Given name/s: Surname:

Postal address:

Home number: Mobile phone: Work phone:

Email address:

Power pole details:

Location of pole:

Power pole number:

Reason for request:

Customer summary:

- An assessment of the streetlight and surrounding area will be required. Consideration will be given to the general standard of lighting in the area, traffic safety and the needs of pedestrians before council agrees to the shading of a streetlight.
- When completing this application, it is necessary for you to establish on which power pole you would like the streetlight shade placed, and identify to Council by its location and pole number.
- On receipt of the completed form, an officer will investigate the request to determine the need and type of shade.
- If the request is approved and the cost is your responsibility, Council will provide written advice of the street lighting authority's fee. This is the fee for Energex to install the light shade. Should you be willing to proceed, the street lighting authority's fee must be paid to Council prior to Council arranging for the shade to be installed by the street lighting authority.
- For further information, refer to council's '*Shading of streetlights' policy 10-2150-012*
