Complaints Management Process – Administrative Action Complaints

Council has adopted a policy to effectively manage all administrative action complaints from receipt to resolution. The following principles are followed to ensure fairness when conducting an investigation of a complaint:

- · Procedural fairness/natural justice is to be applied
- · The establishment and maintenance of a complete document trail as it may be needed to facilitate a subsequent review
- Where appropriate, the civil standard of proof applies for administrative investigations. This means that for a complaint to be upheld, it must have been determined that it is a more likely outcome in the circumstances
- · Confidentiality about the investigation must be maintained to the extent that it can reasonably be achieved, subject to other legal requirements about the disclosure of information.

The assessment of a complaint has three stages which are as follows:

- · Stage One Initial assessment
- Stage Two Comprehensive assessment
- Stage Three Resolving a complaint.

Further information can be obtained at www.moretonbay.qld.gov.au

Council maintains a Complaints Register with details regarding the outcomes of complaints. This register is reviewed in relation to the type of complaints and resolution rates. The majority of complaints were successfully resolved in 2014/15.

There were 8 complaints lodged under the Complaints Process – Administrative Action Complaints during 2014/15.

There was one complaint outstanding from the previous financial year and one complaint remained outstanding under the policy at the end of this reporting period.

Bribie Gardens Canal Maintenance Special Charge

Council made and levied the Bribie Gardens Canal Maintenance Special Charge on the rateable land described below for the purpose of funding works for preserving, maintaining and keeping clean and navigable the canals and preserving and maintaining the lock and weir at Bribie Gardens.

The special charge applied to properties in the Bribie Gardens estate with canal frontage regardless of whether they are located in front of or behind the lock and weir. To avoid confusion, this included lots in community titles schemes where the scheme land has canal frontage. The whole area is precisely delineated on a map prepared and adopted by the Council for this purpose.

The special charge raised \$154,935 and \$229,853 was spent in the 2014/15 financial year.

Redcliffe Aerodrome Special Charge

Council made and levied the Redcliffe Aerodrome Special Charge on the rateable land identified below for the purpose of funding works for the operation, maintenance, repair and upgrading of Redcliffe Aerodrome.

The special charge is levied on rateable properties comprising the leased private, business or commercial sites adjacent to Redcliffe Aerodrome. As the Redcliffe Aerodrome is not a commercial airport, the primary use of and benefit from the operation, maintenance and upgrading of the aerodrome is conferred upon the private air transport and aviation-related businesses which occupy premises within the aerodrome boundaries. The level of this special charge has been set by Council to reflect sufficient and equitable contributions by these property owners to the cost of providing both operational and capital works and services at the aerodrome. The special charge raised \$109,587 in the 2014/15 financial year

Further information on the special charges for the 2014/15 financial year is available in council's budget, accessible online at www.moretonbay.gld.gov.au
