

Council is planning to upgrade key strategic roads across the City to cater for the needs of the community and meet demand, both now and into the future. This includes the 5km upgrade of Old Gympie Road between Boundary Road, Dakabin and Anzac Avenue, Kallangur.

Why is the work happening?

The upgrades to Old Gympie Road will:

- improve safety for road users and pedestrians by signalling key intersections
- reduce travel times and improve traffic flow by widening the road
- create better and safer active transport options by installing footpaths, cycle lanes and signalised pedestrian crossings
- improve the flood immunity by installing better drainage.

What specific works are being done?

Early works will soon be commencing on Old Gympie Road between Highet Street to Viney Avenue. A map of the works location can be found on page two.

These early works include removing some trees and relocating some property fences.

If your property will be directly affected by the early works, you have already been contacted by Council officers and you have written agreements in place.

When will the work be done?

The early works will commence in February 2024 and are expected to conclude by May 2024, pending weather and other unforeseeable circumstance.

Works will take place during the day, between 7am and 6pm, Monday to Friday.

It is anticipated that works to install new underground power will commence in mid-2024. You will receive another project update one month before these works start confirming timeframes.

How will you be affected?

There will be no road closures during the early works however there may be some traffic control measures in place to ensure workers' safety. There will also be some noise impacts from construction works. Council representatives will liaise directly with individual property owners before carrying out works on their properties.

Who to contact

If you would like more information about the work, or want to provide feedback during the delivery of early works, please contact Council's Project Manager, Bijay Bhushal, on phone 3205 0555 or email council@moretonbay.qld.gov.au.
