-	Moreton Bay
-	PLANNING SCHEME OVERLAY MAP - COASTAL HAZARD (EROSION PRONE AREA)
-	Property boundaries
-	Erosion prone area
_	Please read the following notes about this overlay map:
-	This overlay map only affects you if your property is identified within the Erosion prone area, and you wish to develop.
-	This overlay map identifies erosion prone areas based on mapping dated 21 January 2015. On 8 July 2015 new Erosion Prone Areas were declared. Applicants are required to review the SPP Interactive Mapping System to determine whether a property is within an erosion prone area.
-	Under State Government requirements, planning schemes must identify an area where coastal hazard planning controls apply. This overlay map shows Erosion prone areas. There is a separate overlay map which shows coastal areas which are subject to storm tide inundation.
-	This map has been provided by the State Government.
-	The Erosion prone area is the width of the coast that is considered to be vulnerable to coastal erosion and tidal inundation.
-	Erosion risk due to future sea level rise from climate change has not been considered in this calculation of the erosion prone area.
-	Refer to the Coastal hazard overlay table of assessment in Part 5 and Coastal hazard overlay code in Part 8 for requirements associated with this overlay map.
_	For further information regarding this overlay, please refer to the Flood and Coastal Hazard information sheet on Council's planning
-	scheme website (www.moretonbay.qld.gov.au/mbrcplanningscheme) or contact
-	council on 3205 0555.

25 OM-22 CHEP Overlay Map

	Moreton Bay Regional Council
	PLANNING SCHEME OVERLAY MAP - COASTAL HAZARD (EROSION PRONE AREA)
_	Property boundaries
	Erosion prone area
	Please read the following notes about this overlay map:
	This overlay map only affects you if your property is identified within the Erosion prone area, and you wish to develop.
	This overlay map identifies erosion prone areas based on mapping dated 21 January 2015. On 8 July 2015 new Erosion Prone Areas were declared. Applicants are required to review the SPP Interactive Mapping System to determine whether a property is within an erosion prone area.
BRUCE HW	Under State Government requirements, planning schemes must identify an area where coastal hazard planning controls apply. This overlay map shows Erosion prone areas. There is a separate overlay map which shows coastal areas which are subject to storm tide inundation.
	This map has been provided by the State Government. The Erosion prone area is the width of the coast that is considered
	to be vulnerable to coastal erosion and tidal inundation. Erosion risk due to future sea level rise from climate change has not
	been considered in this calculation of the erosion prone area.
RD	Refer to the Coastal hazard overlay table of assessment in Part 5 and Coastal hazard overlay code in Part 8 for requirements associated with this overlay map.
	For further information regarding this overlay, please refer to the Flood and Coastal Hazard information sheet on Council's planning scheme website (www.moretonbay.qld.gov.au/mbrcplanningscheme) or contact
	council on 3205 0555.

	PLANNING SCHEME OVERLAY MAP - COASTAL HAZARD (EROSION PRONE AREA)
	Property boundaries
	Erosion prone area
	Please read the following notes about this overlay map:
	This overlay map only affects you if your property is identified within the Erosion prone area, and you wish to develop.
	This overlay map identifies erosion prone areas based on mapping dated 21 January 2015. On 8 July 2015 new Erosion Prone Areas were declared. Applicants are required to review the SPP Interactive Mapping System to determine whether a property is within an erosion prone area.
-	Under State Government requirements, planning schemes must identify an area where coastal hazard planning controls apply. This overlay map shows Erosion prone areas. There is a separate overlay map which shows coastal areas which are subject to storm tide inundation.
	This map has been provided by the State Government.
	The Erosion prone area is the width of the coast that is considered to be vulnerable to coastal erosion and tidal inundation.
ENDR	Erosion risk due to future sea level rise from climate change has not been considered in this calculation of the erosion prone area.
PAV NN NN NN NN	Refer to the Coastal hazard overlay table of assessment in Part 5 and Coastal hazard overlay code in Part 8 for requirements associated with this overlay map.
	For further information regarding this overlay, please refer to the Flood and Coastal Hazard information sheet on Council's planning
	scheme website (www.moretonbay.gld.gov.au/mbrcplanningscheme) or contact council on 3205 0555.

FRANZ RD	PLANNING SCHEME OVERLAY MAP - COASTAL HAZARD (EROSION PRONE AREA)
/ -	Property boundaries
	Erosion prone area
	Please read the following notes about this overlay map:
	This overlay map only affects you if your property is identified
	within the Erosion prone area, and you wish to develop.
	This overlay map identifies erosion prone areas based on mapping dated 21 January 2015. On 8 July 2015 new Erosion Prone Areas were declared. Applicants are required to review the SPP Interactive Mapping System to determine whether a property is within an erosion prone area.
	Under State Government requirements, planning schemes must identify an area where coastal hazard planning controls apply. This overlay map shows Erosion prone areas. There is a separate overlay map which shows coastal areas which are subject to storm
	tide inundation.
	This map has been provided by the State Government. The Erosion prone area is the width of the coast that is considered to be vulnerable to coastal erosion and tidal inundation.
	Erosion risk due to future sea level rise from climate change has not
	been considered in this calculation of the erosion prone area. Refer to the Coastal hazard overlay table of assessment in Part 5 and
-	Coastal hazard overlay code in Part 8 for requirements associated with this overlay map.
	For further information regarding this overlay, please refer to the Flood and Coastal Hazard information sheet on Council's planning
1-47	scheme website ( <u>www.moretonbay.qld.gov.au/mbrcplanningschem</u> e) or contact council on 3205 0555.

-	PLANNING SCHEME OVERLAY MAP - COASTAL HAZARD (EROSION PRONE AREA)
_	Property boundaries
Burpengary Creek	Erosion prone area
	Please read the following notes about this overlay map:
	This overlay map only affects you if your property is identified within the Erosion prone area, and you wish to develop.
	This overlay map identifies erosion prone areas based on mapping dated 21 January 2015. On 8 July 2015 new Erosion Prone Areas were declared. Applicants are required to review the SPP Interactive Mapping System to determine whether a property is within an erosion
	prone area. Under State Government requirements, planning schemes must identify an area where coastal hazard planning controls apply. This overlay map shows Erosion prone areas. There is a separate overlay map which shows coastal areas which are subject to storm tide inundation.
	This map has been provided by the State Government.
	The Erosion prone area is the width of the coast that is considered to be vulnerable to coastal erosion and tidal inundation.
	Erosion risk due to future sea level rise from climate change has not been considered in this calculation of the erosion prone area.
	Refer to the Coastal hazard overlay table of assessment in Part 5 and Coastal hazard overlay code in Part 8 for requirements associated with this overlay map.
	For further information regarding this overlay, please refer to the Flood and Coastal Hazard information sheet on Council's planning
-	scheme website ( <u>www.moretonbay.qld.gov.au/mbrcplanningschem</u> e) or contact council on 3205 0555.

		PLANNING SCHEME OVERLAY MAP - COASTAL HAZARD (EROSION PRONE AREA)
	-	Property boundaries
	-	Erosion prone area
		Please read the following notes about this overlay map:
		This overlay map only affects you if your property is identified within the Erosion prone area, and you wish to develop.
		This overlay map identifies erosion prone areas based on mappin dated 21 January 2015. On 8 July 2015 new Erosion Prone Area were declared. Applicants are required to review the SPP Interactiv Mapping System to determine whether a property is within an erosio prone area.
	1	Under State Government requirements, planning schemes mus identify an area where coastal hazard planning controls apply. Thi
	V V	overlay map shows Erosion prone areas. There is a separat overlay map which shows coastal areas which are subject to storr tide inundation.
	< ▼ ✓	This map has been provided by the State Government.
		The Erosion prone area is the width of the coast that is considere to be vulnerable to coastal erosion and tidal inundation.
		Erosion risk due to future sea level rise from climate change has no been considered in this calculation of the erosion prone area.
-12-Mosenor		Refer to the Coastal hazard overlay table of assessment in Part 5 an Coastal hazard overlay code in Part 8 for requirements associate with this overlay map.
uol		For further information regarding this overlay, please refer to the Flood and Coastal Hazard information sheet on Council's plannin
		scheme website ( <u>www.moretonbay.qld.gov.au/mbrcplanningschem</u> e) or contac council on 3205 0555.

	OVERLAY MAP - COASTAL HAZARD
	(EROSION PRONE AREA)
	Property boundaries
$\longleftrightarrow$	
	Erosion prone area
${\longrightarrow}{\longrightarrow}{\longrightarrow}{\longrightarrow}{\longrightarrow}{\rightarrow}}{\rightarrow}{\rightarrow}{\rightarrow}{\rightarrow}}{\rightarrow}{\rightarrow}{\rightarrow}{\rightarrow}{\rightarrow}}{\rightarrow}\overset$	
	Please read the following notes about this overlay map:
$\sim\sim\sim\sim\sim\sim$	This overlay map only affects you if your property is identified
	within the Erosion prone area, and you wish to develop.
	This overlay map identifies erosion prone areas based on mapping
	dated 21 January 2015. On 8 July 2015 new Erosion Prone Areas
	were declared. Applicants are required to review the SPP Interactive
	Mapping System to determine whether a property is within an erosion prone area.
-	Under State Government requirements, planning schemes must
	identify an area where coastal hazard planning controls apply. This overlay map shows Erosion prone areas. There is a separate
	overlay map shows crossen prone areas. There is a separate overlay map which shows coastal areas which are subject to storm
	tide inundation.
-	This map has been provided by the State Government.
	The Erosion prone area is the width of the coast that is considered to be vulnerable to coastal erosion and tidal inundation.
-	Erosion risk due to future sea level rise from climate change has not
	been considered in this calculation of the erosion prone area.
-	Refer to the Coastal hazard overlay table of assessment in Part 5 and Coastal hazard overlay code in Part 8 for requirements associated
	with this overlay map. For further information regarding this overlay, please refer to the
	Flood and Coastal Hazard information sheet on Council's planning
-	scheme website
	( <u>www.moretonbay.qld.gov.au/mbrcplanningschem</u> e) or contact council on 3205 0555.

-	Moreton Bay Regional Council
_	PLANNING SCHEME OVERLAY MAP - COASTAL HAZARD (EROSION PRONE AREA)
	Property boundaries
-	Erosion prone area
-	Please read the following notes about this overlay map:
	This overlay map only affects you if your property is identified within the Erosion prone area, and you wish to develop.
-	This overlay map identifies erosion prone areas based on mapping dated 21 January 2015. On 8 July 2015 new Erosion Prone Areas were declared. Applicants are required to review the SPP Interactive Mapping System to determine whether a property is within an erosion prone area.
_	Under State Government requirements, planning schemes must identify an area where coastal hazard planning controls apply. This overlay map shows Erosion prone areas. There is a separate overlay map which shows coastal areas which are subject to storm tide inundation.
	This map has been provided by the State Government. The Erosion prone area is the width of the coast that is considered
-	to be vulnerable to coastal erosion and tidal inundation. Erosion risk due to future sea level rise from climate change has not
	been considered in this calculation of the erosion prone area. Refer to the Coastal hazard overlay table of assessment in Part 5 and
-	Coastal hazard overlay code in Part 8 for requirements associated with this overlay map.
-	For further information regarding this overlay, please refer to the Flood and Coastal Hazard information sheet on Council's planning scheme website ( <a href="http://www.moretonbay.qld.gov.au/mbrcplanningscheme">www.moretonbay.qld.gov.au/mbrcplanningscheme</a> ) or contact council on 3205 0555.
