The planning scheme overlay map - rural residential lot sizes shows the minimum lot size supported by the planning scheme if reconfiguration of a lot (subdivision) is proposed in the rural residential zone. This map only affects you if you wish to subdivide your property in the Rural Residential zone.

The map shows the minimum lot size supported by the planning scheme if reconfiguration of a lot (subdivision) is proposed in the Rural Residential zone. For further information regarding reconfiguration of lots in the rural residential zone, refer to Section 9.4.11 Reconfiguring a Lot – Rural Residential Zone for requirements associated with this overlay map.

Minimum lot sizes:
- 3000 m²
- 6000 m²
- 2 ha
- No further reconfiguration

Please note: Do Not Print using "Page Scaling: Fit to Printable Area", this will distort the scale of the map and impacts quality of text and linework. Please print using setup of A3 paper size and Landscape orientation, with "Page Scaling: None", and you will not see this message.
Effective from 20 June 2016

DCDB (Version Apr 2016) is reproduced with the permission of the State of Queensland
Please read the following notes about this map:

This overlay map only affects you if you wish to subdivide your property in the Rural Residential zone. The map shows the minimum lot size supported by the planning scheme if reconfiguration of a lot (subdivision) is proposed in the Rural Residential zone.

Refer to Section 9.4.1.11 "Reconfiguring a Lot Code - Rural Residential Zone" for requirements associated with the overlay map.

For further information regarding this overlay map, please refer to the Overlay Information Sheet and the Rural Residential zone information sheet on Council's website:

Effective from 20 June 2016

Please Note: Do Not Print using "Page Scaling: Fit to Printable Area", this will distort the scale of the map and impacts quality of text and linework. Please print using setup of A3 paper size and Landscape orientation, with "Page Scaling: None", and you will not see this message.
