

PLANNING SCHEME
OVERLAY MAP - COASTAL HAZARD
(EROSION PRONE AREA)

-  Property boundaries
-  Erosion prone area

Please read the following notes about this overlay map:

This overlay map only affects you if your property is identified within the Erosion prone area, and you wish to develop.

This overlay map identifies erosion prone areas based on mapping dated 21 January 2015. On 8 July 2015 new Erosion Prone Areas were declared. Applicants are required to review the SPP Interactive Mapping System to determine whether a property is within an erosion prone area.

Under **State Government** requirements, planning schemes must identify an area where coastal hazard planning controls apply. This overlay map shows **Erosion prone areas**. There is a separate overlay map which shows coastal areas which are subject to storm tide inundation.

This map has been provided by the State Government.

The **Erosion prone area** is the width of the coast that is considered to be vulnerable to coastal erosion and tidal inundation.

Erosion risk due to future sea level rise from climate change **has not** been considered in this calculation of the erosion prone area.

Refer to the Coastal hazard overlay table of assessment in Part 5 and Coastal hazard overlay code in Part 8 for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Flood and Coastal Hazard information sheet on Council's planning scheme website (www.moretonbay.qld.gov.au/mbrplanningscheme) or contact council on 3205 0555.

Effective 29 January 2020

Please read the following notes about this overlay map:

This overlay map only affects you if your property is identified within the Erosion prone area, and you wish to develop.

This overlay map identifies erosion prone areas based on mapping dated 21 January 2015. On 8 July 2015 new Erosion Prone Areas were declared. Applicants are required to review the SPP Interactive Mapping System to determine whether a property is within an erosion prone area.

Under **State Government** requirements, planning schemes must identify an area where coastal hazard planning controls apply. This overlay map shows **Erosion prone areas**. There is a separate overlay map which shows coastal areas which are subject to storm tide inundation.

This map has been provided by the State Government.

The **Erosion prone area** is the width of the coast that is considered to be vulnerable to coastal erosion and tidal inundation.

Erosion risk due to future sea level rise from climate change **has not** been considered in this calculation of the erosion prone area.

Refer to the Coastal hazard overlay table of assessment in Part 5 and Coastal hazard overlay code in Part 8 for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Flood and Coastal Hazard information sheet on Council's planning scheme website (www.moretonbay.qld.gov.au/mbrplanningscheme) or contact council on 3205 0555.

Effective 29 January 2020

This overlay map identifies erosion prone areas based on mapping dated 21 January 2015. On 8 July 2015 new Erosion Prone Areas were declared. Applicants are required to review the SPP Interactive Mapping System to determine whether a property is within an erosion prone area.

Under **State Government** requirements, planning schemes must identify an area where coastal hazard planning controls apply. This overlay map shows **Erosion prone areas**. There is a separate overlay map which shows coastal areas which are subject to storm tide inundation.

This map has been provided by the State Government.

The **Erosion prone area** is the width of the coast that is considered to be vulnerable to coastal erosion and tidal inundation.

Erosion risk due to future sea level rise from climate change **has not** been considered in this calculation of the erosion prone area.

Refer to the Coastal hazard overlay table of assessment in Part 5 and Coastal hazard overlay code in Part 8 for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Flood and Coastal Hazard information sheet on Council's planning scheme website (www.moretonbay.qld.gov.au/mbrclanningscheme) or contact council on 3205 0555.

Effective 29 January 2020

Please read the following notes about this overlay map:

This overlay map only affects you if your property is identified within the Erosion prone area, and you wish to develop.

This overlay map identifies erosion prone areas based on mapping dated 21 January 2015. On 8 July 2015 new Erosion Prone Areas were declared. Applicants are required to review the SPP Interactive Mapping System to determine whether a property is within an erosion prone area.

Under **State Government** requirements, planning schemes must identify an area where coastal hazard planning controls apply. This overlay map shows **Erosion prone areas**. There is a separate overlay map which shows coastal areas which are subject to storm tide inundation.

This map has been provided by the State Government.

The **Erosion prone area** is the width of the coast that is considered to be vulnerable to coastal erosion and tidal inundation.

Erosion risk due to future sea level rise from climate change **has not** been considered in this calculation of the erosion prone area.

Refer to the Coastal hazard overlay table of assessment in Part 5 and Coastal hazard overlay code in Part 8 for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Flood and Coastal Hazard information sheet on Council's planning scheme website (www.moretonbay.qld.gov.au/mbrplanningscheme) or contact council on 3205 0555.

Effective 29 January 2020

This overlay map identifies erosion prone areas based on mapping dated 21 January 2015. On 8 July 2015 new Erosion Prone Areas were declared. Applicants are required to review the SPP Interactive Mapping System to determine whether a property is within an erosion prone area.

Under State Government requirements, planning schemes must identify an area where coastal hazard planning controls apply. This overlay map shows Erosion prone areas. There is a separate overlay map which shows coastal areas which are subject to storm tide inundation.

This map has been provided by the State Government.

The Erosion prone area is the width of the coast that is considered to be vulnerable to coastal erosion and tidal inundation.

Erosion risk due to future sea level rise from climate change has not been considered in this calculation of the erosion prone area.

Refer to the Coastal hazard overlay table of assessment in Part 5 and Coastal hazard overlay code in Part 8 for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Flood and Coastal Hazard information sheet on Council's planning scheme website (www.moretonbay.qld.gov.au/mbrplanningscheme) or contact council on 3205 0555.

Effective 29 January 2020

Erosion risk due to future sea level rise from climate change **has not** been considered in this calculation of the erosion prone area.

Refer to the Coastal hazard overlay table of assessment in Part 5 and Coastal hazard overlay code in Part 8 for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Flood and Coastal Hazard information sheet on Council's planning scheme website (www.moretonbay.qld.gov.au/mbrplanningscheme) or contact council on 3205 0555.

**PLANNING SCHEME
OVERLAY MAP - COASTAL HAZARD
(EROSION PRONE AREA)**

Property boundaries

Erosion prone area

Please read the following notes about this overlay map:

This overlay map only affects you if your property is identified within the Erosion prone area, and you wish to develop.

This overlay map identifies erosion prone areas based on mapping dated 21 January 2015. On 8 July 2015 new Erosion Prone Areas were declared. Applicants are required to review the SPP Interactive Mapping System to determine whether a property is within an erosion prone area.

Under **State Government** requirements, planning schemes must identify an area where coastal hazard planning controls apply. This overlay map shows **Erosion prone areas**. There is a separate overlay map which shows coastal areas which are subject to storm tide inundation.

This map has been provided by the State Government.

The **Erosion prone area** is the width of the coast that is considered to be vulnerable to coastal erosion and tidal inundation.

Erosion risk due to future sea level rise from climate change **has not** been considered in this calculation of the erosion prone area.

Refer to the Coastal hazard overlay table of assessment in Part 5 and Coastal hazard overlay code in Part 8 for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Flood and Coastal Hazard information sheet on Council's planning scheme website (www.moretonbay.qld.gov.au/mbrplanningscheme) or contact council on 3205 0555.

Effective 29 January 2020
