ITEM 4.1 BAY AVENUE DECEPTION BAY - DRAINAGE RESTORATION WORKS - DIVISION 5 - A18244207 (Cont.)

REPORT DETAIL

1. Background

The Bay Avenue drain is an open lined concrete drain capturing the runoff from the localised area of Deception Bay and discharging into Deception Bay. It has been identified that a section of the drainage wall at Bay Avenue, Deception Bay has deteriorated and collapsed as a result of recent rain events. A temporary solution has been put in place; however, upon further inspection, there are signs of distress (vertical lateral movement) along the remaining wall and a long term permanent solution is required to stabilise the wall. Engineered designs have been sought to allow the drainage wall to be restored to a stable functional condition.
