

Is your school / centre leading the way to 'Rethink Waste' in the Moreton Region?

Do you engage in daily practices and behaviours that recycle, reuse, reduce, and avoid wastage of valuable resources?

The Moreton Bay Regional Council invites schools and early learning centres to take part in the annual sustainability recognition program.

Our goal is to discover champion sites from across the region that are leading the way in sustainable waste management including: minimising waste to landfill, diverting materials for recycling and resource recovery, practicing reuse and reduction of material consumption, and engaging students and staff in these best practices.

Council would like to acknowledge, celebrate, and promote your school's / centre's dedication and commitment towards best practice waste management.

How to get involved:

- **Register** your school / centre **by Friday 24th of March 2023 (Term 1, Week 9) at 5pm**. You will then receive a Teacher Information Booklet, along with a Champion Site Profile form to complete.
- Collect and enter data regarding the waste services, volumes, and practices at your school / centre. **Return the Champion Site Report by Friday 28th of April 2023 (Term 2, Week 2) at 5pm**.
- Plan, implement, and refine your waste management practices and behaviours.
- **Produce and submit** your final Champion Site Report that demonstrates improvements in your waste management practices by **Friday 27th of October 2023 at 5pm**.

Final Champion Site Reports will be evaluated against a set of criteria including efforts in waste avoidance, reduction, reuse, and recycling. All submissions will receive a report card providing feedback and suggestions for improving best practices in waste management.

Submissions that meet the criteria of a 'Sustainability Champion' will be contacted by Council's waste minimisation team for a site visit and inspection. Sites that are awarded 'Sustainability Champion' status will be provided with a certificate and an award to be publicly displayed at the school / centre.

SUSTAINABILITY CHAMPIONS 2023

 Rethink waste. Let's get it sorted

Registration:

Our school / centre wishes to register for the Sustainability Champions Program. Please send us an information booklet.

Our school / centre is interested in the Sustainability Champions Program. We would like a phone call to discuss further.
