NOTES:
1. Minimum concrete grade N32, refer project documentation for details.
2. A penetrating concrete sealer shall be applied to all tactile ground surface indicators (TGSIs). Either 'Pro Glo Professional Seal', 'Concrete Colour System (CCS) Streetscape Sealer' or 'Base Mterseal 333' or approved equivalent.
3. TGSIs shall meet the luminance contrast requirements with the background pavements required by AS1428.4. The TGSIs selection was the result of the independent testing using the methodology setout in Appendix E of AS1428.4.
4. Dimensions in millimetres unless noted otherwise.
