government requirements, planning schemes must identify an area where bushfire hazard provisions apply. This overlay map shows Bushfire Prone Areas and comprises all land with the potential to support a significant bushfire or the potential to be subject to significant bushfire attack.

This map has been provided by the State Government and is the latest information available to council at the time of adoption.

The Bushfire Prone Area includes potentially hazardous vegetation identified with a medium, high, or very high potential bushfire intensity.

Land that could be subject to significant bushfire attack from embers, flames or radiant heat is included in a Potential Impact Buffer with a default width of 100m from all areas of medium, high or very high potential bushfire intensity.

Refer to the relevant zone code, local plan code and/or development code for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Bushfire Prone Area information sheet on Council's website (www.moretonbay.qld.gov.au/mbr/planningscheme) or contact council on 3205 0555.

OVERLAY MAP - BUSHFIRE HAZARD**

Property boundaries

State bushfire prone area (State mapping July 2015)

- Very high Potential Bushfire Intensity
- High Potential Bushfire Intensity
- Medium Potential Bushfire Intensity
- Potential Impact Buffer

Please read the following notes about this overlay map:

This overlay map only affects you if your property is identified in a State Bushfire Prone Area, and you wish to develop. It does not apply when proposing a change in use in the General Residential zone, Centre zone, Industry zone and Township zone.

Under State Government requirements, planning schemes must identify an area where bushfire hazard provisions apply. This overlay map shows Bushfire Prone Areas and comprises all land with the potential to support a significant bushfire or the potential to be subject to significant bushfire attack.

This map has been provided by the State Government and is the latest information available to council at the time of adoption.

The Bushfire Prone Area includes potentially hazardous vegetation identified with a medium, high, or very high potential bushfire intensity.

Land that could be subject to significant bushfire attack from embers, flames or radiant heat is included in a Potential Impact Buffer with a default width of 100m from all areas of medium, high or very high potential bushfire intensity.

Refer to the relevant zone code, local plan code and/or development code for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Bushfire Prone Area information sheet on Council's website (www.moretonbay.qld.gov.au/mbr/planningscheme) or contact council on 3205 0555.

Effective from 1 February 2016

This map has been provided by the State Government and is the latest information available to council at the time of adoption.

The Bushfire Prone Area includes potentially hazardous vegetation identified with a medium, high, or very high potential bushfire intensity.

Land that could be subject to significant bushfire attack from embers, flames or radiant heat is included in a Potential Impact Buffer with a default width of 100m from all areas of medium, high or very high potential bushfire intensity.

Refer to the relevant zone code, local plan code and/or development code for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Bushfire Prone Area information sheet on Council's website (www.moretonbay.qld.gov.au/mbr/planningscheme) or contact council on 3205 0555.

OVERLAY MAP - BUSHFIRE HAZARD**

□ Property boundaries

State bushfire prone area (State mapping July 2015)

- Very high Potential Bushfire Intensity
- High Potential Bushfire Intensity
- Medium Potential Bushfire Intensity
- Potential Impact Buffer

Please read the following notes about this overlay map:

This overlay map only affects you if your property is identified in a State Bushfire Prone Area, and you wish to develop. It does not apply when proposing a change in use in the General Residential zone, Centre zone, Industry zone and Township zone.

Under State Government requirements, planning schemes must identify an area where bushfire hazard provisions apply. This overlay map shows Bushfire Prone Areas and comprises all land with the potential to support a significant bushfire or the potential to be subject to significant bushfire attack.

This map has been provided by the State Government and is the latest information available to council at the time of adoption.

The Bushfire Prone Area includes potentially hazardous vegetation identified with a medium, high, or very high potential bushfire intensity.

Land that could be subject to significant bushfire attack from embers, flames or radiant heat is included in a Potential Impact Buffer with a default width of 100m from all areas of medium, high or very high potential bushfire intensity.

Refer to the relevant zone code, local plan code and/or development code for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Bushfire Prone Area information sheet on Council's website (www.moretonbay.qld.gov.au/mbr/planningscheme) or contact council on 3205 0555.

This map has been provided by the State Government and is the latest information available to council at the time of adoption.

The Bushfire Prone Area includes potentially hazardous vegetation identified with a medium, high, or very high potential bushfire intensity.

Land that could be subject to significant bushfire attack from embers, flames or radiant heat is included in a Potential Impact Buffer with a default width of 100m from all areas of medium, high or very high potential bushfire intensity.

Refer to the relevant zone code, local plan code and/or development code for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Bushfire Prone Area information sheet on Council's website (www.moretonbay.qld.gov.au/mbr/planningscheme) or contact council on 3205 0555.

**PLANNING SCHEME
OVERLAY MAP - BUSHFIRE HAZARD**

Property boundaries

- State bushfire prone area (State mapping July 2015)
- Very high Potential Bushfire Intensity
 - High Potential Bushfire Intensity
 - Medium Potential Bushfire Intensity
 - Potential Impact Buffer

Please read the following notes about this overlay map:

This overlay map only affects you if your property is identified in a State Bushfire Prone Area, and you wish to develop. It does not apply when proposing a change in use in the General Residential zone, Centre zone, Industry zone and Township zone.

Under State Government requirements, planning schemes must identify an area where bushfire hazard provisions apply. This overlay map shows Bushfire Prone Areas and comprises all land with the potential to support a significant bushfire or the potential to be subject to significant bushfire attack.

This map has been provided by the State Government and is the latest information available to council at the time of adoption.

The Bushfire Prone Area includes potentially hazardous vegetation identified with a medium, high, or very high potential bushfire intensity.

Land that could be subject to significant bushfire attack from embers, flames or radiant heat is included in a Potential Impact Buffer with a default width of 100m from all areas of medium, high or very high potential bushfire intensity.

Refer to the relevant zone code, local plan code and/or development code for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Bushfire Prone Area information sheet on Council's website (www.moretonbay.qld.gov.au/mbrplanningscheme) or contact council on 3205 0555.
