

WALTER STREET, STREET IMPROVEMENTS CABOOLTURE

ABOUT THE PROJECT

Moreton Bay Regional Council is committed to improving the provision of high quality public spaces that enhance the natural character of an area.

Works have been identified along Walter Street, Caboolture. This project aims to create improvements that support road user safety and strengthen pedestrian connections to the Caboolture Train Station and neighbouring Health and Education precincts.

The scope of works includes:

- Reduced speed limit from 50kmh to 40kmh;
- Improved pedestrian crossing connections;
- Provide high quality pedestrian connections between the Caboolture Train Station, Caboolture Hospital and Education precincts;
- Traffic calming;
- Local road threshold treatments;
- New landscaping of native coastal vegetation;
- Installation of new Wayfinding Signage,
- Street lighting Upgrades.
- Upgrade of existing drainage infrastructure
