

## 6.2.10 Rural zone code

### 6.2.10.1 Application - Rural zone

This code applies to undertaking development in the Rural zone, if:

1. the development has been categorised as either accepted development subject to requirements or assessable development - code assessment, and this code is identified as applicable to that development in the assessment benchmarks for assessable development and requirements for accepted development column of a table of assessment (Part 5);
2. the development has been categorised as assessable development - impact assessment (Part 5).

When using this code, reference should be made to section 5.3.2 Determining the category of development and category of assessment and, where applicable, section 5.3.3 Determining and applying the requirements for accepted development and the assessment benchmarks for assessable development located in Part 5.

For accepted development subject to requirements or assessable development under this Code :

1. Part A of the code applies to accepted development subject to requirements
2. Part B of the code applies to assessable development.

A dwelling house<sup>(22)</sup> in this zone is not subject to Schedule 6, Part 2, Item 2. Development associated with a dwelling house<sup>(22)</sup> is subject to the relevant provisions in this code and not the dwelling house code.

### 6.2.10.2 Purpose - Rural zone

1. The Rural zone comprises land where general rural activities are established. In addition to land being zoned Rural, there are five separate precincts. Each precinct represents an area having significant qualities or character making them distinctive from the Rural zone in general, and each other. Therefore, in addition to the general Rural zone purpose statements, overall outcomes and assessment criteria, there are specific precinct based purpose statements, overall outcomes and assessment criteria. These provide specific guidance and directions to the land use outcomes sought in each precinct that are in addition to the Rural zone in general. Therefore, the general Rural zone overall outcomes also apply to this precinct. Where there is a conflict, the precinct specific overall outcomes and development tables take precedence and the general Rural zone outcomes and development tables do not apply.
2. The purpose of the **Rural zone** code is to:
  - a. provide for a wide range of rural uses including cropping<sup>(19)</sup>, intensive horticulture<sup>(40)</sup>, intensive animal industries<sup>(39)</sup>, animal husbandry<sup>(4)</sup>, animal keeping<sup>(5)</sup> and other primary production activities;
  - b. provide for non-rural uses that are compatible with agriculture, the environment, and the landscape character of the rural area where they do not compromise the long-term use of the land for rural purposes;
  - c. protect and manage significant natural features, resources, and processes, including the capacity for primary production;
  - d. ensure the rural area remains a pleasant place for people to work, live and recreate;
  - e. restrict further encroachment of urban and rural residential activities into rural areas and reinforce the Regions' identified urban footprint;
  - f. implement the policy direction set in Part 3, Strategic Framework.
3. The purpose of the **Rural zone** will be achieved through the following overall outcomes:
  - a. A wide range of rural uses, as identified in the table below, are established.

## 6 Zones

- b. Rural activities and primary production activities are protected from intrusion by incompatible development.
- c. Intensive rural activities such as animal keeping<sup>(5)</sup>, aquaculture<sup>(6)</sup>, and intensive animal industry<sup>(39)</sup>:
  - i. provide appropriate separation distance to sensitive land uses;
  - ii. avoid odour, dust, noise and visual impacts on sensitive land uses;
  - iii. avoid adversely affecting water quality in waterways and water catchments; and
  - iv. are not located adjacent to sensitive land uses or land zoned for residential and rural residential purposes.
- d. Residential uses are limited to a single dwelling house<sup>(22)</sup> per allotment. A secondary dwelling is permitted provided it functions and appears subordinate to the principal dwelling house<sup>(22)</sup>.
- e. A range of housing options provide short-term accommodation<sup>(77)</sup> for tourists in proximity to tourist attractions<sup>(83)</sup>.
- f. Accommodation for rural workers is provided on or in close proximity to rural activities.
- g. Active and passive outdoor recreational opportunities for residents and visitors to the region are established.
- h. Intensification of existing and new commercial and retail development does not occur.
- i. Development maintains the open area character and scenic amenity, including the low density, low intensity and dispersed built form which defines the rural place type.
- j. Development does not adversely affect the operation of aviation facilities at Mt Glorious (See Overlay map - Infrastructure buffers). This aviation facility comprises a VHF beacon.
- k. Development does not result in adverse or nuisance impacts on adjoining properties or the wider rural environment. Any adverse or nuisance impacts are contained and internalised to the lot through location, design, operation and on-site management practices.
- l. Development generating high volumes of traffic or involving heavy vehicle traffic movements is located on roads of a standard and capacity to accommodate traffic demand.
- m. Development does not result in the establishment of industrial activities, other than rural industry<sup>(70)</sup>.
- n. General works associated with the development achieves the following:
  - i. a high standard of electricity, telecommunications, roads, sewerage, water supply and street lighting services is provided to new developments to meet the current and future needs of users of the site;
  - ii. the development manages stormwater to:
    - A. ensure the discharge of stormwater does not adversely affect the quality, environmental values or ecosystem functions of downstream receiving waters;
    - B. prevent stormwater contamination and the release of pollutants;
    - C. maintain or improve the structure and condition of drainage lines and riparian areas;
    - D. avoid off-site adverse impacts from stormwater.
  - iii. the development does not result in unacceptable impacts on the capacity on the capacity and safety of the external road network;
  - iv. the development ensures the safety, efficiency and useability of access ways and parking areas;
  - v. site works including earthworks are managed to be safe and have minimal impacts on adjoining or adjacent premises, the streetscape or the environment.

- o. Activities associated with the use do not cause a nuisance by way of aerosols, fumes, light, noise, odour, particles or smoke.
- p. Noise generating uses are designed, sited and constructed to minimise the transmission of noise to appropriate levels and do not cause environmental harm or nuisance.
- q. Noise sensitive uses are designed, sited and constructed so as not to be subject to levels of noise expected from rural activities.
- r. Development in a Water supply buffer is undertaken in a manner which contributes to the maintenance and enhancement where possible of water quality to protect the drinking water and aquatic ecosystem environmental values in those catchments.
- s. Development avoids areas subject to constraint, limitation, or environmental value. Where development cannot avoid these identified areas, it responds by:
- i. adopting a 'least risk, least impact' approach when designing, siting and locating development in any area subject to a constraint, limitation or environmental value to minimise the potential risk to people, property and the environment;
  - ii. ensuring no further instability, erosion or degradation of the land, water or soil resource;
  - iii. when located within a Water buffer area, complying with the Water Quality Vision and Objectives contained in the Seqwater Development Guidelines: Development Guidelines for Water Quality Management in Drinking Water Catchments 2012.
  - iv. maintaining, restoring and rehabilitating environmental values, including natural, ecological, biological, aquatic, hydrological and amenity values, and enhancing these values through the provision of planting and landscaping, and facilitating safe wildlife movement and connectivity through:
    - A. the provision of replacement, restoration, rehabilitation planting and landscaping;
    - B. the location, design and management of development to avoid or minimise adverse impacts on ecological systems and processes;
    - C. the requiring of environmental offsets in accordance with the Environmental Offsets Act 2014.
  - v. protecting native species and protecting and enhancing species habitat;
  - vi. protecting and preserving the natural, aesthetic, architectural historic and cultural values of significant trees, places, objects and buildings of heritage and cultural significance;
  - vii. establishing effective separation distances, buffers and mitigation measures associated with identified infrastructure to minimise adverse effects on sensitive land uses from odour, noise, dust and other nuisance generating activities;
  - viii. establishing, maintaining and protecting appropriate buffers to waterways, wetlands, native vegetation and significant fauna habitat;
  - ix. ensuring it promotes and does not undermine the ongoing viability, integrity, operation, maintenance and safety of identified infrastructure;
  - x. ensuring effective and efficient disaster management response and recovery capabilities;
  - xi. where located in an overland flow path:
    - A. development siting, built form, layout and access responds to the risk presented by the overland flow and minimises risk to personal safety;
    - B. development is resilient to the impacts of overland flow by ensuring the siting and design accounts for the potential risks to property associated with the overland flow;
    - C. development does not impact on the conveyance of the overland flow for any event up to and including the 1% AEP for the fully developed upstream catchment;
    - D. development directly, indirectly and cumulatively avoid an increase in the severity of overland flow and potential for damage on the premises or other premises, public lands, watercourses, roads or infrastructure.
- t. Development in the Rural zone includes one or more of the following:

• Animal husbandry <sup>(4)</sup>	• Dwelling house <sup>(22)</sup>	• Park <sup>(57)</sup>
-----------------------------------	----------------------------------	------------------------

## 6 Zones

<ul style="list-style-type: none"> <li>Animal keeping<sup>(5)</sup> (excluding catteries and kennels)</li> <li>Aquaculture<sup>(6)</sup> (if water area associated with ponds and dams are less than 200m<sup>2</sup> or housed tanks less than 50m<sup>2</sup>)</li> <li>Community residence<sup>(16)</sup></li> <li>Cropping<sup>(19)</sup>, where not forestry for wood production</li> <li>Cropping<sup>(19)</sup>, where forestry for wood production</li> </ul>	<ul style="list-style-type: none"> <li>Emergency services<sup>(25)</sup></li> <li>Environment facility<sup>(26)</sup></li> <li>Home based business<sup>(35)</sup></li> <li>Intensive animal industry<sup>(39)</sup></li> <li>Intensive horticulture<sup>(40)</sup></li> <li>Outdoor sports and recreation<sup>(55)</sup> (if located on Council owned or controlled land and in accordance with a Council approved Master Plan)</li> <li>Non-resident workforce accommodation<sup>(52)</sup></li> </ul>	<ul style="list-style-type: none"> <li>Permanent plantation<sup>(59)</sup></li> <li>Roadside stall<sup>(68)</sup></li> <li>Rural industry<sup>(70)</sup></li> <li>Rural workers' accommodation<sup>(71)</sup></li> <li>Sales office<sup>(72)</sup></li> <li>Telecommunication facility<sup>(81)</sup></li> <li>Transport depot<sup>(85)</sup> (where on lots 16 ha or more)</li> <li>Veterinary services<sup>(87)</sup></li> <li>Wholesale nursery<sup>(89)</sup></li> <li>Winery<sup>(90)</sup></li> </ul>
---	---	---

u. Development in the Rural zone does not include any of the following:

<ul style="list-style-type: none"> <li>Adult store<sup>(1)</sup></li> <li>Bar<sup>(7)</sup></li> <li>Brothel<sup>(8)</sup></li> <li>Caretaker's accommodation<sup>(10)</sup></li> <li>Car wash<sup>(11)</sup></li> <li>Child care centre<sup>(13)</sup></li> <li>Community care centre<sup>(15)</sup></li> <li>Detention facility<sup>(20)</sup></li> <li>Dual occupancy<sup>(21)</sup></li> <li>Dwelling unit<sup>(23)</sup></li> <li>Funeral parlour<sup>(30)</sup></li> <li>Hardware and trade supplies<sup>(32)</sup></li> <li>Health care services<sup>(33)</sup></li> <li>High impact industry<sup>(34)</sup></li> </ul>	<ul style="list-style-type: none"> <li>Hospital<sup>(36)</sup></li> <li>Hotel<sup>(37)</sup></li> <li>Indoor sport and recreation<sup>(38)</sup></li> <li>Low impact industry<sup>(42)</sup></li> <li>Major sports, recreation and entertainment facility<sup>(44)</sup></li> <li>Marine industry<sup>(45)</sup></li> <li>Medium impact industry<sup>(47)</sup></li> <li>Multiple dwelling<sup>(49)</sup></li> <li>Nightclub entertainment facility<sup>(51)</sup></li> <li>Office<sup>(53)</sup></li> <li>Outdoor sales<sup>(54)</sup></li> <li>Parking station<sup>(58)</sup></li> </ul>	<ul style="list-style-type: none"> <li>Port services<sup>(61)</sup></li> <li>Relocatable home park<sup>(62)</sup></li> <li>Research and technology industry<sup>(64)</sup></li> <li>Residential care facility<sup>(65)</sup></li> <li>Retirement facility<sup>(67)</sup></li> <li>Rooming accommodation<sup>(69)</sup></li> <li>Shop<sup>(75)</sup></li> <li>Shopping centre<sup>(76)</sup></li> <li>Showroom<sup>(78)</sup></li> <li>Special industry<sup>(79)</sup></li> <li>Theatre<sup>(82)</sup></li> <li>Warehouse<sup>(88)</sup></li> </ul>
--	--	--

Note - A dwelling provided for a caretaker of a non-residential use in the Rural zone is defined as Rural workers' accommodation<sup>(71)</sup>.

- v. Development not listed in the tables above will be considered on its merit and where it reflects and supports the outcomes of the zone.

### Precincts

4. The purpose of the **Agriculture precinct** is to recognise land that is highly suitable for productive agriculture and protecting the long-term productive capability of that land.
5. The purpose of the **Agriculture precinct** will be achieved through the following additional overall outcomes. Please note that the general Rural zone overall outcomes also apply to this precinct. Where there is a conflict, the precinct specific overall outcome takes precedence:
- Uses having a focus on primary production or requiring access to fertile soils are established.
  - Development not supporting the continued use of land for primary production purposes or requiring access to fertile soils do not occur.
  - Permanent plantations<sup>(59)</sup> do not occur.
  - Development does not limit or constrain existing and future primary production capability of the land.
  - Development in the Agriculture precinct includes one or more of the following:

<ul style="list-style-type: none"> <li>Animal husbandry<sup>(4)</sup></li> <li>Aquaculture<sup>(6)</sup></li> <li>Community residence<sup>(16)</sup></li> <li>Cropping<sup>(19)</sup>, where not forestry for wood production</li> <li>Cropping<sup>(19)</sup>, where forestry for wood production</li> <li>Dwelling house<sup>(22)</sup></li> <li>Emergency services<sup>(25)</sup></li> <li>Environment facility<sup>(26)</sup></li> </ul>	<ul style="list-style-type: none"> <li>Home based business<sup>(35)</sup></li> <li>Intensive animal industry<sup>(39)</sup></li> <li>Intensive horticulture<sup>(40)</sup></li> <li>Non-resident workforce accommodation<sup>(52)</sup></li> <li>Outdoor sports and recreation<sup>(55)</sup> (if located on Council owned or controlled land and in accordance with a Council approved Master Plan)</li> </ul>	<ul style="list-style-type: none"> <li>Park<sup>(57)</sup></li> <li>Roadside stall<sup>(68)</sup></li> <li>Rural industry<sup>(70)</sup></li> <li>Rural workers' accommodation<sup>(71)</sup></li> <li>Sales office<sup>(72)</sup></li> <li>Telecommunication facility<sup>(81)</sup></li> <li>Wholesale nursery<sup>(89)</sup></li> <li>Winery<sup>(90)</sup></li> </ul>
--	---	---

- f. Development in the Agriculture precinct does not include any of the following:

<ul style="list-style-type: none"> <li>Adult store<sup>(1)</sup></li> <li>Agricultural supplies store<sup>(2)</sup></li> <li>Bar<sup>(7)</sup></li> <li>Brothel<sup>(8)</sup></li> <li>Caretaker's accommodation<sup>(10)</sup></li> <li>Car wash<sup>(11)</sup></li> <li>Child care centre<sup>(13)</sup></li> </ul>	<ul style="list-style-type: none"> <li>Hardware and trade supplies<sup>(32)</sup></li> <li>Health care services<sup>(33)</sup></li> <li>High impact industry<sup>(34)</sup></li> <li>Hospital<sup>(36)</sup></li> <li>Hotel<sup>(37)</sup></li> <li>Indoor sport and recreation<sup>(38)</sup></li> <li>Low impact industry<sup>(42)</sup></li> </ul>	<ul style="list-style-type: none"> <li>Parking station<sup>(58)</sup></li> <li>Permanent plantation<sup>(59)</sup></li> <li>Port services<sup>(61)</sup></li> <li>Relocatable home park<sup>(62)</sup></li> <li>Research and technology industry<sup>(64)</sup></li> <li>Residential care facility<sup>(65)</sup></li> <li>Retirement facility<sup>(67)</sup></li> </ul>
---	---	--

## 6 Zones

<ul style="list-style-type: none"> <li>• Club<sup>(14)</sup></li> <li>• Community care centre<sup>(15)</sup></li> <li>• Crematorium<sup>(18)</sup></li> <li>• Detention facility<sup>(20)</sup></li> <li>• Dual occupancy<sup>(21)</sup></li> <li>• Dwelling unit<sup>(23)</sup></li> <li>• Funeral parlour<sup>(30)</sup></li> <li>• Garden centre<sup>(31)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Major sports, recreation and entertainment facility<sup>(44)</sup></li> <li>• Marine industry<sup>(45)</sup></li> <li>• Medium impact industry<sup>(47)</sup></li> <li>• Multiple dwelling<sup>(49)</sup></li> <li>• Nightclub entertainment facility<sup>(51)</sup></li> <li>• Office<sup>(53)</sup></li> <li>• Outdoor sales<sup>(54)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Rooming accommodation<sup>(69)</sup></li> <li>• Shop<sup>(75)</sup></li> <li>• Shopping centre<sup>(76)</sup></li> <li>• Showroom<sup>(78)</sup></li> <li>• Special industry<sup>(79)</sup></li> <li>• Theatre<sup>(82)</sup></li> <li>• Warehouse<sup>(88)</sup></li> </ul>
---	---	---

Note - A dwelling provided for a caretaker of a non-residential use in the rural zone is defined as Rural workers' accommodation<sup>(71)</sup>.

- g. Development not listed in the tables above will be considered on its merit and where it reflects and supports the outcomes of the precinct and zone.
6. The purpose of the **Cedarton Foresters Cooperative and Mt Nebo plant nursery precinct** is to recognise the presence of multiple dwellings<sup>(49)</sup> and buildings on a single lot at Cedarton and Mt Nebo respectively, supported by a land management plan addressing significant on-site constraints.
7. The purpose of the **Cedarton Foresters Cooperative and Mt Nebo plant nursery precinct** will be achieved through the following additional overall outcomes.
- Development does not expand over and above the 22 residential entitlements (multiple dwelling units<sup>(23)</sup>) for Cedarton Foresters Cooperative site, and the 16 residential entitlements (multiple dwelling units<sup>(23)</sup>) for the Mt Nebo plant nursery site.
  - Development is limited and is permitted to occur only in accordance with the approved Cedarton Foresters Cooperative land management plan and Mt Nebo plant nursery land management plan located at the end of the zone code and identified as Table A and Table B respectively.
  - Development obtain all necessary planning, building and plumbing approvals in a timely manner.
  - Development of the **Cedarton Foresters Cooperative** land management plan site includes one or more of the following only where in accordance with the land management plan located at the end of the zone code and identified as Table A:

<ul style="list-style-type: none"> <li>• Animal husbandry<sup>(4)</sup></li> <li>• Community use<sup>(17)</sup>, where for a community hall only</li> </ul>	<ul style="list-style-type: none"> <li>• Cropping<sup>(19)</sup></li> <li>• Environmental facility<sup>(26)</sup></li> <li>• Home based business<sup>(35)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Multiple dwelling<sup>(49)</sup> and associated outbuildings</li> <li>• Permanent plantation<sup>(59)</sup></li> <li>• Roadside stall<sup>(68)</sup></li> </ul>
---	--	--

- e. Development of the **Cedarton Foresters Cooperative** land management plan site does not include any of the following:

<ul style="list-style-type: none"> <li>• Adult store<sup>(1)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• High impact industry<sup>(34)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Relocatable home park<sup>(62)</sup></li> </ul>
---	---	--

<ul style="list-style-type: none"> <li>• Agricultural supplies store<sup>(2)</sup></li> <li>• Air services<sup>(3)</sup></li> <li>• Animal keeping<sup>(5)</sup></li> <li>• Aquaculture<sup>(6)</sup></li> <li>• Bar<sup>(7)</sup></li> <li>• Brothel<sup>(8)</sup></li> <li>• Bulk landscape supplies<sup>(9)</sup></li> <li>• Car wash<sup>(11)</sup></li> <li>• Caretaker's accommodation<sup>(10)</sup></li> <li>• Cemetery<sup>(12)</sup></li> <li>• Child care centre<sup>(13)</sup></li> <li>• Club<sup>(14)</sup></li> <li>• Community care centre<sup>(15)</sup></li> <li>• Community residence<sup>(16)</sup></li> <li>• Community use<sup>(17)</sup> not in accordance with Management Plan</li> <li>• Crematorium<sup>(18)</sup></li> <li>• Detention facility<sup>(20)</sup></li> <li>• Dual occupancy<sup>(21)</sup></li> <li>• Dwelling house<sup>(22)</sup></li> <li>• Dwelling unit<sup>(23)</sup></li> <li>• Educational establishment<sup>(24)</sup></li> <li>• Emergency services<sup>(25)</sup></li> <li>• Extractive industry<sup>(27)</sup></li> <li>• Food and drink outlet<sup>(28)</sup></li> <li>• Function facility<sup>(29)</sup></li> <li>• Funeral parlour<sup>(30)</sup></li> <li>• Garden centre<sup>(31)</sup></li> <li>• Hardware and trade supplies<sup>(32)</sup></li> <li>• Health care services<sup>(33)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Hospital<sup>(36)</sup></li> <li>• Hotel<sup>(37)</sup></li> <li>• Indoor sport and recreation<sup>(38)</sup></li> <li>• Intensive animal industry<sup>(39)</sup></li> <li>• Intensive horticulture<sup>(40)</sup></li> <li>• Landing<sup>(41)</sup></li> <li>• Low impact industry<sup>(42)</sup></li> <li>• Major electricity infrastructure<sup>(43)</sup></li> <li>• Major sport, recreation and entertainment facility<sup>(44)</sup></li> <li>• Marine industry<sup>(45)</sup></li> <li>• Market<sup>(46)</sup></li> <li>• Medium impact industry<sup>(47)</sup></li> <li>• Motor sport facility<sup>(48)</sup></li> <li>• Multiple dwelling<sup>(49)</sup> not in accordance with the Management Plan</li> <li>• Nature-based tourism<sup>(50)</sup></li> <li>• Nightclub entertainment facility<sup>(51)</sup></li> <li>• non-resident workforce accommodation<sup>(52)</sup></li> <li>• Office<sup>(53)</sup></li> <li>• Outdoor sales<sup>(54)</sup></li> <li>• Outdoor sport and recreation<sup>(55)</sup></li> <li>• Park<sup>(57)</sup></li> <li>• Parking station<sup>(58)</sup></li> <li>• Place of worship<sup>(60)</sup></li> <li>• Port services<sup>(61)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Renewable energy facility<sup>(63)</sup></li> <li>• Research and technology industry<sup>(64)</sup></li> <li>• Residential care facility<sup>(65)</sup></li> <li>• Resort complex<sup>(66)</sup></li> <li>• Retirement facility<sup>(67)</sup></li> <li>• Rooming accommodation<sup>(69)</sup></li> <li>• Rural industry<sup>(70)</sup></li> <li>• Rural workers, accommodation<sup>(71)</sup></li> <li>• Sales office<sup>(72)</sup></li> <li>• Service industry<sup>(73)</sup></li> <li>• Service station<sup>(74)</sup></li> <li>• Shop<sup>(75)</sup></li> <li>• Shopping centre<sup>(76)</sup></li> <li>• Short-term accommodation<sup>(77)</sup></li> <li>• Showroom<sup>(78)</sup></li> <li>• Special industry<sup>(79)</sup></li> <li>• Substation<sup>(80)</sup></li> <li>• Telecommunications facility<sup>(81)</sup></li> <li>• Theatre<sup>(82)</sup></li> <li>• Tourist attraction<sup>(83)</sup></li> <li>• Tourist park<sup>(84)</sup></li> <li>• Transport depot<sup>(85)</sup></li> <li>• Utility installation<sup>(86)</sup></li> <li>• Veterinary services<sup>(87)</sup></li> <li>• Warehouse<sup>(88)</sup></li> <li>• Wholesale nursery<sup>(89)</sup> not in accordance with the Management Plan</li> <li>• Winery<sup>(90)</sup></li> </ul>

--	---	---

h. Development not listed in the tables above will be considered on its merit and where it reflects and supports the outcomes of the precinct and zone.

8. The purpose of the **Hamlet precinct** is to recognise existing, isolated small lot residential development at Mt Mee, Mt Glorious and Mt Nebo.
9. The purpose of the **Hamlet precinct** will be achieved through the following additional overall outcomes. Please note that the general Rural zone overall outcomes also apply to this precinct. Where there is a conflict, the precinct specific overall outcome takes precedence :
- Residential development is low density and in the form of low rise, single detached dwellings on large residential lots. Dual occupancy<sup>(21)</sup> and other forms of multi-unit development do not establish.
  - No further urban expansion due to the separation and isolation from existing population centres resulting in the inefficient demand for additional facilities and services, presence of significant physical constraints (e.g flooding, bushfire etc) and servicing constraints.
  - Limited rural uses establish to protect existing sensitive land uses.
  - Development in the Hamlet precinct includes one or more of the following:

<ul style="list-style-type: none"> <li>• Animal husbandry<sup>(4)</sup></li> <li>• Community residence<sup>(16)</sup></li> <li>• Dwelling house<sup>(22)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Emergency services<sup>(25)</sup></li> <li>• Environmental facility<sup>(26)</sup></li> <li>• Home based business<sup>(35)</sup></li> <li>• Park<sup>(57)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Roadside stall<sup>(68)</sup></li> <li>• Sales office<sup>(72)</sup></li> <li>• Telecommunication facility<sup>(81)</sup></li> </ul>
---	---	---

e. Development in the Hamlet precinct does not include one or more of the following:

<ul style="list-style-type: none"> <li>• Adult store<sup>(1)</sup></li> <li>• Agricultural supplies store<sup>(2)</sup></li> <li>• Bar<sup>(7)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Health care services<sup>(33)</sup></li> <li>• High impact industry<sup>(34)</sup></li> <li>• Hospital<sup>(36)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Office<sup>(53)</sup></li> <li>• Outdoor sales<sup>(54)</sup></li> <li>• Parking station<sup>(58)</sup></li> </ul>
---	---	---

## 6 Zones

<ul style="list-style-type: none"> <li>• Brothel<sup>(8)</sup></li> <li>• Caretaker's accommodation<sup>(10)</sup></li> <li>• Car wash<sup>(11)</sup></li> <li>• Child care centre</li> <li>• Club<sup>(14)</sup></li> <li>• Community care centre<sup>(15)</sup></li> <li>• Crematorium<sup>(18)</sup></li> <li>• Detention facility<sup>(20)</sup></li> <li>• Dual occupancy<sup>(21)</sup></li> <li>• Dwelling unit<sup>(23)</sup></li> <li>• Funeral parlour<sup>(30)</sup></li> <li>• Garden centre<sup>(31)</sup></li> <li>• Hardware and trade supplies<sup>(32)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Hotel<sup>(37)</sup></li> <li>• Indoor sport and recreation<sup>(38)</sup></li> <li>• Intensive horticulture<sup>(40)</sup></li> <li>• Low impact industry<sup>(42)</sup></li> <li>• Major sports, recreation and entertainment facility<sup>(44)</sup></li> <li>• Marine industry<sup>(45)</sup></li> <li>• Medium impact industry<sup>(47)</sup></li> <li>• Multiple dwelling<sup>(49)</sup></li> <li>• Nightclub entertainment facility<sup>(51)</sup></li> <li>• Non-resident workforce accommodation<sup>(52)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Port services<sup>(61)</sup></li> <li>• Relocatable home park<sup>(62)</sup></li> <li>• Research and technology industry<sup>(64)</sup></li> <li>• Residential care facility<sup>(65)</sup></li> <li>• Retirement facility<sup>(67)</sup></li> <li>• Rooming accommodation<sup>(69)</sup></li> <li>• Shopping centre<sup>(76)</sup></li> <li>• Showroom<sup>(78)</sup></li> <li>• Special industry<sup>(79)</sup></li> <li>• Theatre<sup>(82)</sup></li> <li>• Warehouse<sup>(88)</sup></li> </ul>
--	--	---

Note - A dwelling provided for a caretaker of a non-residential use in the Rural zone is defined as Rural workers' accommodation<sup>(71)</sup>.

- f. Development not included in the tables above will be considered on its merits and where it reflects and supports the outcomes of the precinct.
10. The purpose of the **Woodfordia and abbey surrounds precinct** is to support uses that have a nexus with, and are ancillary to, festivals and events occurring on land in close proximity to the Community facilities zone.
11. The purpose of the **Woodfordia and abbey surrounds precinct** will be achieved through the following additional overall outcomes. Please note that the general Rural zone overall outcomes also apply to this precinct. Where there is a conflict, the precinct specific overall outcome takes precedence:
- a. Activities having a nexus with, and ancillary to, festivals and events occurring in conjunction with Woodfordia and the Abbey sites are supported where:
    - i. activities do not compete with similar uses in Woodford township;
    - ii. activities do not detract from the primary role of the Woodfordia site or the Abbey site;
    - iii. activities are limited in size and scale and do not have adverse impacts on the rural character and amenity, including noise, traffic, waste disposal impacts.
  - b. Outside the times of festivals and events occurring in conjunction with Woodfordia and the Abbey sites, land resumes a rural purpose or small scale tourism activities comprising eco-based tourism, agricultural based education and recreation activities.
  - c. The built form associated with development does not adversely impact on the natural values and low-set built form, low density, open area character of the Rural zone.

- d. Development does not degrade or compromise the visual, natural, biological and ecological values associated with vegetated areas or adversely impact upon water quality.
- e. Development avoids establishing in areas subject to constraint or hazard.
- f. Development in the Woodfordia and abbey surrounds precinct includes the following:

<ul style="list-style-type: none"> <li>• Animal husbandry<sup>(4)</sup></li> <li>• Animal keeping<sup>(5)</sup> (excluding catteries and kennels)</li> <li>• Aquaculture<sup>(6)</sup> (if water area associated with ponds and dams are more than 200m<sup>2</sup> or housed tanks less than 50m<sup>2</sup>)</li> <li>• Community residence<sup>(16)</sup></li> <li>• Cropping<sup>(19)</sup> (where not forestry for wood production)</li> <li>• Cropping<sup>(19)</sup> (where forestry for wood production)</li> <li>• Dwelling house<sup>(22)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Educational establishment<sup>(24)</sup> (where for agricultural education, agricultural training facilities)</li> <li>• Emergency services<sup>(25)</sup></li> <li>• Environment facility<sup>(26)</sup></li> <li>• Home based business<sup>(35)</sup></li> <li>• Intensive horticulture<sup>(40)</sup></li> <li>• Nature-based tourism<sup>(50)</sup></li> <li>• Outdoor sports and recreation<sup>(55)</sup> (if located on Council owned or controlled land and in accordance with a Council approved Master Plan)</li> </ul>	<ul style="list-style-type: none"> <li>• Non-resident workforce accommodation<sup>(52)</sup></li> <li>• Park<sup>(57)</sup></li> <li>• Permanent plantation<sup>(59)</sup></li> <li>• Roadside stall<sup>(68)</sup></li> <li>• Rural industry<sup>(70)</sup></li> <li>• Rural workers' accommodation<sup>(71)</sup></li> <li>• Sales office<sup>(72)</sup></li> <li>• Short-term accommodation<sup>(77)</sup></li> <li>• Telecommunications facility<sup>(81)</sup></li> <li>• Transport depot<sup>(85)</sup> (where on lots 16 ha or more)</li> <li>• Veterinary services<sup>(87)</sup></li> <li>• Wholesale nursery<sup>(89)</sup></li> <li>• Winery<sup>(90)</sup></li> </ul>
--	--	---

- g. Development in the Woodfordia and abbey surrounds precinct does not include any of the following:

<ul style="list-style-type: none"> <li>• Adult store<sup>(1)</sup></li> <li>• Agricultural supplies store<sup>(2)</sup></li> <li>• Bar<sup>(7)</sup></li> <li>• Brothel<sup>(8)</sup></li> <li>• Caretaker's accommodation<sup>(10)</sup></li> <li>• Car wash<sup>(11)</sup></li> <li>• Child care centre<sup>(13)</sup></li> <li>• Community care centre<sup>(15)</sup></li> <li>• Crematorium<sup>(18)</sup></li> <li>• Detention facility<sup>(20)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Hardware and trade supplies<sup>(32)</sup></li> <li>• Health care services<sup>(33)</sup></li> <li>• High impact industry<sup>(34)</sup></li> <li>• Hospital<sup>(36)</sup></li> <li>• Hotel<sup>(37)</sup></li> <li>• Indoor sport and recreation<sup>(38)</sup></li> <li>• Low impact industry<sup>(42)</sup></li> <li>• Major sports, recreation and entertainment facility<sup>(44)</sup></li> <li>• Marine industry<sup>(45)</sup></li> </ul>	<ul style="list-style-type: none"> <li>• Outdoor sales<sup>(54)</sup></li> <li>• Port services<sup>(61)</sup></li> <li>• Relocatable home park<sup>(62)</sup></li> <li>• Research and technology industry<sup>(64)</sup></li> <li>• Residential care facility<sup>(65)</sup></li> <li>• Retirement facility<sup>(67)</sup></li> <li>• Rooming accommodation<sup>(69)</sup></li> <li>• Shop<sup>(75)</sup></li> <li>• Shopping centre<sup>(76)</sup></li> </ul>

---	--	--

- d. Development not listed in the tables above will be considered on its merit and where it reflects and supports the outcomes of the precinct and zone.

### 6.2.10.3 Accepted development subject to requirements

If development is to be categorised as accepted development subject to requirements it must comply with the requirements for accepted development set out in Part A, Table 6.2.10.1. Where the development does not meet a requirement for accepted development (RAD) within Part A, Table 6.2.10.1, the category of development changes to assessable development under the rules outlined in section 5.3.3. (1), and assessment is against the corresponding performance outcome (PO) identified in the table below. This only occurs whenever a RAD is not met, and is therefore limited to the subject matter of the RADs that are not complied with. To remove any doubt, for those RADs that are complied with, there is no need for assessment against the corresponding PO.

Requirements for accepted development (RAD)	Corresponding performance outcomes

Where building work for a Dwelling house is listed as acceptable development subject to requirements in the relevant table of assessment, but cannot comply with one or more of the Requirements for Accepted Development (RADs) listed as a concurrence agency issue in the table below, Council will undertake an assessment of those aspects of non-compliance as part of its concurrence agency role for the required building development application. In those instances, the non-compliance does not change the level of assessment, and will be assessed by Council against the performance outcome listed above for the corresponding requirements for accepted development (RAD).

Where building work for a Dwelling house which would otherwise be accepted development subject to requirements cannot comply with a requirement for accepted development that is not listed as a concurrence agency issue, it becomes assessable development in accordance with section 5.3.3(1)(a)(ii).

## 6 Zones

Editor's note - The non-compliance triggers a limited code assessment unless specified otherwise.

Concurrence agency issues for building work	
Alternative provisions to the QDC	Matters that relate to amenity and aesthetics
RAD2	Nil
RAD8	
RAD39	

Editor's note - See also Council's policy on other forms of building work that may trigger an amenity and aesthetics assessment. That assessment is undertaken against the measures contained in the policy, not the provisions of this planning scheme or any planning scheme policy.

### Part A - Requirements for accepted development - Rural zone

**Table 6.2.10.1 Requirements for accepted development - Rural zone**

Requirements for accepted development	
<b>General requirements</b>	
<b>Development footprint</b>	
<b>RAD1</b>	Where a development footprint has been identified as part of a development approval for reconfiguring a lot, all development occurs within the development footprint.
<b>Building height</b>	
<b>RAD2</b>	<p>Unless otherwise specified elsewhere in this code, building height and all structures do not exceed the height identified on Overlay map - Building heights; except in the Hamlet precinct, where outbuildings, free standing car ports or garages do not exceed 3.5m.</p> <p>Note - This is an alternative provision to the QDC for building work associated with a Dwelling house<sup>(22)</sup>, and is a concurrence agency issue.</p> <p>Note - This provision does not apply to telecommunication facilities.</p>
<b>Setbacks</b>	
<b>RAD3</b>	<p>Unless otherwise specified elsewhere in the zone code and where not located in a bushfire prone area, the minimum setbacks from a lot boundary for buildings and structures other than a dwelling house, are as follows:</p> <ol style="list-style-type: none"> <li>a. road boundary - 6m</li> <li>b. side boundary - 4.5m</li> <li>c. rear boundary - 4.5m.</li> </ol> <p>Note - Where located in a bushfire hazard area (see Overlay map - Bushfire hazard) a greater setback may be required. See values and constraints requirements Bushfire hazard.</p> <p>Note - This provision does not apply where a development footprint exists for a lot.</p>

<b>RAD4</b>	<p>For lots located in the Hamlet precinct, the minimum setback from a boundary are as follows:</p> <ul style="list-style-type: none"> <li>a. road boundary - 6m</li> <li>b. side boundary - 1.5m for lots having 1000m<sup>2</sup> or less; 3m for lots greater than 1000m<sup>2</sup></li> <li>c. rear boundary - 4m.</li> </ul>
<b>Lighting</b>	
<b>RAD5</b>	<p>Artificial lighting on-site is directed and shielded in such a manner as not to exceed the recommended maximum values of light technical parameters for the control of obtrusive light given in Table 2.1 of Australian Standard AS 4282 (1997) Control of Obtrusive Effects of Outdoor Lighting.</p> <p>Note - "Curfewed hours" are taken to be those hours between 10pm and 7am on the following day</p>
<b>Waste treatment</b>	
<b>RAD6</b>	<p>All concentrated animal use areas (e.g. sheds, pens, holding yards, stables) are provided with site drainage to ensure all run-off is directed to suitable detention basins, filtration or other treatment areas.</p>
<b>Rural uses setbacks</b>	
<b>RAD7</b>	<p>The following uses, associated buildings and structures are setback from all lot boundaries as follows:</p> <ul style="list-style-type: none"> <li>a. Animal husbandry<sup>(4)</sup> (buildings only) – 10m</li> <li>b. Animal keeping<sup>(5)</sup>, excluding catteries and kennels - 20m</li> <li>c. Aquaculture<sup>(6)</sup> involving ponds or water behind dams – 100m</li> <li>d. Aquaculture<sup>(6)</sup> involving the housing within an enclosed building of tanks and associated equipment - 20m</li> <li>e. Cropping<sup>(19)</sup> (building only) – 10m</li> <li>f. Intensive horticulture<sup>(40)</sup> – 20m</li> <li>g. Nature-based tourism<sup>(50)</sup> - 40m</li> <li>h. Non-resident workforce accommodation<sup>(52)</sup> - 40m</li> <li>i. Permanent plantations<sup>(59)</sup> – 25m</li> <li>j. Rural Industry<sup>(70)</sup> - 20m</li> <li>k. Rural workers' accommodation<sup>(71)</sup> - 40m</li> <li>l. Short-term accommodation<sup>(77)</sup> - 40m</li> <li>m. Tourist park<sup>(84)</sup> - 40m</li> <li>n. Transport depot<sup>(85)</sup>, including all vehicle parking, storage and driveway areas – 30m</li> <li>o. Wholesale nursery<sup>(89)</sup> – 10m</li> <li>p. Winery<sup>(90)</sup> (buildings only) - 10m.</li> </ul>
<b>Car parking (for other than Non-resident workforce accommodation and Rural workers' accommodation)</b>	

## 6 Zones

<b>RAD8</b>	On-site car parking is provided in accordance with Schedule 7 - Car parking.  Note - This is an alternative provision to the QDC for building work associated with a Dwelling house <sup>(22)</sup> , and is a concurrence agency issue.
<b>Hazardous Chemicals</b>	
<b>RAD9</b>	All development that involves the storage or handling of hazardous chemicals listed in Schedule 9, Development involving hazardous chemicals, Table 9.0.1 Quantity thresholds for hazardous chemicals stored as accepted development subject to requirements complies with Table 9.0.3 Hazardous chemicals.
<b>RAD10</b>	Development does not involve the storage or handling of hazardous chemicals listed in Schedule 9, Development involving hazardous chemicals, Table 9.0.2 Hazardous chemicals assessable thresholds.
<b>Clearing of habitat trees where not located in the Environmental areas overlay map</b>	
<b>RAD11</b>	<p>Development does not result in the damaging, destroyed or clearing of a habitat tree. This does not apply to:</p> <ul style="list-style-type: none"> <li>a. Clearing of a habitat tree located within an approved development footprint;</li> <li>b. Clearing of a habitat tree within 10m from a lawfully established building reasonably necessary for emergency access or immediately required in response to an accident or emergency;</li> <li>c. Clearing of a habitat tree reasonably necessary to remove or reduce the risk vegetation poses to serious personal injury or damage to infrastructure;</li> <li>d. Clearing of a habitat tree reasonably necessary to construct and maintain a property boundary fence and not exceed 4m in width either side of the fence where in the Rural , Rural residential and Environmental management and conservation zones. In any other zone, clearing is not to exceed 2m in width either side of the fence;</li> <li>e. Clearing of a habitat tree reasonably necessary for the purpose of maintenance or works within a registered easement for public infrastructure or drainage purposes;</li> <li>f. Clearing of a habitat tree in accordance with a bushfire management plan prepared by a suitably qualified person, submitted to and accepted by Council;</li> <li>g. Clearing of a habitat tree associated with removal of recognised weed species, maintaining existing open pastures and cropping land, windbreaks, lawns or created gardens;</li> <li>h. Native forest practice where accepted development under Part 1, 1.7.7 Accepted development.</li> </ul> <p>Editor's note - A native tree measuring greater than 80cm in diameter when measured at 1.3m from the ground is recognised as a 'habitat tree'. For further information on habitat trees, refer to Planning scheme policy – Environmental areas and corridors. Information detailing how this measurement is undertaken is provided in Australian Standard AS 4970 2009 Protection of Trees on Development Sites - Appendix A.</p>
<b>Works requirements</b>	
<b>Utilities</b>	
<b>RAD12</b>	Development is provided with an appropriate level of service and infrastructure in accordance with Planning scheme policy - Integrated design (Appendix A).
<b>Access</b>	

<b>RAD13</b>	<p>Any new or changes to existing crossovers and driveways are designed, located and constructed in accordance with:</p> <ul style="list-style-type: none"> <li>a. where for a Council-controlled road and associated with a Dwelling house: <ul style="list-style-type: none"> <li>i. Planning scheme policy - Integrated design;</li> </ul> </li> <li>b. where for a Council-controlled road and not associated with a Dwelling house: <ul style="list-style-type: none"> <li>i. AS/NZS2890.1 Parking facilities Part 1: Off street car parking;</li> <li>ii. AS/NZS 2890.2 - Parking facilities Part 2: Off-street commercial vehicle facilities;</li> <li>iii. Planning scheme policy - Integrated design;</li> <li>iv. Schedule 8 - Service vehicle requirements;</li> </ul> </li> <li>c. where for a State-Controlled road, the Safe Intersection Sight Distance requirements in Austroads and the appropriate IPWEAQ standard drawings, or a copy of a Transport Infrastructure Act 1994, section 62 approval.</li> </ul>
<b>RAD14</b>	<p>Any new or changes to existing internal driveways and access ways are designed and constructed in accordance with AS/NZS 2890.1 Parking Facilities Part 1: Off street car parking and the relevant standards in Planning scheme policy - Integrated design.</p>
<b>RAD15</b>	<p>Access driveways, manoeuvring areas and loading facilities are sealed and provide for service vehicles listed in Schedule 8 - Service vehicle requirements for the relevant use. The on-site manoeuvring is to be in accordance with Schedule 8 - Service vehicle requirements.</p>

### Stormwater

<b>RAD16</b>	<p>Any new or changes to existing stormwater run-off from the site is conveyed to a point of lawful discharge without causing actionable nuisance to any person, property or premises in accordance with Planning scheme policy – Integrated design.</p> <p>Note - A watercourse as defined in the Water Act may be accepted as a lawful point of discharge providing the drainage discharge from the site does not increase the downstream flood levels during events up to and including the 1% AEP storm. An afflux of +20mm may be accepted on Council controlled land and road infrastructure. No worsening is ensured when stormwater is discharged into a catchment that includes State Transport Infrastructure.</p>				
<b>RAD17</b>	<p>Development ensures that works (e.g. fences and walls) do not block, divert or concentrate the flow of stormwater to adjoining properties.</p> <p>Note - A report from a suitably qualified Registered Professional Engineer Queensland may be required certifying that the development does not increase the potential for significant adverse impacts on an upstream, downstream or surrounding premises.</p>				
<b>RAD18</b>	<p>Stormwater drainage infrastructure (excluding detention and bio-retention systems) through or within private land is protected by easements in favour of Council (at no cost to Council). Minimum easement widths are as follows:</p> <table border="1" data-bbox="261 2007 1468 2114"> <thead> <tr> <th data-bbox="261 2007 865 2114">Pipe Diameter</th> <th data-bbox="865 2007 1468 2114">Minimum Easement Width (excluding access requirements)</th> </tr> </thead> <tbody> <tr> <td style="height: 40px;"></td> <td style="height: 40px;"></td> </tr> </tbody> </table>	Pipe Diameter	Minimum Easement Width (excluding access requirements)		
Pipe Diameter	Minimum Easement Width (excluding access requirements)				

## 6 Zones

Stormwater Pipe up to 825mm diameter	3.0m
Stormwater Pipe up to 825mm diameter with Sewer pipe up to 225m diameter	4.0m
Stormwater pipe greater than 825mm diameter	Easement boundary to be 1m clear of the outside wall of the pipe and clear of all pits.
<p>Note - Additional easement width may be required in certain circumstances in order to facilitate maintenance access to the stormwater system.</p> <p>Note - Refer to Planning scheme policy - Integrated design (Appendix C) for easement requirements over open channels.</p>	

### Site works and construction management

<b>RAD19</b>	The site and any existing structures are to be maintained in a tidy and safe condition.
<b>RAD20</b>	<p>Development does not cause erosion or allow sediment to leave the site.</p> <p>Note - The International Erosion Control Association (Australasia) Best Practice Erosion and Sediment Control provides guidance on strategies and techniques for managing erosion and sedimentation.</p>
<b>RAD21</b>	No dust emissions extend beyond the boundaries of the site during soil disturbances and construction works.
<b>RAD22</b>	<p>Existing street trees are protected and not damaged during works.</p> <p>Note - Where development occurs in the tree protection zone, measures and techniques as detailed in Australian Standard AS 4970 Protection of trees on developments sites are adopted and implemented.</p>
<b>RAD23</b>	Any damage to Council land or infrastructure is repaired or replaced with the same materials, prior to plan sealing, or final building classification.
<b>RAD24</b>	Construction traffic including contractor car parking is controlled in accordance with a traffic management plan, prepared in accordance with the Manual of Uniform Traffic Control Devices (MUTCD) to ensure all traffic movements to and from the site are safe.
<b>RAD25</b>	Any material dropped, deposited or spilled on the road(s) as a result of construction processes associated with the site are to be cleaned at all times.
<b>RAD26</b>	<p>All native vegetation to be retained on-site is temporarily fenced or protected prior to and during development works.</p> <p>Note - No parking of vehicles or storage of machinery or goods is to occur in these areas during development works</p>
<b>RAD27</b>	Disposal of materials is managed in one or more of the following ways:

	<p>a. all cleared vegetation, declared weeds, stumps, rubbish, car bodies, scrap metal and the like are removed and disposed of in a Council land fill facility; or</p> <p>b. all native vegetation with a diameter below 400mm is to be chipped and stored on-site.</p> <p>Note - No burning of cleared vegetation is permitted.</p> <p>Note - The chipped vegetation must be stored in an approved location.</p>
<b>RAD28</b>	<p>All development works are carried out within the following times:</p> <p>a. Monday to Saturday (other than public holidays) between 6:30am and 6:30pm on the same day;</p> <p>b. no work is to be carried out on Sundays or public holidays.</p>

<b>Earthworks</b>	
<b>RAD29</b>	<p>Cut and fill batters, (other than batters to dams and water impoundments), have a finished slope no steeper than the following:</p> <p>a. any cut batter is no steeper than 1V in 4H;</p> <p>b. any fill batter, (other than a compacted fill batter), is no steeper than 1V in 4H;</p> <p>c. any compacted fill batter is no steeper than 1V in 4H.</p>
<b>RAD30</b>	<p>All cut and fill batters are provided with appropriate scour, erosion protection and run-off control measures including catch drains at the top of batters and lined batter drains as necessary.</p>
<b>RAD31</b>	<p>Stabilisation measures are provided, as necessary, to ensure long-term stability and low maintenance of steep slopes and batters.</p> <p>Note - Inspection and certification of steep slopes and batters may be required by a suitably qualified and experienced RPEQ.</p>
<b>RAD32</b>	<p>All fill and excavation is contained on-site and is free draining.</p>
<b>RAD33</b>	<p>Earthworks undertaken on the development site are shaped in a manner which does not:</p> <p>a. prevent stormwater surface flow which, prior to commencement of the earthworks, passed onto the development site, from entering the land; or</p> <p>b. redirect stormwater surface flow away from existing flow paths; or</p> <p>c. divert stormwater surface flow onto adjacent land (other than a road) in a manner which:</p> <p>i. concentrates the flow; or</p> <p>ii. increases the flow rates of stormwater over the affected section of the adjacent land above the situation which existed prior to the diversion; or</p> <p>iii. causes actionable nuisance to any person, property or premises.</p>
<b>RAD34</b>	<p>All fill placed on-site is:</p>

## 6 Zones

	<p>a. limited to that necessary for the approved use;</p> <p>b. clean and uncontaminated (i.e. no building waste, concrete, green waste, actual acid sulfate soils, potential acid sulfate soils or contaminated material etc.).</p>
<b>RAD35</b>	<p>The site is prepared and the fill placed on-site in accordance with Australian Standard AS3798.</p> <p>Note - The fill is to be inspected and tested in accordance with Planning scheme policy - Operational works inspection, maintenance and bonding procedures</p>
<b>RAD36</b>	<p>No filling or excavation is undertaken in an easement issued in favour of Council or a public sector entity.</p> <p>Note - Public sector entity is defined in Schedule 2 of the Act.</p>
<b>RAD37</b>	<p>Filling or excavation that would result in any of the following is not carried out on site:</p> <p>a. a reduction in cover over any Council or public sector entity infrastructure to less than 600mm;</p> <p>b. an increase in finished surface grade over, or within 1.5m on each side of, the Council or public sector entity infrastructure above that which existed prior to the filling or excavation works being undertaken;</p> <p>c. prevent reasonable access to Council or public sector entity maintained infrastructure or any drainage feature on, or adjacent to the site for monitoring, maintenance or replacement purposes.</p> <p>Note - Public sector entity is defined in Schedule 2 of the Act.</p> <p>Note - All building work covered by QDC MP1.4 is excluded from this provision.</p>

### Use specific requirements

#### Dwelling house<sup>(22)</sup>

<b>RAD38</b>	Residential density does not exceed one dwelling house <sup>(22)</sup> per lot.
<b>RAD39</b>	<p>For Lake Samsonvale or Lake Kurwongbah, a setback of no less than 400m is maintained between the following nominated full supply levels to those lakes and any dwelling house<sup>(22)</sup> or outbuilding on the land:-</p> <p>a. RL 39.63m AHD being the full supply level to Lake Samsonvale; and</p> <p>b. RL 21m AHD being the full supply level to Lake Kurwongbah.</p> <p>OR</p> <p>No part of any dwelling house<sup>(22)</sup> or outbuilding on Lot 5 RP111651 or Lot 10 RP111653 or Lot 8 RP111268 is any closer than 80m to the full supply level of RL 21m AHD to Lake Kurwongbah.</p> <p>Note - This is an alternative provision to the QDC for building work associated with a Dwelling house<sup>(22)</sup>, and is a concurrence agency issue.</p>

	Editor's note - The 400m buffer around Lake Samsonvale and Lake Kurwongbah is shown on Overlay map - Infrastructure buffers
<b>RAD40</b>	<p>Waste/effluent disposal systems are located at least:-</p> <ol style="list-style-type: none"> <li>80m from the full supply level of RL 21m AHD to Lake Kurwongbah on Lot 5 RP111651 or Lot 10 RP 111653 or Lot RP 8 111268; and</li> <li>400m from RL 39.63m AHD being the full supply level to Lake Samsonvale and RL 21m AHD being the full supply level to Lake Kurwongbah.</li> </ol> <p>Editor's note - The 400m buffer around Lake Samsonvale and Lake Kurwongbah is shown on Overlay map - Infrastructure buffers</p>
<b>RAD41</b>	Where a development footprint has been identified as part of a development approval for reconfiguring a lot, all development occurs within that development footprint.
<b>RAD42</b>	<p>Building and site design on slopes between 10% and 15% must:</p> <ol style="list-style-type: none"> <li>use split-level, multiple-slab, pier or pole construction;</li> <li>avoid single-plane slabs and benching;</li> <li>ensure the height of any cut or fill, whether retained or not, does not exceed 900mm.</li> </ol> <p>Note - This provision does not apply to outbuildings or any building work.</p> <p>Note - This provision does not apply where a development footprint exists for a lot.</p>
<b>Dwelling house<sup>(22)</sup> - secondary dwelling</b>	
<b>RAD43</b>	<p>The maximum GFA for a secondary dwelling is as follows:</p> <ol style="list-style-type: none"> <li>in the Rural zone - 100m<sup>2</sup>;</li> <li>in the Hamlet precinct - 45m<sup>2</sup> for a lot with a primary frontage less than 15m;</li> <li>In the Hamlet precinct - 55m<sup>2</sup> for a lot with a primary frontage of 15m or more;</li> <li>in the Agriculture precinct - 100m<sup>2</sup></li> <li>in the Rural living investigation precinct - 100m<sup>2</sup>.</li> </ol> <p>Note - In the Cedarton Foresters Cooperative and Mt Nebo plant nursery precinct, no secondary dwellings are permitted as part of the Land Management Plan.</p>
<b>RAD44</b>	The secondary dwelling obtains access from the existing driveway giving access to the dwelling house <sup>(22)</sup> .
<b>Home based business<sup>(35)</sup></b>	
<b>RAD45</b>	Home based business <sup>(35)</sup> (s) are fully contained within a dwelling or on-site structure, except for a home based child care facility.
<b>RAD46</b>	The maximum total use area is 100m <sup>2</sup> , except where in the Hamlet precinct, the maximum total use area is 40m <sup>2</sup> .

## 6 Zones

<p><b>RAD47</b></p>	<p>Up to 2 additional non-resident , either employees or customers, are permitted on the site at any one time, except where involving the use of heavy vehicles, where no employees are permitted.</p> <p>Note - This provision does not apply to Bed and Breakfast or farmstay business.</p>
<p><b>RAD48</b></p>	<p>Hours of operation are restricted to 8.00am to 6.00pm Monday to Saturdays and are not open to the public on Sunday's, Christmas Day, Good Friday and Anzac Day, except for:</p> <ol style="list-style-type: none"> <li>bed and breakfast or farm stay business which may operate on a 24 hour basis;</li> <li>office or administrative activities that do not generate non-residents visiting the site, such as book keeping and computer work;</li> <li>starting and warming up of heavy vehicles, which can commence at 7.00am.</li> </ol>
<p><b>RAD49</b></p>	<p>The maximum number of heavy vehicles, trailer and motor vehicles stored on-site is as follows:</p> <ol style="list-style-type: none"> <li>1 heavy vehicle;</li> <li>1 trailer;</li> <li>Up to 3 motor vehicles.</li> </ol> <p>EXCEPT</p> <p>In the Hamlet precinct, no heavy vehicles, trailers and motor vehicles are stored or parked on-site. Only 1 small rigid vehicle (SRV) is permitted to be parked or stored on-site.</p> <p>Note - The car parking provision associated with the dwelling house<sup>(22)</sup> is in addition to this requirement.</p> <p>Note - The number of motor vehicles stated is in addition to motor vehicles associated with a dwelling house<sup>(22)</sup>.</p>
<p><b>RAD50</b></p>	<p>The home based business does not involve vehicle servicing or major repairs, including spray painting or panel beating.</p> <p>Note - Vehicle servicing excludes general maintenance of a vehicle such as, but not limited to, changing of tyres, engine fluids, filters and parts such as batteries and plugs.</p>
<p><b>RAD51</b></p>	<p>The home based business<sup>(35)</sup> does not generate noise that is audible from the boundary of the lot.</p> <p>Note - Guidance as acceptable noise is provided in the standards listed in the Environmental Protection (Noise) Policy 2008.</p> <p>Note - This provision does not apply to the use of heavy vehicle or motor vehicles.</p>
<p><b>RAD52</b></p>	<p>Activities associated with the use do not cause a nuisance by way of aerosols, fumes, light, noise, odour, particles or smoke.</p> <p>Note - Nuisance is defined in the Environmental Protection Act 1994</p>
<p><b>RAD53</b></p>	<p>The home based business<sup>(35)</sup> does not involve an environmentally relevant activity (ERA) as defined in the <i>Environmental Protection Regulation 2008</i>.</p>

<b>RAD54</b>	Only goods grown, produced or manufactured on-site are sold from the site.
<b>RAD55</b>	Display of goods grown, produced or manufactured on-site are contained within a dwelling or on-site structure and the display of goods is not visible from the boundary of the site.
<b>RAD56</b>	For bed and breakfast and farmstays: <ul style="list-style-type: none"> <li>a. overnight accommodation is provided in the dwelling house<sup>(22)</sup> of the accommodation operator;</li> <li>b. maximum 4 bedrooms are provided for a maximum of 10 guests;</li> <li>c. meals are served to paying guests only;</li> <li>d. rooms do not contain food preparation facilities.</li> </ul>
<b>Nature-based tourism<sup>(50)</sup></b>	
<b>RAD57</b>	For Lake Samsonvale or Lake Kurwongbah, a setback of no less than 400m is maintained between the following nominated full supply levels to those lakes and any Nature-based tourism <sup>(50)</sup> on the land:- <ul style="list-style-type: none"> <li>a. RL 39.63m AHD being the full supply level to Lake Samsonvale; and</li> <li>b. RL 21m AHD being the full supply level to Lake Kurwongbah.</li> </ul> <p>OR</p> <p>No part of any Nature-based tourism<sup>(50)</sup> on Lot 5 RP111651 or Lot 10 RP111653 or Lot 8 RP111268 is any closer than 80m to the full supply level of RL 21m AHD to Lake Kurwongbah.</p> <p>Editor's note - The 400m buffer around Lake Samsonvale and Lake Kurwongbah is shown on Overlay map - Infrastructure buffers</p>
<b>RAD58</b>	Waste/effluent disposal systems are located at least:- <ul style="list-style-type: none"> <li>a. 80m from the full supply level of RL 21m AHD to Lake Kurwongbah on Lot 5 RP111651 or Lot 10 RP111653 or Lot 8 RP111268 ; and</li> <li>b. 400m from RL 39.63m AHD being the full supply level to Lake Samsonvale and RL 21m AHD being the full supply level to Lake Kurwongbah.</li> </ul> <p>Editor's note - The 400m buffer around Lake Samsonvale and Lake Kurwongbah is shown on Overlay map - Infrastructure buffers</p>
<b>Non-residential workforce accommodation<sup>(52)</sup></b>	
<b>RAD59</b>	No more than 1 Non-residential workforce accommodation <sup>(52)</sup> use per site.
<b>RAD60</b>	Non-residential workforce accommodation <sup>(52)</sup> is contained within 1 structure.
<b>RAD61</b>	Non-residential workforce accommodation <sup>(52)</sup> obtains access from the existing driveway giving access to the Dwelling house.
<b>RAD62</b>	For Lake Samsonvale or Lake Kurwongbah, a setback of no less than 400m is maintained between the following nominated full supply levels to those lakes and any Non-resident workforce accommodation <sup>(52)</sup> on the land:- <ul style="list-style-type: none"> <li>a. RL 39.63m AHD being the full supply level to Lake Samsonvale; and</li> <li>b. RL 21m AHD being the full supply level to Lake Kurwongbah.</li> </ul>

## 6 Zones

	<p>OR</p> <p>No part of any Non-resident workforce accommodation<sup>(52)</sup> on Lot 5 RP111651 or Lot 10 RP111653 or Lot 8 RP111268 is any closer than 80m to the full supply level of RL 21m AHD to Lake Kurwongbah.</p> <p>Editor's note - The 400m buffer around Lake Samsonvale and Lake Kurwongbah is shown on Overlay map - Infrastructure buffers</p>
<b>RAD63</b>	<p>Waste/effluent disposal systems are located at least:-</p> <ol style="list-style-type: none"> <li>80m from the full supply level of RL 21m AHD to Lake Kurwongbah on Lot 5 RP111651 or Lot 10 RP111653 or Lot 8 RP111268; and</li> <li>400m from RL 39.63m AHD being the full supply level to Lake Samsonvale and RL 21m AHD being the full supply level to Lake Kurwongbah.</li> </ol> <p>Editor's note - The 400m buffer around Lake Samsonvale and Lake Kurwongbah is shown on Overlay map - Infrastructure buffers</p>
<b>Permanent plantation<sup>(59)</sup></b>	
<b>RAD64</b>	Planting only comprises native species naturally occurring in the area.
<b>Roadside stall<sup>(68)</sup></b>	
Note - These provisions do not apply to a home based business <sup>(35)</sup>	
<b>RAD65</b>	No more than one roadside stall per property.
<b>RAD66</b>	Goods offered for sale are only goods grown, produced or manufactured on the site.
<b>RAD67</b>	The maximum area associated with a roadside stall <sup>(68)</sup> , including any larger separate items displayed for sale, does not exceed 20m <sup>2</sup> .
<b>RAD68</b>	Car parking for 2 vehicles is provided off the road carriage and located on the property.
<b>RAD69</b>	The roadside stall <sup>(68)</sup> is located no closer than 100m from an intersection.
<b>Rural workers' accommodation<sup>(71)</sup></b>	
<b>RAD70</b>	No more than 1 rural workers' accommodation <sup>(71)</sup> per site.
<b>RAD71</b>	Rural workers' accommodation <sup>(71)</sup> is contained within 1 structure.
<b>RAD72</b>	Rural workers' accommodation <sup>(71)</sup> obtains access from the existing driveway giving access to the dwelling house <sup>(22)</sup> .
<b>RAD73</b>	<p>For Lake Samsonvale or Lake Kurwongbah, a setback of no less than 400m is maintained between the following nominated full supply levels to those lakes and Rural workers' accommodation<sup>(71)</sup> on the land:-</p> <ol style="list-style-type: none"> <li>RL 39.63m AHD being the full supply level to Lake Samsonvale; and</li> <li>RL 21m AHD being the full supply level to Lake Kurwongbah.</li> </ol> <p>OR</p> <p>No part of any Rural workers' accommodation<sup>(71)</sup> on Lot 5 RP111651 or Lot 10 RP111653 or Lot 8 RP111268 is any closer than 80m to the full supply level of RL 21m AHD to Lake Kurwongbah.</p>

	Editor's note - The 400m buffer around Lake Samsonvale and Lake Kurwongbah is shown on Overlay map - Infrastructure buffers
<b>RAD74</b>	<p>Waste/effluent disposal systems are located at least:-</p> <ol style="list-style-type: none"> <li>80m from the full supply level of RL 21m AHD to Lake Kurwongbah on Lot 5 RP111651 or Lot 10 RP111653 or Lot 8 RP111268; and</li> <li>400m from RL 39.63m AHD being the full supply level to Lake Samsonvale and RL 21m AHD being the full supply level to Lake Kurwongbah.</li> </ol> <p>Editor's note - The 400m buffer around Lake Samsonvale and Lake Kurwongbah is shown on Overlay map - Infrastructure buffers</p>
<b>Sales office<sup>(72)</sup></b>	
<b>RAD75</b>	A sales office <sup>(72)</sup> is located on the site for no longer than 2 years.
<b>Telecommunications facility<sup>(81)</sup></b>	
<p>Editor's note - In accordance with the Federal legislation Telecommunications facilities<sup>(81)</sup> must be constructed and operated in a manner that will not cause human exposure to electromagnetic radiation beyond the limits outlined in the Radiocommunications (Electromagnetic Radiation - Human Exposure) Standard 2003 and Radio Protection Standard for Maximum Exposure Levels to Radiofrequency Fields - 3KHz to 300Ghz.</p>	
<b>RAD76</b>	A minimum area of 45m <sup>2</sup> is available to allow for additional equipment shelters and associated structures for the purpose of co-locating on the proposed facility.
<b>RAD77</b>	The development results in no net reduction in the minimum quantity and standard of landscaping, private or communal open space or car parking spaces required under the planning scheme or under an existing development approval.
<b>RAD78</b>	<p>Equipment shelters and associated structures are located:</p> <ol style="list-style-type: none"> <li>directly beside the existing equipment shelter and associated structures;</li> <li>behind the main building line;</li> <li>further away from the frontage than the existing equipment shelter and associated structures;</li> <li>a minimum of 10m from side and rear boundaries, except where in the Industry and Extractive industry zones, the minimum side and rear setback is 3m.</li> </ol>
<b>RAD79</b>	Equipment shelters and other associated structures are either the same type of colour or material to match the surrounding locality.
<b>RAD80</b>	The facility is enclosed by security fencing or by other means to ensure public access is prohibited.
<b>RAD81</b>	<p>A minimum 3m wide strip of dense planting is provided around the perimeter of the fenced area, between the development and street frontage and adjoining uses.</p> <p>Note - Landscaping is provided in accordance with Planning scheme policy - Integrated design.</p> <p>Note - Council may require a detailed landscaping plan, prepared by a suitably qualified person to ensure compliance with Planning scheme policy - Integrated design.</p>
<b>RAD82</b>	All equipment comprising the telecommunications facility <sup>(81)</sup> which produces audible or non-audible sound is housed within a fully enclosed building incorporating sound control measures sufficient to ensure no noise from this equipment can be heard, or felt at the site boundary.

## 6 Zones

<b>Transport depot<sup>(85)</sup></b>	
<b>RAD83</b>	Development, including all vehicle parking, drive way areas and storage areas, is set back 30m from all property boundaries.
<b>RAD84</b>	<p>The maximum number of heavy vehicles, trailers and motor vehicles stored on-site is as follows:</p> <ol style="list-style-type: none"> <li>4 heavy vehicles</li> <li>4 trailers</li> <li>Up to 6 motor vehicles.</li> </ol> <p>Note - The number of motor vehicles stated is in addition to motor vehicles associated with a dwelling house<sup>(22)</sup></p>
<b>RAD85</b>	<p>No vehicle servicing or major repairs, including spray painting or panel beating is undertaken on the site.</p> <p>Note - Vehicle servicing excludes general maintenance of a vehicle such as, but not limited to, changing of tyres, engine fluids, filters, and parts such as batteries and plugs.</p>
<b>RAD86</b>	<ol style="list-style-type: none"> <li>Vehicle parking areas, vehicle standing areas and outdoor storage areas of plant and equipment are screened from adjoining sites by either planting, wall(s), non-transparent fence(s) or a combination to at least 1.8m in height along the length of those areas.</li> <li>Planting for screening is to have a minimum depth of 3m.</li> </ol>
<b>RAD87</b>	Development has direct vehicle access from a road classified as a State Arterial, Arterial or Sub-Arterial (refer Overlay map - Road hierarchy).
<b>Winery<sup>(90)</sup></b>	
<b>RAD88</b>	The maximum use area including all buildings, structures, driveways and parking areas is 1500m <sup>2</sup> .
<b>RAD89</b>	The winery <sup>(90)</sup> is accessed from a road classified as a State Arterial, Arterial or Sub-Arterial (refer Overlay map - Road hierarchy).
<b>Values and constraints requirements</b>	
<p>Note - The relevant values and constraints requirements do not apply where the development is consistent with a current Development permit for Reconfiguring a lot or Material change of use or Operational work, where that approval has considered and addressed (e.g. through a development footprint plan (or similar in the case of Landslide hazard) or conditions of approval) the identified value or constraint under this planning scheme.</p>	
<b>Acid sulfate soils - (refer Overlay map - Acid sulfate soils to determine if the following requirements apply)</b>	
<p>Note - Planning scheme policy - Acid sulfate soils provides guidance for requirements for accepted development that has the potential to disturb acid sulfate soils i.e. development involving filling or excavation works below the thresholds of 100m<sup>3</sup> and 500m<sup>3</sup> respectively.</p>	
<b>RAD90</b>	Development does not involve:

- a. excavation or otherwise removing of more than 100m<sup>3</sup> of soil or sediment where below 5m Australian Height Datum AHD, or
- b. filling of land of more than 500m<sup>3</sup> of material with an average depth of 0.5m or greater where below the 5m AHD.

**Bushfire hazard (refer Overlay map - Bushfire hazard to determine if the following requirements apply)**

Note - For the purposes of section 12 of the Building Regulation 2006, land identified as very high potential bushfire intensity, high potential bushfire intensity, medium potential bushfire intensity or potential impact buffer on the Bushfire hazard overlay map is the 'designated bushfire hazard area'. AS 3959-2009 Construction of buildings in bushfire hazard areas applies within these areas.

**RAD91**

- a. Building and structures are:
  - i. not located on a ridgeline
  - ii. not located on land with a slope greater than 15% (see Overlay map – Landslide hazard)
- b. Dwellings are located on east to south facing slopes.

(1 being the safest , 6 being the most hazardous.)  
 From Bushfire Prone Areas: Siting and Design of Residential Buildings (1997), Queensland Department of Local Government and Planning, and Queensland Fire & Rescue Service.

**RAD92**

Buildings and structures have contained within the site:

## 6 Zones

	<ul style="list-style-type: none"> <li>a. a separation from classified vegetation of 20m or the distance required to achieve a bushfire attack level (BAL) at the building, roofed structure or fire fighting water supply of no more than 29, whichever is the greater;</li> <li>b. a separation from low threat vegetation of 10m or the distance required to achieve a bushfire attack level (BAL) at the building, roofed structure or fire fighting water supply of no more than 29, whichever is the greater;</li> <li>c. a separation of no less than 10m between a fire fighting water supply extraction point and any classified vegetation, buildings and other roofed structures;</li> <li>d. an area suitable for a standard fire fighting appliance to stand within 3m of a fire fighting water supply extraction point; and</li> <li>e. an access path suitable for use by a standard fire fighting appliance having a formed width of at least 4m, a cross-fall of no greater than 5%, and a longitudinal gradient of no greater than 25%: <ul style="list-style-type: none"> <li>i. to, and around, each building and other roofed structure; and</li> <li>ii. to each fire fighting water supply extraction point.</li> </ul> </li> </ul> <p>Note - The meaning of the terms classified vegetation and low threat vegetation as well as the method of calculating the bushfire attack level are as described in Australian Standard AS 3959.</p>
<b>RAD93</b>	<p>The length of driveway:</p> <ul style="list-style-type: none"> <li>a. to a public road does not exceed 100m between the most distant part of a building used for any purpose other than storage and the nearest part of a public road;</li> <li>b. has a maximum gradient no greater than 12.5%;</li> <li>c. have a minimum width of 3.5m;</li> <li>d. accommodate turning areas for fire fighting appliances in accordance with Qld Fire and Emergency Services' Fire Hydrant and Vehicle Access Guideline.</li> </ul>
<b>RAD94</b>	<ul style="list-style-type: none"> <li>a. A reticulated water supply is provided by a distributor retailer for the area or, where not connected to a reticulated water supply, on-site fire fighting water storage containing not less than 10 000 litres (tanks with fire brigade tank fittings, swimming pools) is provided and located within 10m of buildings and structures.</li> <li>b. Where a swimming pool is the nominated on-site fire fighting water storage source, vehicle access to within 3m of that water storage source is provided.</li> <li>c. Where a tank is the nominated on-site fire fighting water storage source, it includes: <ul style="list-style-type: none"> <li>i. a hardstand area allowing medium rigid vehicle (15 tonne fire appliance) access within 6m of the tank;</li> <li>ii. fire brigade tank fittings, comprising 50mm ball valve and male camlock coupling and, if underground, an access hole of 20mm (minimum) to accommodate suction lines.</li> </ul> </li> </ul>
<b>RAD95</b>	Development does not involve the manufacture or storage of hazardous chemicals.
<p><b>Environmental areas (refer Overlay map - Environmental areas to determine if the following requirements apply)</b></p> <p>Note - The following are excluded from the native clearing provisions of this planning scheme:</p> <ul style="list-style-type: none"> <li>a. Clearing of native vegetation located within an approved development footprint;</li> <li>b. Clearing of native vegetation within 10m from a lawfully established building reasonably necessary for emergency access or immediately required in response to an accident or emergency;</li> </ul>	

- c. Clearing of native vegetation reasonably necessary to remove or reduce the risk vegetation poses to serious personal injury or damage to infrastructure;
- d. Clearing of native vegetation reasonably necessary to construct and maintain a property boundary fence and not exceed 4m in width either side of the fence where in the Rural, Rural residential and Environmental Management and Conservation zones. In any other zone, clearing is not to exceed 2m in width either side of the fence;
- e. Clearing of native vegetation reasonably necessary for the purpose of maintenance or works within a registered easement for public infrastructure or drainage purposes;
- f. Clearing of native vegetation in accordance with a bushfire management plan prepared by a suitably qualified person, submitted to and accepted by Council;
- g. Clearing of native vegetation associated with removal of recognised weed species, maintaining existing open pastures and cropping land, windbreaks, lawns or created gardens;
- h. Grazing of native pasture by stock;
- i. Native forest practice where accepted development under Part 1, 1.7.7 Accepted development.

Note - Definition for native vegetation is located in Schedule 1 Definitions.

Note - Native vegetation subject to this requirement primarily comprises of matters of national environmental significance (MNES), matters of state environmental significance (MSES). They also comprise some matters of local environmental significance (MLES). A MLES is defined in Schedule 1.2, Administrative definitions. A list of the elements that apply to the mapped MSES and MLES is provided in Appendix 1 of the Planning scheme policy - Environmental areas.

Editors' Note - The accuracy of overlay mapping can be challenged through the development application process (code assessable development) or by way of a planning scheme amendment. See Council's website for details.

Editors' Note - When clearing native vegetation within a MSES area, you may still require approval from the State government.

**RAD96** Where no suitable land cleared of native vegetation exists, clearing of native vegetation in High Value Area or Value Offset Area is for the purpose of a new dwelling house<sup>(22)</sup> and all associated facilities\* or an extension to an existing dwelling house<sup>(22)</sup> only, and comprises an area no greater than 1500m<sup>2</sup>.

Note - \*All associated facilities includes: on-site wastewater treatment, all areas of disturbance, on-site parking, access and manoeuvring areas.

Editor's note - See in heading above for other uses excluded from native vegetation clearing requirements.

Editor's note - Where vegetation clearance is accepted development subject to requirements, care should be undertaken to avoid adverse impacts on koalas, koala habitat values and habitat connectivity and to encourage existing koala usage of the site. Measures to minimise impacts include:

- i. co-locating all associated activities, infrastructure and access strips;
- ii. be the least valued area of koala habitat on the site;
- iii. minimise the footprint of the development envelope area;
- iv. minimise edge effects to areas external to the development envelope;
- v. location and design consideration to ensure koala safety and movement in accordance with the Koala-sensitive Design Guideline and Planning scheme policy – Environmental areas;
- vi. sufficient area between the development and koala habitat trees to achieve their long-term viability.

Editor's note - Where vegetation clearing is accepted development subject to requirements, consideration should be given to avoid clearing habitat trees. Habitat trees may contain structural hollows where animals live, breed and shelter. The provision of nest boxes or salvaging of hollows will provide compensatory roosting and nesting opportunities for local wildlife including sugar gliders, possums and owls. For further information see Planning scheme policy – Environmental areas.

## 6 Zones

<b>RAD97</b>	<p>No clearing of native vegetation is to occur within the Value Offset Area MLES - Waterway buffer or Value Offset Area MLES - Wetland buffer.</p> <p>This does not apply to the following:</p> <ol style="list-style-type: none"> <li>Clearing of native vegetation located within an approved development footprint;</li> <li>Clearing of native vegetation within 10m from a lawfully established building reasonably necessary for emergency access or immediately required in response to an accident or emergency;</li> <li>Clearing of native vegetation reasonably necessary to remove or reduce the risk vegetation poses to serious personal injury or damage to infrastructure;</li> <li>Clearing of native vegetation reasonably necessary to construct and maintain a property boundary fence and not exceed 4m in width either side of the fence where in the Rural, Rural residential and Environmental management and conservation zones. In any other zone, clearing is not to exceed 2m in width either side of the fence;</li> <li>Clearing of native vegetation reasonably necessary for the purpose of maintenance or works within a registered easement for public infrastructure or drainage purposes;</li> <li>Clearing of native vegetation in accordance with a bushfire management plan prepared by a suitably qualified person, submitted to and accepted by Council;</li> <li>Clearing of native vegetation associated with removal of recognised weed species, maintaining existing open pastures and cropping land, windbreaks, lawns or created gardens;</li> <li>Grazing of native pasture by stock;</li> <li>Native forest practice where accepted development under Part 1, 1.7.7 Accepted development.</li> </ol>
<p><b>Extractive resources separation area (refer Overlay map - Extractive resources (separation area) to determine if the following requirements apply)</b></p>	
<b>RAD98</b>	<p>Development does not result in more than one dwelling house<sup>(22)</sup> per lot within separation areas.</p>
<b>RAD99</b>	<p>Development within the separation area does not include the following uses:</p> <ol style="list-style-type: none"> <li>caretaker's accommodation<sup>(10)</sup>;</li> <li>community residence<sup>(16)</sup>;</li> <li>dual occupancy<sup>(21)</sup>;</li> <li>dwelling unit<sup>(23)</sup>;</li> <li>hospital<sup>(36)</sup>;</li> <li>rooming accommodation<sup>(69)</sup>;</li> <li>multiple dwelling<sup>(49)</sup>;</li> <li>non-resident workforce accommodation<sup>(52)</sup>;</li> <li>relocatable home park<sup>(62)</sup>;</li> <li>residential care facility<sup>(65)</sup>;</li> <li>resort complex<sup>(66)</sup>;</li> <li>retirement facility<sup>(67)</sup>;</li> <li>rural workers' accommodation<sup>(71)</sup>;</li> <li>short-term accommodation<sup>(77)</sup>;</li> <li>tourist park<sup>(84)</sup>.</li> </ol>
<b>RAD100</b>	<p>All habitable rooms within the separation area are:</p> <ol style="list-style-type: none"> <li>acoustically insulated to achieve the noise levels listed in Schedule 1 Acoustic Quality Objectives, Environmental Protection (Noise) Policy 2008;</li> <li>provided with mechanical ventilation.</li> </ol>
<b>RAD101</b>	<p>Private open space areas are separated from the resource processing area by buildings or a 1.8m high solid structure.</p>
<p><b>Extractive resources transport routes (refer Overlay map - Extractive resources (transport route and buffer) to determine if the following requirements apply)</b></p>	

<b>RAD102</b>	<p>The following uses are not located within the 100m wide transport route buffer:</p> <ol style="list-style-type: none"> <li>a. Caretaker's accommodation<sup>(10)</sup>, except where located in the Extractive industry zone;</li> <li>b. Community residence<sup>(16)</sup>;</li> <li>c. Dual occupancy<sup>(21)</sup>;</li> <li>d. Dwelling house<sup>(22)</sup>;</li> <li>e. Dwelling unit<sup>(23)</sup>;</li> <li>f. Hospital<sup>(36)</sup>;</li> <li>g. Rooming accommodation<sup>(69)</sup>;</li> <li>h. Multiple dwelling<sup>(49)</sup>;</li> <li>i. Non-resident workforce accommodation<sup>(52)</sup>;</li> <li>j. Relocatable home park<sup>(62)</sup>;</li> <li>k. Residential care facility<sup>(65)</sup>;</li> <li>l. Resort complex<sup>(66)</sup>;</li> <li>m. Retirement facility<sup>(67)</sup>;</li> <li>n. Rural workers' accommodation<sup>(71)</sup>;</li> <li>o. Short-term accommodation<sup>(77)</sup>;</li> <li>p. Tourist park<sup>(84)</sup>.</li> </ol>
<b>RAD103</b>	<p>Except for an existing vacant lot, development does not create a new vehicle access point onto an Extractive resources transport route.</p>
<b>RAD104</b>	<p>A vehicle access point is located, designed and constructed in accordance with Planning scheme policy - Integrated design.</p>
<p><b>Heritage and landscape character (refer Overlay map - Heritage and landscape character to determine if the following requirements apply)</b></p> <p>Note - Places, including sites, objects and buildings having local cultural heritage significance, are identified on Overlay map - Heritage and landscape character and listed in Schedule 1 of Planning scheme policy - Heritage and landscape character. Places also having cultural heritage significance at a State level and being entered in the Queensland Heritage Register, are also identified in Schedule 1 of Planning scheme policy - Heritage and landscape character.</p>	
<b>RAD105</b>	<p>Development is for the preservation, maintenance, repair and restoration of the site, object or building.</p> <p>This does not apply to Listed item 99, in Schedule 1 - List of sites, objects and buildings of significant historical and cultural value of Planning scheme policy - Heritage and landscape character.</p> <p>Note - Preservation, maintenance, repair and restoration are defined in Schedule 1 - Definitions</p>
<b>RAD106</b>	<p>A cultural heritage conservation management plan is prepared in accordance with Planning scheme policy – Heritage and landscape character and submitted to Council prior to the commencement of any preservation, maintenance, repair and restoration works. Any preservation, maintenance, repair and restoration works are in accordance with the Council approved cultural heritage conservation management plan.</p> <p>This does not apply to Listed item 99 in Schedule 1 - List of sites, objects and buildings of significant historical and cultural value of Planning scheme policy - Heritage and landscape character.</p>
<b>RAD107</b>	<p>Development does not result in the removal of or damage to any significant tree identified on Overlay map – Heritage and landscape character and listed in Appendix 2 of Planning scheme policy – Heritage and landscape character.</p>
<b>RAD108</b>	<p>The following development does not occur within 20m of the base of any significant tree, identified on Overlay map – Heritage and landscape character and listed in Appendix 2 of Planning scheme policy – Heritage and landscape character:</p>

## 6 Zones

	<ul style="list-style-type: none"> <li>a. construction of any building;</li> <li>b. laying of overhead or underground services;</li> <li>c. any sealing, paving, soil compaction;</li> <li>d. any alteration of more than 75mm to the ground surface prior to work commencing.</li> </ul>
<b>RAD109</b>	Pruning of a significant tree occurs in accordance with Australian Standard AS 4373-2007 - Pruning of Amenity Trees.
<b>Landslide hazard (refer Overlay map - Landslide hazard to determine if the following requirements apply)</b>	
<b>RAD110</b>	<p>Development does not:</p> <ul style="list-style-type: none"> <li>a. involve earthworks exceeding 50m<sup>3</sup>;</li> <li>b. involve cut and fill having a height greater than 600mm;</li> <li>c. involve any retaining wall having a height greater than 600mm;</li> <li>d. redirect or alter the existing flow of surface or groundwater.</li> </ul>
<b>RAD111</b>	<p>Buildings, excluding domestic outbuildings:</p> <ul style="list-style-type: none"> <li>a. are split-level, multiple-slab, pier or pole construction;</li> <li>b. are not single plane slab on ground.</li> </ul>
<b>RAD112</b>	Development does not involve the manufacture, handling or storage of hazardous chemicals.
<b>Infrastructure buffers (refer Overlay map - Infrastructure buffers to determine if the following requirements apply)</b>	
<b>RAD113</b>	<p>Development does not include the following uses within a Wastewater treatment site buffer:</p> <ul style="list-style-type: none"> <li>a. Caretaker's accommodation<sup>(10)</sup>;</li> <li>b. Community residence<sup>(16)</sup>;</li> <li>c. Dual occupancy<sup>(21)</sup>;</li> <li>d. Dwelling house<sup>(22)</sup>;</li> <li>e. Dwelling unit<sup>(23)</sup>;</li> <li>f. Hospital<sup>(36)</sup>;</li> <li>g. Rooming accommodation<sup>(69)</sup>;</li> <li>h. Multiple dwelling<sup>(49)</sup>;</li> <li>i. Non-resident workforce accommodation<sup>(52)</sup>;</li> <li>j. Relocatable home park<sup>(62)</sup>;</li> <li>k. Residential care facility<sup>(65)</sup>;</li> <li>l. Resort complex<sup>(66)</sup>;</li> <li>m. Retirement facility<sup>(67)</sup>;</li> <li>n. Rural workers' accommodation<sup>(71)</sup>;</li> <li>o. Short-term accommodation<sup>(77)</sup>;</li> <li>p. Tourist park<sup>(84)</sup>.</li> </ul>
<b>RAD114</b>	Development within a Water supply buffer does not include the incineration or burial of waste and all other waste is collected and stored in weather proof, sealed waste receptacles, located in roofed and bunded areas, for disposal by a licenced contractor.
<b>RAD115</b>	Management, handling and storage of hazardous chemicals (including fuelling of vehicles) within a Water supply buffer, is undertaken in secured, climate controlled, weather proof, level and bunded enclosures.
<b>RAD116</b>	<p>Development does not restrict access to Bulk water supply infrastructure of any type or size, having regard to (among other things):</p> <ul style="list-style-type: none"> <li>a. buildings or structures;</li> <li>b. gates and fences;</li> </ul>

	<ul style="list-style-type: none"> <li>c. storage of equipment or materials;</li> <li>d. landscaping or earthworks or stormwater or other infrastructure.</li> </ul>
<b>RAD117</b>	On-site sewerage facilities in a Water supply buffer produce a minimum secondary treated effluent (90th percentile) and effluent application to ensure water quality is maintained and protected.
<b>RAD118</b>	On-site sewerage facilities in a Water supply buffer for a dwelling house <sup>(22)</sup> include: <ul style="list-style-type: none"> <li>a. emergency storage capacity of 1,000 litres and adequate buffering for shock loading/down time;</li> <li>b. a reserve land application area of 100% of the effluent irrigation design area;</li> <li>c. land application areas that are vegetated;</li> <li>d. the base of the land application field is at least 2 metres above the seasonal high water table/bedrock (whichever is the closest to the base of the application area);</li> <li>e. wastewater collection and storage systems must have capacity to accommodate full load at peak times.</li> </ul>
<b>RAD119</b>	On-site sewerage facilities in a Water supply buffer for development other than a dwelling house include emergency storage capable of holding 3-6 hours peak flow of treated effluent in the event of emergencies/overload with provision for de-sludging.
<b>RAD120</b>	Development involving Permanent plantation <sup>(59)</sup> within a Water supply buffer maintains a minimum of 30% ground cover at all times.
<b>RAD121</b>	Development does not involve the construction of any buildings or structures within a Bulk water supply infrastructure buffer.
<b>RAD122</b>	Development involving a major hazard facility or an Environmentally Relevant Activity (ERA) is setback 30m from a Bulk water supply infrastructure buffer.
<b>RAD123</b>	Development does not involve the construction of any buildings or structures within the Gas pipeline buffer.
<b>RAD124</b>	All habitable rooms located within an Electricity supply substation buffer are: <ul style="list-style-type: none"> <li>a. located a minimum of 10m from an electricity supply substation<sup>(80)</sup>; and</li> <li>b. acoustically insulated to achieve the noise levels listed in Schedule 1, Acoustic Quality Objectives, Environmental Protection (Noise) Policy 2008.</li> </ul>
<b>RAD125</b>	Development does not involve the construction of any buildings or structures containing habitable rooms or sensitive land uses within a High voltage electricity line buffer.
<b>Overland flow path (refer Overlay map - Overland flow path to determine if the following requirements apply)</b>	
<b>RAD126</b>	Development for a material change of use or building work does not involve the construction of a building or structure in an Overland flow path area.
<b>RAD127</b>	Development for a material change of use or operational work does not impede the flow of flood waters through the premises or worsen flood flows to other premises. <p>Note - A report from a suitably qualified Registered Professional Engineer Queensland is required certifying that the development does not increase the potential for significant adverse impacts on an upstream, downstream or surrounding premises.</p> <p>Note - Reporting to be prepared in accordance with Planning scheme policy – Flood hazard, Coastal hazard and Overland flow</p>
<b>RAD128</b>	Development for a material change of use or building work ensures that fencing in an overland flow path area is at least 50% permeable.

## 6 Zones

<b>RAD129</b>	Development for a material change of use or building work that involves a hazardous chemical ensures the hazardous chemicals is not located within an overland flow path area.
<b>RAD130</b>	Development for a material change of use or building work for a Park <sup>(57)</sup> ensures that work is provided in accordance with the requirements set out in Appendix B of the Planning scheme policy - Integrated design.
<p><b>Riparian and wetland setbacks (refer Overlay map - Riparian and wetland setback to determine if the following requirements apply)</b></p> <p>Note - W1, W2 and W3 waterway and drainage lines, and wetlands are mapped on Schedule 2, Section 2.5 Overlay Maps – Riparian and wetland setbacks.</p>	
<b>RAD131</b>	<p>No development is to occur within:</p> <ol style="list-style-type: none"> <li>a. 50m from top of bank for W1 waterway and drainage line</li> <li>b. 30m from top of bank for W2 waterway and drainage line</li> <li>c. 20m from top of bank for W3 waterway and drainage line</li> <li>d. 100m from the edge of a Ramsar wetland, 50m from all other wetlands.</li> </ol> <p>Note - W1, W2 and W3 waterways and drainage lines, and wetlands are mapped on Schedule 2, Section 2.5 Overlay Maps – Riparian and wetland setbacks.</p> <p>Note - In some cases, the top of bank may not be easily defined, as such a hydraulic measurement may be applied instead. Moreton Bay Regional Council will provide further direction on how to determine and locate the setback boundary in these locations.</p> <p>Note - The minimum setback distance applies to the each side of waterway.</p>
<p><b>Scenic amenity - Regionally significant (Hills) and Locally important (Coast) - (refer Overlay map - Scenic amenity to determine if the following requirements apply)</b></p>	
<b>RAD132</b>	<p>Where located in the Regionally significant (Hills) scenic amenity overlay, buildings and structures are not:</p> <ol style="list-style-type: none"> <li>a. located on a hill top or ridge line; and</li> <li>b. all parts of the building and structure are located below the hill top or ridge line.</li> </ol>

- RAD133** Where located in the Regionally significant (Hills) scenic amenity overlay, driveways and accessways:
- go across land contours and do not cut straight up slopes;
  - follow natural contours, not resulting in batters or retaining walls being greater than 1m in height.

- RAD134** Where located in the Regionally significant (Hills) scenic amenity overlay, roofs and wall surfaces of buildings and structures adopt the following colours:

Colours from Australian Standard AS2700s – 1996		
G12 – Holly	G53 – Banksia	N44 – Bridge Grey
G13 – Emerald	G54 – Mist Green	N45 – Koala Grey

## 6 Zones

Colours from Australian Standard AS2700s – 1996		
G14 – Moss Green	G55 – Lichen	N52 – Mid Grey
G15 – Rainforest Green	G56 – Sage Green	N54 – Basalt
G16 – Traffic Green	G62 – Rivergum	N55 – Lead Grey
G17 – Mint Green	G64 – Slate	X54 – Brown
G21 – Jade	G65 – Ti Tree	X61 – Wombat
G22 – Serpentine	N25 – Birch Grey	X62 – Dark Earth
G23 – Shamrock	N32 – Green Grey	X63 – Iron Bark
G24 – Fern Green	N33 – Lightbox Grey	Y51 – Bronze Olive
G25 – Olive	N35 – Light Grey	Y61 – Black Olive
G34 – Avocado	N41 – Oyster	Y63 – Khaki
G52 – Eucalyptus	N42 – Storm Grey	Y66 – Mudstone
	N43 – Pipeline Grey	
Note - In the Rural Zone, netting, shade cloth and similar coverings associated with agricultural operations are exempt.		
<b>RAD135</b>	Where located in the Regionally significant (Hills) scenic amenity overlay, roofs and wall surfaces of buildings and structures are painted or finished such that reflectivity is less than 35%.	
<p><b>Transport noise corridors (refer Overlay map - Transport noise corridors)</b></p> <p>This is for information purposes only. No requirements for accepted development or criteria for assessable development apply. Development located within a Transport Noise Corridor must satisfy the requirements of the Queensland Development Code.</p>		

### Part B - Criteria for assessable development - Rural zone

Where development is categorised as assessable development - code assessment in the Table of Assessment, and located in a precinct, the assessment benchmarks are the criteria set out in Part B, Table 6.2.10.2 as well as the purpose statement and overall outcomes of this code.

Where development is categorised as assessable development - impact assessment, the assessment benchmarks become the whole of the planning scheme.

**Table 6.2.10.2 Assessable development - Rural zone**

Performance outcomes	Examples that achieve aspects of the Performance Outcomes
<b>General criteria</b>	
<b>General performance outcome for all development</b>	
<p><b>PO1</b></p> <p>Development:</p> <p>a. adds value to an existing rural activity, the natural environment, or a tourism attraction;</p>	No example provided.

<ul style="list-style-type: none"> <li>b. does not prejudice the ongoing operation of an existing or approved rural activity;</li> <li>c. is adequately serviced with necessary infrastructure to meet on-site needs and requirements;</li> <li>d. ensures adequate on-site stormwater and waste disposal is provided to avoid adverse impacts on water quality;</li> <li>e. is a size and scale that maintains the low density, low intensity and open area landscape character anticipated in the Rural zone;</li> <li>f. is designed, located and operated in a manner that avoids nuisance impacts on sensitive land uses;</li> <li>g. requires minimal filling or excavation. Where this occurs, visual impacts are reduced through screening;</li> <li>h. avoids being obtrusive or visually dominant by achieving low-set built form;</li> <li>i. uses natural and non-reflective materials and colours consistent with existing and surrounding rural buildings and rural environment, except where materials such as netting, shade cloth and similar coverings are necessary for agricultural operations;</li> <li>j. is not subject to a development constraint such as, but not limited to, flood, steep slope, waterway setback and significant vegetation; and</li> <li>k. does not result in any instability, erosion or degradation of land, water, soil resource or loss of natural, ecological or biological values.</li> </ul>	
<b>Development footprint</b>	
<p><b>PO2</b></p> <p>All buildings, structures, associated facilities and infrastructure are contained within an approved development footprint. Development outside of an approved development footprint must:</p> <ul style="list-style-type: none"> <li>a. not be subject to a development constraint such as, but not limited to, flood, steep slope, waterway setbacks and significant vegetation;</li> <li>b. development does not result in any instability, erosion or degradation of land, water, soil resource or loss of natural, ecological or biological values.</li> </ul>	<p><b>E2</b></p> <p>Where a development footprint has been identified as part of a development approval for reconfiguring a lot, all development occurs within the development footprint.</p>
<b>Building height</b>	
<p><b>PO3</b></p>	<p><b>E3</b></p>

## 6 Zones

<p>Height of buildings and structures:</p> <ol style="list-style-type: none"> <li>a. is consistent with the existing low rise, open area and low density character and amenity of the Rural zone and its precincts;</li> <li>b. does not unduly impact on access to daylight, sunlight, overshadowing or privacy experienced by adjoining premises;</li> <li>c. for buildings in the Hamlet precinct, the height of buildings reflect the individual character of the area;</li> <li>d. does not adversely affect the operation of aviation facility at Mt Glorious by adopting design or on-site management measures that:             <ol style="list-style-type: none"> <li>i. ensures a physical line-of-sight between transmitting or receiving devices.</li> <li>ii. ensure electromagnetic fields do not interfere with the functioning of the aviation facility.</li> </ol> </li> </ol>	<p>Building height and all structures do not exceed the maximum height identified on Overlay map - Building heights; except in the Hamlet precinct, where outbuildings, free standing car ports or garages do not exceed 3.5m.</p>
<p><b>Setbacks</b></p>	
<p><b>PO4</b></p> <p>Setbacks are:</p> <ol style="list-style-type: none"> <li>a. sufficient to minimise overlooking and maintain privacy of adjoining properties; and</li> <li>b. sufficient to ensure development is not visually dominant or overbearing on adjoining properties.</li> </ol>	<p><b>E4.1</b></p> <p>Unless specified elsewhere in the zone code, the minimum setback from a boundary is as follows:</p> <ol style="list-style-type: none"> <li>a. road boundary – 6m</li> <li>b. side boundary – 4.5m</li> <li>c. rear boundary – 4.5m.</li> </ol> <p><b>E4.2</b></p> <p>For lots located in the Hamlet precinct, the minimum setback from a boundary is as follows:</p> <ol style="list-style-type: none"> <li>a. road boundary - 6m</li> <li>b. side boundary - 1.5m for lots having 1000m<sup>2</sup> or less; 3m for lots greater than 1000m<sup>2</sup></li> <li>c. rear boundary - 4m.</li> </ol>
<p><b>PO5</b></p> <p>For those properties within the catchments of Lake Samsonvale or Lake Kurwongbah, dwelling houses<sup>(22)</sup>, outbuildings and their associated waste/effluent disposal areas are positioned in a manner which avoids adverse impacts on the water quality of those lakes.</p>	<p><b>E5.1</b></p> <p>For sites within the catchment of Lake Samsonvale or Lake Kurwongbah a setback of no less than 400m is maintained between the following nominated full supply levels to those lakes and any dwelling house<sup>(22)</sup> or outbuilding on the land:-</p>

	<p>a. RL 39.63m AHD being the full supply level to Lake Samsonvale; and</p> <p>b. RL 21m AHD being the full supply level to Lake Kurwongbah.</p> <p><b>OR</b></p> <p>No part of any dwelling house<sup>(22)</sup> or outbuilding on Lot 5 RP111651 or Lot 10 RP111653 or Lot 8 RP111268 is any closer than 80m to the full supply level of RL 21m AHD to Lake Kurwongbah.</p>
	<p><b>E5.2</b></p> <p>Waste/effluent disposal systems are located at least:</p> <p>a. 80m from the full supply level of RL 21m AHD to Lake Kurwongbah on Lot 5 RP111651 or Lot 10 RP111653 or Lot 8 RP111268; and</p> <p>b. 400m from RL 39.63m AHD being the full supply level to Lake Samsonvale and RL 21m AHD being the full supply level to Lake Kurwongbah.</p>
<b>Amenity</b>	
<p><b>PO6</b></p> <p>The amenity of the area and adjacent sensitive land uses are protected from the impacts of dust, odour, light, chemicals and other environmental nuisance.</p>	<p>No example provided.</p>
<b>Waste treatment</b>	
<p><b>PO7</b></p> <p>Stormwater generated on-site is treated and disposed of in an acceptable manner to mitigate any impacts on soil, surface water or ground water quality. Development resulting in the degradation of soil, surface water or ground water quality is avoided.</p>	<p><b>E7</b></p> <p>All concentrated animal use areas (e.g. sheds, pens, holding yards, stables, kennels and other animal enclosures) are provided with site drainage to ensure all run-off is directed to suitable detention basins, filtration or other treatment areas.</p>
<b>Rural uses setbacks</b>	
<p><b>PO8</b></p> <p>Development ensures:</p> <p>a. sufficient separation from existing sensitive land uses to avoid adverse impacts from chemical spray, fumes, odour and dust;</p>	<p><b>E8</b></p> <p>The following uses and associated buildings are setback from all property boundaries as follows:</p> <p>a. Animal husbandry (buildings only) – 10m</p> <p>b. Animal keeping<sup>(5)</sup>, excluding catteries and kennels - 20m</p>

## 6 Zones

<p>b. environmental nuisance or annoyance resulting from-but not limited to-noise, storage of materials and waste does not adversely impact on sensitive land uses; and</p> <p>c. buildings and other structures are consistent with the open area, low density, low built form character and amenity associated with the rural environment.</p>	<p>c. Aquaculture<sup>(6)</sup> involving ponds or water behind dams – 100m</p> <p>d. Aquaculture<sup>(6)</sup> involving the housing of tanks and associated equipment - 20m</p> <p>e. Cropping<sup>(19)</sup> (building only) – 10m</p> <p>f. Intensive horticulture<sup>(40)</sup> – 20m</p> <p>g. Nature-based tourism<sup>(50)</sup>, Short-term accommodation and Tourist park<sup>(84)</sup> - 40m</p> <p>h. Permanent plantations<sup>(59)</sup> – 25m</p> <p>i. Rural Industry<sup>(70)</sup> - 20m</p> <p>j. Rural workers' accommodation<sup>(71)</sup> - 40m</p> <p>k. Transport depot<sup>(85)</sup>, including all vehicle parking, storage and driveway areas – 30m</p> <p>l. Wholesale nursery<sup>(89)</sup> – 10m</p> <p>m. Winery<sup>(90)</sup> (buildings only) - 10m.</p>
<b>Car parking</b>	
<p><b>PO9</b></p> <p>On-site car parking associated with an activity provides safe and convenient on-site parking and manoeuvring to meet anticipated parking demand.</p> <p>Note - Refer to Planning scheme policy - Integrated transport assessment for guidance on how to achieve compliance with this outcome.</p>	<p><b>E9</b></p> <p>On-site car parking is provided in accordance Schedule 7 - Car parking.</p>
<b>Noise</b>	
<p><b>PO10</b></p> <p>Noise generating uses do not adversely affect existing noise sensitive uses.</p> <p>Note - The use of walls, barriers or fences that are visible from or adjoin a road or public area are not appropriate noise attenuation measures unless adjoining a motorway, arterial road or rail line.</p> <p>Note - A noise impact assessment may be required to demonstrate compliance with this PO. Noise impact assessments are to be prepared in accordance with Planning scheme policy - Noise.</p>	<p>No example provided.</p>
<p><b>PO11</b></p> <p>Sensitive land uses are provided with an appropriate acoustic environment within designated external private outdoor living spaces and internal areas while:</p>	<p><b>E11.1</b></p> <p>Development is designed to meet the criteria outlined in the Planning Scheme Policy – Noise.</p>

<p>a. contributing to safe and usable public spaces, through maintaining high levels of surveillance of parks, streets and roads that serve active transport purposes (e.g. existing or future pedestrian paths or cycle lanes etc);</p> <p>b. maintaining the amenity of the streetscape.</p> <p>Note - A noise impact assessment may be required to demonstrate compliance with this PO. Noise impact assessments are to be prepared in accordance with Planning scheme policy - Noise.</p> <p>Note - Refer to Planning Scheme Policy – Integrated design for details and examples of noise attenuation structures.</p>	<p><b>E11.2</b></p> <p>Noise attenuation structures (e.g. walls, barriers or fences):</p> <p>a. are not visible from an adjoining road or public area unless:</p> <ol style="list-style-type: none"> <li>i. adjoining a motorway or rail line; or</li> <li>ii. adjoining part of an arterial road that does not serve an existing or future active transport purpose (e.g. pedestrian paths or cycle lanes) or where attenuation through building location and materials is not possible.</li> </ol> <p>b. do not remove existing or prevent future active transport routes or connections to the street network;</p> <p>c. are located, constructed and landscaped in accordance with Planning scheme policy - Integrated design.</p> <p>Note - Refer to Planning scheme policy – Integrated design for details and examples of noise attenuation structures.</p> <p>Note - Refer to Overlay map – Active transport for future active transport routes.</p>
<p><b>Hazardous Chemicals</b></p> <p>Note - To assist in demonstrating compliance with the following performance outcomes, a Hazard Assessment Report may be required to be prepared and submitted by a suitably qualified person in accordance with 'State Planning Policy Guideline - Guidance on development involving hazardous chemicals'.</p> <p>Terms used in this section are defined in State 'State Planning Policy Guideline - Guidance on development involving hazardous chemicals'.</p>	
<p><b>PO12</b></p> <p>Off sites risks from foreseeable hazard scenarios involving hazardous chemicals are commensurate with the sensitivity of the surrounding land use zones.</p>	<p><b>E12.1</b></p> <p>Off site impacts or risks from any foreseeable hazard scenario does not exceed the dangerous dose at the boundary of land zoned for vulnerable or sensitive land uses as described below:</p> <p>Dangerous Dose</p> <p>a. For any hazard scenario involving the release of gases or vapours:</p> <ol style="list-style-type: none"> <li>i. AEGL2 (60minutes) or if not available ERPG2;</li> <li>ii. An oxygen content in air &lt;19.5% or &gt;23.5% at normal atmospheric pressure.</li> </ol> <p>b. For any hazard scenario involving fire or explosion:</p> <ol style="list-style-type: none"> <li>i. 7kPa overpressure;</li> <li>ii. 4.7kW/m<sup>2</sup> heat radiation.</li> </ol>

## 6 Zones

	<p>If criteria E12.1 (a) or (b) cannot be achieved, then the risk of any foreseeable hazard scenario shall not exceed an individual fatality risk level of <math>0.5 \times 10^{-6}</math>/year.</p> <hr/> <p><b>E12.2</b></p> <p>Off site impacts or risks from any foreseeable hazard scenario does not exceed the dangerous dose at the boundary of a commercial or community activity land use zone as described below:</p> <p>Dangerous Dose</p> <p>a. For any hazard scenario involving the release of gases or vapours:</p> <ul style="list-style-type: none"><li>i. AEGL2 (60minutes) or if not available ERPG2;</li><li>ii. An oxygen content in air <math>&lt;19.5\%</math> or <math>&gt;23.5\%</math> at normal atmospheric pressure.</li></ul> <p>b. For any hazard scenario involving fire or explosion:</p> <ul style="list-style-type: none"><li>i. 7kPa overpressure;</li><li>ii. 4.7kW/m<sup>2</sup> heat radiation.</li></ul> <p>If criteria E12.2 (a) or (b) cannot be achieved, then the risk of any foreseeable hazard scenario shall not exceed an individual fatality risk level of <math>5 \times 10^{-6}</math>/year.</p> <hr/> <p><b>E12.3</b></p> <p>Off site impacts or risks from any foreseeable hazard scenario does not exceed the dangerous dose at the boundary of an industrial land use zone as described below:</p> <p>Dangerous Dose</p> <p>a. For any hazard scenario involving the release of gases or vapours:</p> <ul style="list-style-type: none"><li>i. AEGL2 (60minutes) or if not available ERPG2;</li><li>ii. An oxygen content in air <math>&lt;19.5\%</math> or <math>&gt;23.5\%</math> at normal atmospheric pressure.</li></ul> <p>b. For any hazard scenario involving fire or explosion:</p> <ul style="list-style-type: none"><li>i. 14kPa overpressure;</li><li>ii. 12.6kW/m<sup>2</sup> heat radiation.</li></ul>
--	--

	If criteria E12.3 (a) or (b) cannot be achieved, then the risk of any foreseeable hazard scenario shall not exceed an individual fatality risk level of $50 \times 10^{-6}$ /year.
<b>PO13</b> Buildings and package stores containing fire-risk hazardous chemicals are designed to detect the early stages of a fire situation and notify a designated person.	<b>E13</b> Buildings and package stores containing fire-risk hazardous chemicals are provided with 24 hour monitored fire detection system for early detection of a fire event.
<b>PO14</b> Common storage areas containing packages of flammable and toxic hazardous chemicals are designed with spill containment system(s) that are adequate to contain releases, including fire fighting media.	<b>E14</b> Storage areas containing packages of flammable and toxic hazardous chemicals are designed with spill containment system(s) capable of containing a minimum of the total aggregate capacity of all packages plus the maximum operating capacity of any fire protection system for the storage area(s) over a minimum of 60 minutes.
<b>PO15</b> Storage and handling areas, including manufacturing areas, containing hazardous chemicals in quantities greater than 2,500L or kg within a Local Government "flood hazard area" are located and designed in a manner to minimise the likelihood of inundation of flood waters from creeks, rivers, lakes or estuaries.	<b>E15.1</b> The base of any tank with a WC >2,500L or kg is higher than any relevant flood height level identified in an area's flood hazard area. Alternatively: a. bulk tanks are anchored so they cannot float if submerged or inundated by water; and b. tank openings not provided with a liquid tight seal, i.e. an atmospheric vent, are extended above the relevant flood height level.
	<b>E15.2</b> The lowest point of any storage area for packages >2,500L or kg is higher than any relevant flood height level identified in an area's flood hazard area. Alternatively, package stores are provided with impervious bund walls or racking systems higher than the relevant flood height level.
<b>Clearing of habitat trees where not located within the Environmental areas overlay map</b>	
<b>PO16</b> a. Development ensures that the biodiversity quality and integrity of habitats is not adversely impacted upon but maintained and protected. b. Development does not result in the net loss of fauna habitat. Where development does result in the loss of a habitat tree, development will provide replacement fauna nesting boxes at the following rate of 1 nest box for every hollow removed. Where	No example provided.

## 6 Zones

<p>hollows have not yet formed in trees &gt; 80cm in diameter at 1.3m height, 3 nest boxes are required for every habitat tree removed.</p> <p>c. Development does not result in soil erosion or land degradation or leave land exposed for an unreasonable period of time but is rehabilitated in a timely manner</p> <p>Note: Further guidance on habitat trees is provided in Planning scheme policy - Environmental areas</p>	
---	--

### Works criteria

<b>Utilities</b>	
<p><b>PO17</b></p> <p>All services including water supply, sewage disposal, electricity, street lighting, telecommunications and gas (if available) are provided in a manner that:</p> <ul style="list-style-type: none"> <li>a. is effective in delivery of service and meets reasonable community expectations;</li> <li>b. has capacity to service the maximum lot yield envisaged for the zone and the service provider's design assumptions;</li> <li>c. ensures a logical, sequential, efficient and integrated roll out of the service network;</li> <li>d. is conveniently accessible in the event of maintenance or repair;</li> <li>e. minimises whole of life cycle costs for that infrastructure;</li> <li>f. minimises risk of potential adverse impacts on the natural and built environment;</li> <li>g. minimises risk of potential adverse impact on amenity and character values;</li> <li>h. recognises and promotes Councils Total Water Cycle Management policy and the efficient use of water resources.</li> </ul>	<p><b>E17</b></p> <p>Development is provided with an appropriate level of service and infrastructure in accordance with Planning scheme policy - Integrated design (Appendix A).</p>

<b>Access</b>	
<p><b>PO18</b></p>	<p>No example provided.</p>

<p>Where required, access easements contain a driveway and provision for services appropriate to the use. The easement covers all works associated with the access in accordance with Planning scheme policy - Integrated design.</p>	
<p><b>PO19</b></p> <p>The layout of the development does not compromise:</p> <ol style="list-style-type: none"> <li>a. the development of the road network in the area;</li> <li>b. the function or safety of the road network;</li> <li>c. the capacity of the road network.</li> </ol> <p>Note - The road hierarchy is mapped on Overlay map - Road hierarchy.</p>	<p><b>E19.1</b></p> <p>The development provides for the extension of the road network in the area in accordance with Council's road network planning.</p>
	<p><b>E19.2</b></p> <p>The development does not compromise future road widening of frontage roads in accordance with the relevant standard and Council's road planning.</p>
	<p><b>E19.3</b></p> <p>The development layout allows forward vehicular access to and from the site.</p>
<p><b>PO20</b></p> <p>Safe access is provided for all vehicles required to access the site.</p>	<p><b>E20.1</b></p> <p>Site access and driveways are designed, located and constructed in accordance with:</p> <ol style="list-style-type: none"> <li>a. where for a Council-controlled road and associated with a Dwelling house: <ol style="list-style-type: none"> <li>i. Planning scheme policy - Integrated design;</li> </ol> </li> <li>b. where for a Council-controlled road and not associated with a Dwelling house: <ol style="list-style-type: none"> <li>i. AS/NZS2890.1 Parking facilities Part 1: Off street car parking;</li> <li>ii. AS 2890.2 - Parking facilities Part 2: Off-street commercial vehicle facilities;</li> <li>iii. Planning scheme policy - Integrated design;</li> <li>iv. Schedule 8 - Service vehicle requirements;</li> </ol> </li> <li>c. where for a State-Controlled road, the Safe Intersection Sight Distance requirements in Austroads and the appropriate IPWEAQ standard drawings, or a copy of a Transport Infrastructure Act 1994, section 62 approval.</li> </ol>
	<p><b>E20.2</b></p>

## 6 Zones

	<p>Internal driveways, car parks and access ways are designed and constructed with a sealed pavement and in accordance with:</p> <ol style="list-style-type: none"> <li>AS/NZS 2890.1 Parking Facilities Part 1: Off street car parking;</li> <li>AS 2890.2 Parking Facilities Part 2: Off street commercial vehicle facilities;</li> <li>Planning scheme policy - Integrated design; and</li> <li>Schedule 8 - Service vehicle requirements.</li> </ol> <p>Note - This includes queue lengths (refer to Schedule 8 - Service vehicle requirements), pavement widths and construction.</p>
	<p><b>E20.3</b></p> <p>Crossovers and driveways associated with a Dwelling house are designed, located and constructed in accordance with Planning scheme policy - Integrated design.</p>
	<p><b>E20.4</b></p> <p>Access driveways, manoeuvring areas and loading facilities are sealed and provide for service vehicles listed in Schedule 8 - Service vehicle requirements for the relevant use. The on-site manoeuvring is to be in accordance with Schedule 8 - Service vehicle requirements.</p>
	<p><b>E20.5</b></p> <p>Landscaping (including shade trees) is provided within car parks in accordance with Planning scheme policy - Integrated design.</p>
<p><b>PO21</b></p> <p>Sealed and flood free road access during the minor storm event is available to the site from the nearest arterial or sub-arterial road.</p> <p>Editor's note - Where associated with a State-controlled road, further requirements may apply, and approvals may be required from the Department of Transport and Main Roads.</p>	<p><b>E21</b></p> <p>Roads or streets giving access to the development from the nearest arterial or sub-arterial road are flood free during the minor storm event and are sealed.</p> <p>Note - The road network is mapped on Overlay map - Road hierarchy.</p>
<p><b>Street design and layout</b></p>	
<p><b>PO22</b></p>	<p>No example provided.</p>

<p>Streets are designed and constructed in accordance with Planning scheme policy - Integrated design and Planning scheme policy - Operational works inspection, maintenance and bonding procedures. The street design and construction accommodates the following functions:</p> <ol style="list-style-type: none"> <li>a. access to premises by providing convenient vehicular movement for residents between their homes and the major road network;</li> <li>b. safe and convenient pedestrian and cycle movement;</li> <li>c. adequate on street parking;</li> <li>d. stormwater drainage paths and treatment facilities;</li> <li>e. efficient public transport routes;</li> <li>f. utility services location;</li> <li>g. emergency access and waste collection;</li> <li>h. setting and approach (streetscape, landscaping and street furniture) for adjoining residences;</li> <li>i. expected traffic speeds and volumes; and</li> <li>j. wildlife movement (where relevant).</li> </ol> <p>Note - Preliminary road design (including all services, street lighting, stormwater infrastructure, access locations, street trees and pedestrian network) may be required to demonstrate compliance with this PO.</p> <p>Note - Refer to Planning scheme policy - Environmental areas and corridors for examples of when and where wildlife movement infrastructure is required.</p>	
<p><b>PO23</b></p> <p>The existing road network (whether trunk or non-trunk) is upgraded where necessary to cater for the impact from the development.</p> <p>Note - An applicant may be required to submit an Integrated Transport Assessment (ITA), prepared in accordance with Planning scheme policy - Integrated transport assessment to demonstrate compliance with this PO, when any of the following occurs:</p> <ul style="list-style-type: none"> <li>• Development is within 200m of a transport sensitive location such as a school, shopping centre, bus or train station or a large generator of pedestrian or vehicular traffic;</li> <li>• Forecast traffic to/from the development exceeds 5% of the two way flow on the adjoining road or intersection in the morning or afternoon transport peak within 10 years of the development completion;</li> </ul>	<p><b>E23.1</b></p> <p>New intersections onto existing roads are designed to accommodate traffic volumes and traffic movements taken from a date 10 years from the date of completion of the last stage of the development. Detailed design is to be in accordance with Planning scheme policy - Integrated design.</p> <p>Note - All turns vehicular access to existing lots is to be retained at new road intersections wherever practicable.</p> <p>Note - Existing on-street parking is to be retained at new road intersections and along road frontages wherever practicable.</p> <p><b>E23.2</b></p>

## 6 Zones

<ul style="list-style-type: none"> <li>• Development access onto a sub arterial, or arterial road or within 100m of a signalised intersection;</li> <li>• Residential development greater than 50 lots or dwellings;</li> <li>• Offices greater than 4,000m<sup>2</sup> Gross Floor Area (GFA);</li> <li>• Retail activities including Hardware and trade supplies, Showroom, Shop or Shopping centre greater than 1,000m<sup>2</sup> GFA;</li> <li>• Warehouses and Industry greater than 6,000m<sup>2</sup> GFA;</li> <li>• On-site carpark greater than 100 spaces;</li> <li>• Development has a trip generation rate of 100 vehicles or more within the peak hour;</li> <li>• Development which dissects or significantly impacts on an environmental area or an environmental corridor.</li> </ul> <p>The ITA is to review the development's impact upon the external road network for the period of 10 years from completion of the development. The ITA is to provide sufficient information for determining the impact and the type and extent of any ameliorative works required to cater for the additional traffic. The ITA must include a future structural road layout of adjoining properties that will form part of this catchment and road connecting to these properties. The ITA is to assess the ultimate developed catchment's impacts and necessary ameliorative works, and the works or contribution required by the applicant as identified in the study.</p> <p>Note - The road network is mapped on Overlay map - Road hierarchy.</p> <p>Note - The primary and secondary active transport network is mapped on Overlay map - Active transport.</p>	<p>Existing intersections external to the site are upgraded as necessary to accommodate increased traffic from the development. Design is in accordance with Planning scheme policy - Operational works inspection, maintenance and bonding procedures.</p> <p>Note - All turns vehicular access to existing lots is to be retained at new road intersections wherever practicable.</p> <p>Note - Existing on-street parking is to be retained at upgraded road intersections and along road frontages wherever practicable.</p>
<p><b>PO24</b></p> <p>New intersections along all streets and roads are located and designed to provide safe and convenient movements for all users.</p> <p>Note - Refer Planning scheme policy - Integrated design and Planning scheme policy - Operational works inspection, maintenance and bonding procedures for design and construction standards.</p> <p>Note - An Integrated Transport Assessment (ITA) including preliminary intersection designs, prepared in accordance with Planning scheme policy - Integrated transport assessment may be required to demonstrate compliance with this PO. Intersection spacing will be determined based on the deceleration and queue storage distances required for the intersection after considering vehicle speed and present/forecast turning and through volumes.</p>	<p><b>E23.3</b></p> <p>The active transport network is extended in accordance with Planning scheme policy - Integrated design.</p> <p><b>E24</b></p> <p>New intersection spacing (centreline – centreline) along a through road conforms with the following:</p> <ol style="list-style-type: none"> <li>a. Where the through road provides an access or collector function:             <ol style="list-style-type: none"> <li>i. intersecting road located on same side = 100 metres;</li> <li>ii. intersecting road located on opposite side = 50 metres.</li> </ol> </li> <li>b. Where the through road provides a sub-arterial function:</li> </ol>

	<ul style="list-style-type: none"> <li>i. intersecting road located on same side = 300 metres;</li> <li>ii. intersecting road located on opposite side = 150 metres.</li> </ul> <p>c. When the through road provides an arterial function:</p> <ul style="list-style-type: none"> <li>i. intersecting road located on the same side = 500 metres;</li> <li>ii. intersecting road located on opposite side = 250 metres.</li> </ul> <p>Note - Based on the absolute minimum intersection spacing identified above, all turns access may not be permitted (ie. left in/left out only) at intersections with sub-arterial roads or arterial roads.</p> <p>Note - The road network is mapped on Overlay map - Road hierarchy.</p> <p>Note - An Integrated Transport Assessment (ITA) including preliminary intersection designs, prepared in accordance with Planning scheme policy - Integrated transport assessment may be required to demonstrate compliance with this PO</p>
--	--

Stormwater	
<p><b>PO25</b></p> <p>Minor stormwater drainage systems (internal and external) have the capacity to convey stormwater flows from frequent storm events for the fully developed upstream catchment whilst ensuring pedestrian and vehicular traffic movements are safe and convenient.</p>	<p><b>E25.1</b></p> <p>The capacity of all minor drainage systems are designed in accordance with Planning scheme policy - Integrated design.</p>
	<p><b>E25.2</b></p> <p>Stormwater pipe network capacity is to be calculated in accordance with the Hydraulic Grade Line method as detailed in Australian Rainfall and Runoff or QUDM.</p>
<p><b>PO26</b></p> <p>Major stormwater drainage system(s) have the capacity to safely convey stormwater flows for the 1% AEP event for the fully developed upstream catchment.</p>	<p><b>E26.1</b></p> <p>The internal drainage system safely and adequately conveys the stormwater flows for the 1% AEP event for the fully developed upstream catchment through the site.</p>
	<p><b>E26.2</b></p> <p>The external (downstream) drainage system safely conveys the stormwater flows for the 1% AEP event for the fully developed upstream catchment without allowing the flows to encroach upon private lots.</p>
	<p><b>E26.3</b></p>

## 6 Zones

	<p>Overland flow paths (for any storm event) from newly constructed roads and public open space areas do not pass through the development footprint.</p>
<p><b>PO27</b></p> <p>Provide measures to properly manage surface flows for the 1% AEP event (for the fully developed catchment) draining to and through the land to ensure no actionable nuisance is created to any person or premises as a result of the development. The development must not result in ponding on adjacent land, redirection of surface flows to other premises or blockage of a surface flow relief path for flows exceeding the design flows for any underground system within the development.</p>	<p><b>E26.4</b></p> <p>The flow velocity in all unlined or soft faced open drains is kept within acceptable limits for the type of material or lining and condition of the channel.</p> <p>Note - Refer to QUDM for recommended average flow velocities.</p> <p><b>E27</b></p> <p>The stormwater drainage system is designed and constructed in accordance with Planning scheme policy - Integrated design.</p>
<p><b>PO28</b></p> <p>Stormwater run-off from the site is conveyed to a point of lawful discharge without causing actionable nuisance to any person, property or premises.</p> <p>Note - Refer to Planning scheme policy - Integrated design for details.</p> <p>Note - A downstream drainage discharge report in accordance with Planning scheme policy - Stormwater management may be required to demonstrate achievement of this performance outcome.</p> <p>Note - A watercourse as defined in the Water Act may be accepted as a lawful point of discharge providing the drainage discharge from the site does not increase the downstream flood levels during events up to and including the 1% AEP storm. An afflux of +20mm may be accepted on Council controlled land and road infrastructure. No worsening is ensured when stormwater is discharged into a catchment that includes State Transport Infrastructure.</p>	<p>No example provided.</p>
<p><b>PO29</b></p> <p>Stormwater generated from the development does not compromise the capacity of existing stormwater infrastructure downstream of the site.</p> <p>Note - A downstream drainage discharge report in accordance with Planning scheme policy - Stormwater management may be required to demonstrate achievement of this performance outcome.</p>	<p>No example provided.</p>
<p><b>PO30</b></p>	<p><b>E30.1</b></p>

<p>Stormwater drainage pipes and structures through or within private land (including inter-allotment drainage) are protected by easements in favour of Council with sufficient area for practical access for maintenance purposes.</p> <p>Note - In order to achieve a lawful point of discharge, stormwater easements may also be required over temporary drainage channels/infrastructure where stormwater dams to a balance lot prior to entering Council's stormwater drainage system.</p>	<p>Stormwater drainage infrastructure (excluding detention and bio-retention systems) through or within private land (including inter-allotment drainage) is protected by easements in favour of Council. Minimum easement widths are as follows:</p> <table border="1" data-bbox="810 387 1468 913"> <thead> <tr> <th>Pipe Diameter</th> <th>Minimum easement width (excluding access requirements)</th> </tr> </thead> <tbody> <tr> <td>Stormwater pipe up to 825mm diameter</td> <td>3.0m</td> </tr> <tr> <td>Stormwater pipe up to 825mm diameter with sewer pipe up to 225m diameter</td> <td>4.0m</td> </tr> <tr> <td>Stormwater pipe greater than 825mm diameter</td> <td>Easement boundary to be 1m clear of the outside wall of the stormwater pipe (each side).</td> </tr> </tbody> </table> <p>Note - Additional easement width may be required in certain circumstances in order to facilitate maintenance access to the stormwater system.</p> <p>Note - Refer to Planning scheme policy - Integrated design (Appendix C) for easement requirements over open channels.</p> <p><b>E30.2</b></p> <p>Easements are provided over all headwalls and outlet structures within private land. The easement is to cover all drainage works and extend to the point where the stormwater flows return to natural flow conditions.</p>	Pipe Diameter	Minimum easement width (excluding access requirements)	Stormwater pipe up to 825mm diameter	3.0m	Stormwater pipe up to 825mm diameter with sewer pipe up to 225m diameter	4.0m	Stormwater pipe greater than 825mm diameter	Easement boundary to be 1m clear of the outside wall of the stormwater pipe (each side).
Pipe Diameter	Minimum easement width (excluding access requirements)								
Stormwater pipe up to 825mm diameter	3.0m								
Stormwater pipe up to 825mm diameter with sewer pipe up to 225m diameter	4.0m								
Stormwater pipe greater than 825mm diameter	Easement boundary to be 1m clear of the outside wall of the stormwater pipe (each side).								
<p><b>PO31</b></p> <p>Stormwater management facilities (excluding outlets) are located outside of riparian areas and prevent increased channel bed and bank erosion.</p>	<p>No example provided.</p>								
<p><b>PO32</b></p> <p>Council is provided with accurate representations of the completed stormwater management works within residential developments.</p>	<p><b>E32</b></p> <p>"As Built" drawings and specifications of the stormwater management devices certified by an RPEQ is provided.</p> <p>Note - Documentation is to include:</p> <ol style="list-style-type: none"> <li>photographic evidence and inspection date of the installation of approved underdrainage;</li> <li>copy of the bioretention filter media delivery dockets/quality certificates confirming the materials comply with specifications in the approved Stormwater Management Plan;</li> <li>date of the final inspection.</li> </ol>								

## 6 Zones

Site works and construction management	
<p><b>PO33</b></p> <p>The site and any existing structures are maintained in a tidy and safe condition.</p>	<p>No example provided.</p>
<p><b>PO34</b></p> <p>All works on-site are managed to:</p> <ul style="list-style-type: none"> <li>a. minimise as far as practicable, impacts on adjoining or adjacent premises and the streetscape in regard to erosion and sedimentation, dust, noise, safety and light;</li> <li>b. minimise as far as possible, impacts on the natural environment;</li> <li>c. ensure stormwater discharge is managed in a manner that does not cause actionable nuisance to any person or premises;</li> <li>d. avoid adverse impacts on street trees and their critical root zone.</li> </ul>	<p><b>E34.1</b></p> <p>Works incorporate temporary stormwater runoff, erosion and sediment controls and trash removal devices designed in accordance with the Urban Stormwater Quality Planning Guidelines, State Planning Policy, Schedule 10 - Stormwater management design objectives, Planning scheme policy - Stormwater management and Planning scheme policy - Integrated design, including but not limited to the following:</p> <ul style="list-style-type: none"> <li>a. stormwater is not discharged to adjacent properties in a manner that differs significantly from pre-existing conditions;</li> <li>b. stormwater discharged to adjoining and downstream properties does not cause scour or erosion of any kind;</li> <li>c. stormwater discharge rates do not exceed pre-existing conditions;</li> <li>d. minimum design storm for all temporary diversion drains and sedimentation basins in accordance with Schedule 10 - Stormwater management design objectives;</li> <li>e. ponding or concentration of stormwater does not occur on adjoining properties.</li> </ul>
	<p><b>E34.2</b></p> <p>Stormwater runoff, erosion and sediment controls are constructed in accordance with Planning scheme policy - Integrated design (Appendix C) prior to commencement of any clearing or earthworks and are maintained and adjusted as necessary at all times to ensure their ongoing effectiveness.</p> <p>Note - The measures are adjusted on-site to maximise their effectiveness.</p>
	<p><b>E34.3</b></p> <p>The completed earthworks area is stabilised using turf, established grass seeding, mulch or sprayed stabilisation techniques to control erosion and sediment and dust from leaving the property.</p>
	<p><b>E34.4</b></p>

	<p>Existing street trees are protected and not damaged during works.</p> <p>Note - Where development occurs in the tree protection zone, measures and techniques as detailed in Australian Standard AS 4970 Protection of trees on development sites are adopted and implemented.</p>
<p><b>PO35</b></p> <p>Dust suppression measures are implemented during soil disturbances and construction works to protect nearby premises from unreasonable dust impacts.</p>	<p><b>E35</b></p> <p>No dust emissions extend beyond the boundaries of the site during soil disturbances and construction works.</p>
<p><b>PO36</b></p> <p>All development works including the transportation of material to and from the site are managed to not negatively impact the existing road network, the amenity of the surrounding area or the streetscape.</p> <p>Note - A Traffic Management Plan may be required to demonstrate compliance with this PO. A Traffic Management Plan is to be prepared in accordance with the Manual of Uniform Traffic Control Devices (MUTCD).</p> <p>Note - A haulage route must be identified and approved by Council where imported or exported material is transported to the site via a road of Local Collector standard or less, and:</p> <ol style="list-style-type: none"> <li>the aggregate volume of imported or exported material is greater than 1000m<sup>3</sup>; or</li> <li>the aggregate volume of imported or exported material is greater than 200m<sup>3</sup> per day; or</li> <li>the proposed haulage route involves a vulnerable land use or shopping centre.</li> </ol> <p>Note - A dilapidation report (including photographs) may be required for the haulage route to demonstrate compliance with this PO.</p> <p>Editor's note - Where associated with a State-controlled road, further requirements may apply, and approval may be required from the Department of Transport and Main Roads.</p>	<p><b>E36.1</b></p> <p>Construction traffic including contractor car parking is controlled in accordance with a traffic management plan, prepared in accordance with the Manual of Uniform Traffic Control Devices (MUTCD) to ensure all traffic movements to and from the site are safe.</p>
	<p><b>E36.2</b></p> <p>All contractor car parking is either provided on the development site, or on an alternative site in the general locality which has been set aside for car parking. Contractors vehicles are generally not to be parked in existing roads.</p>
	<p><b>E36.3</b></p> <p>Any material dropped, deposited or spilled on the road(s) as a result of construction processes associated with the site are to be cleaned at all times.</p>
	<p><b>E36.4</b></p> <p>Construction traffic to and from the development site uses the highest classification streets or roads where a choice of access routes is available. Haul routes for the transport of imported or spoil material and gravel pavement material along Council roads below sub-arterial standard must be approved routes.</p> <p>Note - The road hierarchy is mapped on Overlay map - Road hierarchy.</p> <p>Note - A dilapidation report may be required to demonstrate compliance with this E.</p>
	<p><b>E36.5</b></p> <p>Where works are carried out in existing roads, the works must be undertaken so that the existing roads are maintained in a safe and usable condition. Practical</p>

## 6 Zones

	<p>access for residents, visitors and services (including postal deliveries and refuse collection) is retained to existing lots during the construction period and after completion of the works.</p> <p>Note - A traffic control plan prepared in accordance with the Manual of Uniform Traffic Control Devices (MUTCD) will be required for any works that will affect access, traffic movements or traffic safety in existing roads.</p>
	<p><b>E36.6</b></p> <p>Access to the development site is obtained via an existing lawful access point.</p>
<p><b>PO37</b></p> <p>All disturbed areas are to be progressively stabilised during construction and the entire site rehabilitated and substantially stabilised at the completion of construction.</p> <p>Note - Refer to Planning scheme policy - Integrated design for details.</p>	<p><b>E37</b></p> <p>At completion of construction all disturbed areas of the site are to be:</p> <ol style="list-style-type: none"> <li>a. topsoiled with a minimum compacted thickness of fifty (50) millimetres;</li> <li>b. stabilised using turf, established grass seeding, mulch or sprayed stabilisation techniques.</li> </ol> <p>Note - These areas are to be maintained during any maintenance period to maximise grass coverage.</p>
<p><b>PO38</b></p> <p>Earthworks are undertaken to ensure that soil disturbances are staged into manageable areas.</p> <p>Note - A site specific Erosion and Sediment Control Plan (ESCP) will be required to demonstrate compliance with this PO. An ESCP is to be prepared in accordance with Planning scheme policy - Stormwater management and Planning scheme policy - Integrated design (Appendix C).</p>	<p><b>E38</b></p> <p>Soil disturbances are staged into manageable areas of not greater than 3.5 ha.</p>
<p><b>PO39</b></p> <p>The clearing of vegetation on-site:</p> <ol style="list-style-type: none"> <li>a. is limited to the area of infrastructure works, building areas and other necessary areas for the works; and</li> <li>b. includes the removal of declared weeds and other materials which are detrimental to the intended use of the land;</li> <li>c. is disposed of in a manner which minimises nuisance and annoyance to existing premises.</li> </ol> <p>Note - No burning of cleared vegetation is permitted.</p>	<p><b>E39.1</b></p> <p>All native vegetation to be retained on-site is temporarily fenced or protected prior to and during development works.</p> <p>Note - No parking of vehicles or storage of machinery or goods is to occur in these areas during development works.</p> <p><b>E39.2</b></p> <p>Disposal of materials is managed in one or more of the following ways:</p>

	<p>a. all cleared vegetation, declared weeds, stumps, rubbish, car bodies, scrap metal and the like are removed and disposed of in a Council land fill facility; or</p> <p>b. all native vegetation with a diameter below 400mm is to be chipped and stored on-site.</p> <p>Note - The chipped vegetation must be stored in an approved location.</p>
<p><b>PO40</b></p> <p>All development works are carried out at times which minimise noise impacts to residents.</p>	<p><b>E40</b></p> <p>All development works are carried out within the following times:</p> <p>a. Monday to Saturday (other than public holidays) between 6:30am and 6:30pm on the same day;</p> <p>b. no work is to be carried out on Sundays or public holidays.</p> <p>Note - Work outside the above hours may be approved (in writing) where it can be demonstrated that the work will not cause significant inconvenience or disruption to the public, or the work is unlikely to cause annoyance or inconvenience to occupants of adjacent properties.</p>
<p><b>PO41</b></p> <p>Any alteration or relocation in connection with or arising from the development to any service, installation, plant, equipment or other item belonging to or under the control of the telecommunications authority, electricity authorities, the Council or other person engaged in the provision of public utility services is to be carried with the development and at no cost to Council.</p>	<p>No example provided.</p>
<b>Earthworks</b>	
<p><b>PO42</b></p> <p>On-site earthworks are designed to consider the visual and amenity impact as they relate to:</p> <p>a. the natural topographical features of the site;</p> <p>b. short and long-term slope stability;</p> <p>c. soft or compressible foundation soils;</p> <p>d. reactive soils;</p> <p>e. low density or potentially collapsing soils;</p>	<p><b>E42.1</b></p> <p>All cut and fill batters are provided with appropriate scour, erosion protection and run-off control measures including catch drains at the top of batters and lined batter drains as necessary.</p>
	<p><b>E42.2</b></p> <p>Stabilisation measures are provided, as necessary, to ensure long-term stability and low maintenance of steep slopes and batters.</p>
	<p><b>E42.3</b></p>

# 6 Zones

<p>f. existing fill and soil contamination that may exist on-site;</p> <p>g. the stability and maintenance of steep slopes and batters;</p> <p>h. excavation (cut) and fill and impacts on the amenity of adjoining lots (e.g. residential).</p>	<p>Inspection and certification of steep slopes and batters is required by a suitably qualified and experienced RPEQ.</p> <p><b>E42.4</b></p> <p>All fill batters steeper than 1 (V) in 6 (H) on residential lots are fully turfed to prevent scour and erosion.</p> <p><b>E42.5</b></p> <p>All filling or excavation is contained on-site and is free draining.</p> <p><b>E42.6</b></p> <p>All fill placed on-site is:</p> <ul style="list-style-type: none"> <li>a. limited to that area necessary for the approved use;</li> <li>b. clean and uncontaminated (i.e. no building waste, concrete, green waste, actual acid sulfate soils, potential acid sulfate soils or contaminated material etc.).</li> </ul> <p><b>E42.7</b></p> <p>The site is prepared and the fill placed on-site in accordance with AS3798.</p> <p>Note - The fill is to be inspected and tested in accordance with Planning scheme policy - Operational works inspection, maintenance and bonding procedures.</p>
<p><b>PO43</b></p> <p>Embankments are stepped, terraced and landscaped to not adversely impact on the visual amenity of the surrounding area.</p>	<p><b>E43</b></p> <p>Any embankments more than 1.5 metres in height are stepped, terraced and landscaped.</p> <p style="text-align: center;"><b>Figure - Embankment</b></p> 
<p><b>PO44</b></p> <p>Filling or excavation is undertaken in a manner that:</p>	<p><b>E44.1</b></p> <p>No filling or excavation is undertaken in an easement issued in favour of Council or a public sector entity.</p>

<p>a. does not adversely impact on a Council or public sector entity maintained infrastructure or any drainage feature on, or adjacent to the land;</p> <p>b. does not preclude reasonable access to a Council or public sector entity maintained infrastructure or any drainage feature on, or adjacent to the land for monitoring, maintenance or replacement purposes.</p> <p>Note - Public sector entity is defined in Schedule 2 of the Act.</p>	<p>Note - Public sector entity is defined in Schedule 2 of the Act.</p> <p><b>E44.2</b></p> <p>Filling or excavation that would result in any of the following is not carried out on-site:</p> <p>a. a reduction in cover over any Council or public sector entity infrastructure service to less than 600mm;</p> <p>b. an increase in finished surface grade over, or within 1.5m on each side of, the Council or public sector entity infrastructure above that which existed prior to the earthworks being undertaken;</p> <p>c. prevent reasonable access to Council or public sector entity maintained infrastructure or any drainage feature on, or adjacent to the site for monitoring, maintenance or replacement purposes.</p> <p>Note - Public sector entity is defined in Schedule 2 of the Act.</p> <p>Note - All building work covered by QDC MP1.4 is excluded from this provision.</p>
<p><b>PO45</b></p> <p>Filling or excavation does not cause any adverse impacts on utility services or on-site effluent disposal areas.</p>	<p><b>E45.1</b></p> <p>The area subject to filling or excavation does not contain any utility services.</p> <p><b>E45.2</b></p> <p>The distance between the top water level of a private dam and the irrigation area of a household sewage treatment plant (secondary treatment) is 30.0 metres.</p> <p><b>E45.3</b></p> <p>The distance between the top water level of a private dam and the irrigation area of a septic trench (primary treatment) is 50.0 metres.</p> <p>Note - Refer to the Water Quality Vision and Objectives contained in the Seqwater Development Guidelines: Development Guidelines for Water Quality Management in Drinking Water Catchments 2017 where contained within water resource area and water supply buffer area.</p>
<p><b>PO46</b></p> <p>Filling or excavation does not result in land instability.</p>	<p>No example provided.</p>

## 6 Zones

<p>Note - Steep slopes and batters are inspected and certified for long-term stability by a suitably qualified and experienced geotechnical engineer with RPEQ qualifications. Stabilisation measures are provided, as necessary, to ensure long-term stability and low maintenance.</p>	
<p><b>PO47</b></p> <p>Filling or excavation does not result in:</p> <ol style="list-style-type: none"> <li>adverse impacts on the hydrological and hydraulic capacity of the waterway or floodway;</li> <li>increased flood inundation outside the site;</li> <li>any reduction in the flood storage capacity in the floodway;</li> <li>any clearing of native vegetation.</li> </ol> <p>Note - To demonstrate compliance with this outcome, Planning Scheme Policy - Stormwater Management provides guidance on the preparation of a site based stormwater management plan by a suitably qualified professional. Refer to Planning scheme policy - Integrated design for guidance on infrastructure design and modelling requirements.</p>	<p>No example provided.</p>
<p><b>PO48</b></p> <p>Filling or excavation on the development site is undertaken in a manner which does not create or accentuate problems associated with stormwater flows and drainage systems on land adjoining the site.</p>	<p><b>E48</b></p> <p>Filling and excavation undertaken on the development site are shaped in a manner which does not:</p> <ol style="list-style-type: none"> <li>prevent stormwater surface flow which, prior to commencement of the earthworks, passed onto the development site, from entering the land; or</li> <li>redirect stormwater surface flow away from existing flow paths; or</li> <li>divert stormwater surface flow onto adjacent land, (other than a road), in a manner which:             <ol style="list-style-type: none"> <li>concentrates the flow; or</li> <li>increases the flow rates of stormwater over the affected section of the adjacent land above the situation which existed prior to the diversion; or</li> <li>causes actionable nuisance to any person, property or premises.</li> </ol> </li> </ol>
<p><b>PO49</b></p> <p>All earth retaining structures provide a positive interface with the streetscape and minimise impacts on the amenity of adjoining residents.</p>	<p><b>E49</b></p> <p>Earth retaining structures:</p> <ol style="list-style-type: none"> <li>are not constructed of boulder rocks or timber;</li> <li>where height is no greater than 900mm, are provided in accordance with Figure - Retaining on a boundary;</li> </ol>

Note - Refer to Planning scheme policy - Residential design for guidance on how to achieve compliance with this performance outcome.

**Figure - Retaining on boundary**

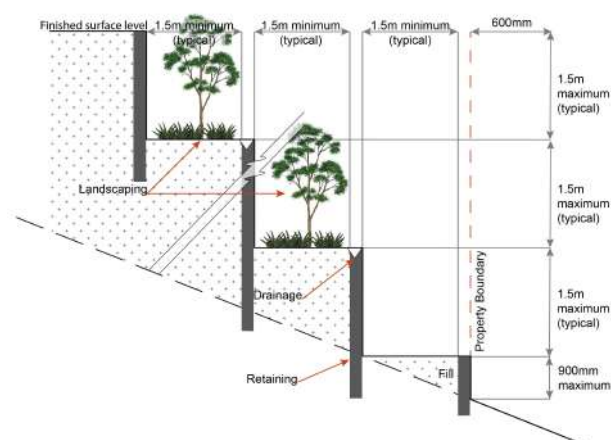

- c. where height is greater than 900mm but no greater than 1.5m, are to be setback at least the equivalent height of the retaining structure from any property boundary;
- d. where height is greater than 1.5m, are to be setback and stepped 1.5m vertical: 1.5m horizontal, terraced, landscaped and drained as shown below.

### Use specific criteria

#### Animal keeping<sup>(5)</sup> for catteries and kennels

##### PO50

Development for a cattery and kennel ensures that:

- it is a size, scale and design not visually dominant, overbearing or inconsistent with detached, low density, low built form character anticipated in the Rural zone;
- it is sufficiently landscaped, fenced and screened to reduce the visual appearance of buildings, structures, storage and parking areas;
- design, siting and construction prevents animal noise from being clearly audible beyond the development site and does not create a disturbance to residents on adjoining and surrounding properties;
- all building, including runs, are located a minimum 400m from all property boundaries;
- fencing of sufficient height and depth, being a minimum height of 1.8m and minimum depth of 0.2m, is provided to prevent animals escaping.

No example provided.

#### Dwelling house<sup>(22)</sup>

##### PO51

Development does not result in residential density exceeding more than one dwelling house<sup>(22)</sup> per lot.

##### E51

Residential density does not exceed one dwelling house<sup>(22)</sup> per lot.

<p><b>PO52</b></p> <p>Height of buildings and structures:</p> <ul style="list-style-type: none"> <li>a. is consistent with the existing low rise, open area and low density character and amenity of the Rural zone and its precincts;</li> <li>b. does not unduly impact on access to daylight, sunlight, overshadowing or privacy experienced by adjoining premises;</li> <li>c. for buildings in the Hamlet precinct, the height of buildings reflect the individual character of the area;</li> <li>d. does not adversely affect the operation of aviation facility at Mt Glorious (refer Overlay map - Infrastructure buffers) by adopting design or on-site management measures that: <ul style="list-style-type: none"> <li>i. ensures a physical line-of-sight between transmitting or receiving devices.</li> <li>ii. ensure electromagnetic fields do not interfere with the functioning of the aviation facility.</li> </ul> </li> </ul>	<p><b>E52</b></p> <p>Building height and all structures do not exceed the maximum height identified on Overlay map - Building heights; except in the Hamlet precinct, where outbuildings, free standing car ports or garages do not exceed 3.5m.</p>
<p><b>PO53</b></p> <p>For those properties within the catchments of Lake Samsonvale or Lake Kurwongbah, dwelling houses<sup>(22)</sup>, outbuildings and their associated waste/effluent disposal areas are positioned in a manner which avoids adverse impacts on the water quality of those lakes.</p>	<p><b>E53.1</b></p> <p>For Lake Samsonvale or Lake Kurwongbah, a setback of no less than 400m is maintained between the following nominated full supply levels to those lakes and any dwelling house<sup>(22)</sup> or outbuilding on the land:-</p> <ul style="list-style-type: none"> <li>a. RL 39.63m AHD being the full supply level to Lake Samsonvale; and</li> <li>b. RL 21m AHD being the full supply level to Lake Kurwongbah.</li> </ul> <p><b>OR</b></p> <p>No part of any dwelling house<sup>(22)</sup> or outbuilding on Lot 5 RP111651 or Lot 10 RP111653 or Lot 8 RP111268 is any closer than 80m to the full supply level of RL 21m AHD to Lake Kurwongbah.</p> <hr/> <p><b>E53.2</b></p> <p>Waste/effluent disposal systems are located at least:-</p>

## 6 Zones

	<ul style="list-style-type: none"> <li>a. 80m from the full supply level of RL 21m AHD to Lake Kurwongbah on Lot 5 RP111651 or Lot 10 RP111653 or Lot 8 RP111268; and</li> <li>b. 400m from RL 39.63m AHD being the full supply level to Lake Samsonvale and RL 21m AHD being the full supply level to Lake Kurwongbah.</li> </ul>
<p><b>PO54</b></p> <p>All buildings, structures, associated facilities and infrastructure are contained within an approved development footprint. Development outside of an approved development footprint must:</p> <ul style="list-style-type: none"> <li>a. not be subject to a development constraint such as, but not limited to, flood, steep slope, waterway setbacks and significant vegetation;</li> <li>b. development does not result in any instability, erosion or degradation of land, water, soil resource or loss of natural, ecological or biological values.</li> </ul>	<p><b>E54</b></p> <p>Where a development footprint has been identified as part of a development approval for reconfiguring a lot, all development occurs within the development footprint.</p>
<p><b>PO55</b></p> <p>Development is designed to respond to sloping topography in the siting, design and form of buildings and structures by:</p> <ul style="list-style-type: none"> <li>a. minimising overuse of cut and fill to avoid single-plane slabs and benching;</li> <li>b. avoiding expanses of retaining walls, loss of trees and vegetation and interference with natural drainage systems;</li> <li>c. minimising any impact on the landscape character of the Rural zone;</li> <li>d. protecting the amenity of adjoining properties.</li> </ul>	<p><b>E55</b></p> <p>Building and site design on slopes between 10% and 15% must:</p> <ul style="list-style-type: none"> <li>a. use split-level, multiple-slab, pier or pole construction;</li> <li>b. avoid single-plane slabs and benching;</li> <li>c. ensure the height of any cut or fill, whether retained or not, does not exceed 900mm.</li> </ul>
<b>Dwelling house<sup>(22)</sup> - secondary dwelling</b>	
<p><b>PO56</b></p> <p>Dwelling house<sup>(22)</sup> where including a secondary dwelling, the secondary dwelling:</p> <ul style="list-style-type: none"> <li>a. remains subordinate to the principal dwelling;</li> <li>b. a size, scale and design that is not visually dominant, overbearing and inconsistent with the low density, open area character and form anticipated in a relevant precinct of the Rural zone.</li> </ul>	<p><b>E56</b></p> <p>The secondary dwelling:</p> <ul style="list-style-type: none"> <li>a. The maximum GFA for a second dwelling is as follows: <ul style="list-style-type: none"> <li>i. in the Rural zone - 100m<sup>2</sup>;</li> <li>ii. in the Hamlet precinct - 45m<sup>2</sup> for a lot with a primary frontage less than 15m;</li> <li>iii. in the Hamlet precinct - 55m<sup>2</sup> for a lot with a primary frontage of 15m or more;</li> </ul> </li> </ul>

	<ul style="list-style-type: none"> <li>iv. in the Agriculture precinct - 100m<sup>2</sup>;</li> <li>v. in the Rural living investigation precinct - 100m<sup>2</sup>.</li> </ul> <p>b. obtains access from the existing driveway giving access to the dwelling house<sup>(22)</sup>.</p> <p>Note - In the Cedarton Foresters Cooperative and Mt Nebo plant nursery precinct, no secondary dwellings are permitted as part of the Land Management Plan.</p>
<b>Education establishment for agricultural education or agricultural training facilities</b>	
<p><b>PO57</b></p> <p>An education establishment:</p> <ul style="list-style-type: none"> <li>a. is for the purpose of agricultural education or agricultural training training only;</li> <li>b. does not cause nuisance, detract or conflict with the primary role and associated Event Management Plans on land in the nearby Community facility zone, when occurring at the same time as an event occurring on that land. Such issues include, but are not limited to, noise, waste generation and disposal, traffic generation, location of and to sensitive land uses;</li> <li>c. is limited in size and scale and do not have adverse impacts on the low-set built form, low density, open area character and amenity of the Rural zone, including considerations to the impact of noise, traffic, and on-site waste disposal;</li> <li>d. avoids locating in area of high quality cropping<sup>(19)</sup> land as identified in the Agriculture precinct;</li> <li>e. avoids establishing on land subject to a flooding risk, or where avoidance is not possible, identify measures to be taken mitigate any potential risk to property and life;</li> <li>f. ensures vehicle parking and storage areas are to be screened from public view to minimise adverse visual impacts on rural character;</li> </ul>	<p>No example provided.</p>

## 6 Zones

<p>g. does not degrade or compromise the visual, natural, biological and ecological values associated with vegetated areas or adversely impact upon water quality;</p> <p>h. does not adversely impact on the safe and efficient operation of the external road network.</p>

<p><b>PO92</b></p> <p>When occurring outside of events occurring on nearby Community facility zoned land, development:</p> <ul style="list-style-type: none"><li>a. is to be used for rural primary production purposes;</li></ul> <p>OR</p> <ul style="list-style-type: none"><li>a. is for small scale tourism activities only comprising eco-based tourism, agricultural based education and recreation activities that:</li></ul>	<p>No example provided.</p>

<ul style="list-style-type: none"> <li>i. do not cause nuisance, detract or conflict with the primary role and associated Event Management Plans on land in the nearby Community facility zone, when occurring at the same time as an event occurring on that land. Such issues include, but are not limited to, noise, waste generation and disposal, traffic generation, location of and to sensitive land uses;</li> <li>ii. are limited in size and scale and do not have adverse impacts on the low-set built form, low density, open area character and amenity of the Rural zone, including considerations to the impact of noise, traffic, and on-site waste disposal;</li> <li>iii. avoids locating in area of high quality cropping<sup>(19)</sup> land as identified in the Agriculture Precinct;</li> <li>iv. avoids establishing on land subject to a flooding risk, or where avoidance is not possible, identify measures to be taken mitigate any potential risk to property and life;</li> <li>v. do degrade or compromise the visual, natural, biological and ecological values associated with vegetated areas or adversely impact upon water quality;</li> <li>vi. does not adversely impact on the safe and efficient operation of the external road network.</li> </ul>	
<b>Agriculture precinct</b>	
<p><b>PO93</b></p> <p>Development does not compromise the future primary productive capacity and characteristics of the highly productive land resource.</p>	No example provided.
<p><b>PO94</b></p> <p>Development that does not require access to, or rely on the use of, fertile soils is not located in the Agricultural precinct.</p>	No example provided.
<p><b>PO95</b></p>	No example provided.

## 6 Zones

<p>Development ensures that buildings, driveways, hardstand, storage and vehicle parking areas are located in a manner or position to minimise the loss of the land resource and maximise the availability of the land resource for primary production.</p>	
<p><b>PO96</b></p> <p>Development does not result in the cessation or closure of primary production activities occurring on the same site.</p>	<p>No example provided.</p>
<p><b>Cedarton Foresters Cooperative and Mt Nebo plant nursery precinct</b></p>	
<p><b>PO97</b></p> <p>Development in accordance with the Land Management Plan and supporting documentation located in Table A - Cedarton Forester's Cooperative - Land Management Plan or Table B - Mt Nebo Plant Nursery - Land Management Plan.</p>	<p>No example provided.</p>
<p><b>Rural living investigation precinct</b></p>	
<p><b>PO98</b></p> <p>Development does not:</p> <ol style="list-style-type: none"> <li>a. result in the cessation or closure of primary production activities occurring on the same site;</li> <li>b. result in the fragmentation and isolation of land thereby affecting its potential long term viability or ability for future rural living development;</li> <li>c. result in the disorderly and piecemeal provision of services and infrastructure;</li> <li>d. hinder the long term viability and technical ability of the land to be developed and serviced for future rural living development.</li> </ol>	<p>No example provided</p>
<p><b>Values and constraints criteria</b></p> <p>Note - The relevant values and constraints criteria do not apply where the development is consistent with a current Development permit for Reconfiguring a lot or Material change of use or Operational work, where that approval has considered and addressed (e.g. through a development footprint plan (or similar in the case of Landslide hazard) or conditions of approval) the identified value or constraint under this planning scheme.</p>	
<p><b>Acid sulfate soils - (refer Overlay map - Acid sulfate soils to determine if the following assessment criteria apply)</b></p> <p>Note - To demonstrate achievement of the performance outcome, an Acid sulfate soils (ASS) investigation report and soil management plan is prepared by a qualified engineer. Guidance for the preparation an ASS investigation report and soil management plan is provided in Planning scheme policy - Acid sulfate soils.</p>	

<p><b>PO99</b></p> <p>Development avoids disturbing acid sulfate soils. Where development disturbs acid sulfate soils, development:</p> <ul style="list-style-type: none"> <li>a. is managed to avoid or minimise the release of surface or groundwater flows containing acid and metal contaminants into the environment;</li> <li>b. protects the environmental and ecological values and health of receiving waters;</li> <li>c. protects buildings and infrastructure from the effects of acid sulfate soils.</li> </ul>	<p><b>E99</b></p> <p>Development does not involve:</p> <ul style="list-style-type: none"> <li>a. excavation or otherwise removing of more than 100m<sup>3</sup> of soil or sediment where below than 5m Australian Height datum AHD; or</li> <li>b. filling of land of more than 500m<sup>3</sup> of material with an average depth of 0.5m or greater where below the 5m Australian Height datum AHD.</li> </ul>
<p><b>Bushfire hazard (refer Overlay map - Bushfire hazard to determine if the following assessment criteria apply)</b></p> <p>Note - To demonstrate achievement of the performance outcomes, a bushfire management plan is prepared by a suitably qualified person. Guidance for the preparation of a bushfire management plan is provided in Planning scheme policy – Bushfire prone areas.</p> <p>Note - Unacceptable risk is defined as a situation where people or property are exposed to a predictable hazard event that may result in serious injury, loss of life, failure of community infrastructure, or property damage.</p>	
<p><b>PO100</b></p> <p>Development:</p> <ul style="list-style-type: none"> <li>a. minimises the number of buildings and people working and living on a site exposed to bushfire risk;</li> <li>b. ensures the protection of life during the passage of a fire front;</li> <li>c. is located and designed to increase the chance of survival of buildings and structures during a bushfire;</li> <li>d. minimises bushfire risk from build up of fuels around buildings and structures;</li> <li>e. ensure safe and effective access for emergency services during a bushfire.</li> </ul>	<p><b>E100.1</b></p> <p>Buildings and structures are:</p> <ul style="list-style-type: none"> <li>a. not located on a ridgeline;</li> <li>b. not located on land with a slope greater than 15% (see Overlay map - Landslide hazard);</li> <li>c. dwellings are located on east to south facing slopes.</li> </ul> <p><b>E100.2</b></p> <p>Buildings and structures have contained within the site:</p> <ul style="list-style-type: none"> <li>a. a separation from classified vegetation of 20m or the distance required to achieve a bushfire attack level (BAL) at the building, roofed structure or fire fighting water supply of no more than 29, whichever is the greater;</li> <li>b. a separation from low threat vegetation of 10m or the distance required to achieve a bushfire attack level (BAL) at the building, roofed structure or fire fighting water supply of no more than 29, whichever is the greater;</li> <li>c. a separation of no less than 10m between a fire fighting water supply extraction point and any classified vegetation, buildings and other roofed structures;</li> <li>d. an area suitable for a standard fire fighting appliance to stand within 3m of a fire fighting water supply extraction point; and</li> <li>e. an access path suitable for use by a standard fire fighting appliance having a formed width of at least 4m, a cross-fall of no greater than 5%, and a longitudinal gradient of no greater than 25%.</li> </ul>

## 6 Zones

	<ul style="list-style-type: none"> <li>i. to, and around, each building and other roofed structure; and</li> <li>ii. to each fire fighting water supply extraction point.</li> </ul> <p>Note - The meaning of the terms classified vegetation and low threat vegetation as well as the method of calculating the bushfire attack level are as described in Australian Standard AS 3959</p>
<p><b>PO101</b></p> <p>Development and associated driveways and access ways:</p> <ul style="list-style-type: none"> <li>a. avoid potential for entrapment during a bushfire;</li> <li>b. ensure safe and effective access for emergency services during a bushfire;</li> <li>c. enable safe evacuation for occupants of a site during a bushfire.</li> </ul>	<p><b>E101</b></p> <p>A length of driveway:</p> <ul style="list-style-type: none"> <li>a. to a road does not exceed 100m between the most distant part of a building used for any purpose other than storage and the nearest part of a public road;</li> <li>b. has a maximum gradient no greater than 12.5%;</li> <li>c. have a minimum width of 3.5m;</li> <li>d. accommodate turning areas for fire fighting appliances in accordance with Qld Fire and Emergency Services' Fire Hydrant and Vehicle Access Guideline.</li> </ul>
<p><b>PO102</b></p> <p>Development provides an adequate water supply for fire-fighting purposes.</p>	<p><b>E102</b></p> <ul style="list-style-type: none"> <li>a. a reticulated water supply is provided by a distributor retailer for the area or;</li> <li>b. where not connected to a reticulated water supply, on-site fire fighting water storage containing not less than 10 000 litres (tanks with fire brigade tank fittings, swimming pools) is located within 10m of buildings and structures.</li> <li>c. Where a swimming pool is the nominated on-site fire fighting water storage source, vehicle access is provided to within 3m of that water storage source.</li> <li>d. Where a tank is the nominated on-site fire fighting water storage source, it includes: <ul style="list-style-type: none"> <li>i. a hardstand area allowing medium rigid vehicles (15 tonne fire appliance) access within 6m of the tank;</li> <li>ii. fire brigade tank fittings, comprising 50mm ball valve and male camlock coupling and, if underground, an access hole of 200mm (minimum) to accommodate suction lines.</li> </ul> </li> </ul>
<p><b>PO103</b></p> <p>Development:</p> <ul style="list-style-type: none"> <li>a. does not present unacceptable risk to people or environment due to the impact of bushfire on dangerous goods or combustible liquids;</li> <li>b. does not present danger or difficulty to emergency services for emergency response or evacuation.</li> </ul> <p>Editor's note - Unacceptable risk is defined as a situation where people or property are exposed to a predictable hazard event</p>	<p><b>E103</b></p> <p>Development does not involve the manufacture or storage of hazardous chemicals.</p>

that may result in serious injury, loss of life, failure of community infrastructure, or property damage.

### Environmental areas (refer Overlay map - Environmental areas to determine if the following assessment criteria apply)

Note – The following are excluded from the native vegetation clearing provisions of this planning scheme:

- a. Clearing of native vegetation located within an approved development footprint;
- b. Clearing of native vegetation within 10m from a lawfully established building reasonably necessary for emergency access or immediately required in response to an accident or emergency;
- c. Clearing of native vegetation reasonably necessary to remove or reduce the risk vegetation poses to serious personal injury or damage to infrastructure;
- d. Clearing of native vegetation reasonably necessary to construct and maintain a property boundary fence and not exceed 4m in width either side of the fence where in the Rural, Rural residential and Environmental Management and Conservation zones. In any other zone, clearing is not to exceed 2m in width either side of the fence;
- e. Clearing of native vegetation reasonably necessary for the purpose of maintenance or works within a registered easement for public infrastructure or drainage purposes;
- f. Clearing of native vegetation in accordance with a bushfire management plan prepared by a suitably qualified person, submitted to and accepted by Council;
- g. Clearing of native vegetation associated with removal of recognised weed species, maintaining existing open pastures and cropping land, windbreaks, lawns or created gardens;
- h. Grazing of native pasture by stock;
- i. Native forest practice where accepted development under Part 1, 1.7.7 Accepted development

Note - Definition for native vegetation is located in Schedule 1 Definitions.

Note - Native vegetation subject to this criteria primarily comprises of matters of national environmental significance (MNES), matters of state environmental significance (MSES). They also comprise some matters of local environmental significance (MLES). A MLES is defined in Schedule 1.2, Administrative definitions. A list of the elements that apply to the mappe MSES and MLES is provided in Appendix 1 of the Planning scheme policy - Environmental areas.

Editors' Note - The accuracy of overlay mapping can be challenged through the development application process (code assessable development) or by way of a planning scheme amendment. See Council's website for details.

Note - To demonstrate achievement of the performance outcome, an ecological assessment, vegetation management plan and fauna management plan, as required, are prepared by a suitably qualified person. Guidance for the preparation of above mentioned reports is provided in Planning scheme policy - Environmental areas.

### Vegetation clearing, ecological value and connectivity

#### PO104

Development avoids locating in a High Value Area or a Value Offset Area. Where it is not practicable or reasonable for development to avoid establishing in these areas, development must ensure that:

- a. the quality and integrity of the biodiversity and ecological values inherent to a High Value Area and a Value Offset Area is maintained and not lost or degraded;
- b. on-site mitigation measures, mechanisms or processes are in place demonstrating the

No example provided.

## 6 Zones

<p>quality and integrity of the biodiversity and ecological values inherent to a High Value Area and a Value Offset Area are maintained. For example, this can be achieved through replacement, restoration or rehabilitation planting as part of any proposed covenant, the development of a Vegetation Management Plan, a Fauna Management Plan, and any other on-site mitigation options identified in the Planning scheme policy - Environmental areas*.</p> <p>* Editor's note - This is not a requirement for an environmental offset under the Environmental Offsets Act 2014.</p>	
<p><b>PO105</b></p> <p>Development provides for safe, unimpeded, convenient and ongoing wildlife movement and establishes and maintains habitat connectivity by:</p> <ol style="list-style-type: none"> <li>a. retaining habitat trees;</li> <li>b. providing contiguous patches of habitat;</li> <li>c. provide replacement and rehabilitation planting to improve connectivity;</li> <li>d. avoiding the creation of fragmented and isolated patches of habitat;</li> <li>e. providing wildlife movement infrastructure.</li> </ol> <p>Editor's note - Wildlife movement infrastructure may include refuge poles, tree boulevarding, 'stepping stone' vegetation plantings, tunnels, appropriate wildlife fencing; culverts with ledges, underpasses, overpasses, land bridges and rope bridges. Further information is provided in Planning scheme policy – Environmental areas.</p>	<p>No example provided.</p>
<p><b>Vegetation clearing and habitat protection</b></p>	
<p><b>PO106</b></p> <p>Development ensures that the biodiversity quality and integrity of habitats is not adversely impacted upon but maintained and protected.</p>	<p>No example provided.</p>
<p><b>PO107</b></p> <p>Development does not result in the net loss or degradation of habitat value in a High Value Area or a Value Offset Area. Where development does result in the loss or degradation of habitat value, development will:</p> <ol style="list-style-type: none"> <li>a. rehabilitate, revegetate, restore and enhance an area to ensure it continues to function as a viable and healthy habitat area;</li> </ol>	<p>No example provided.</p>

<ul style="list-style-type: none"> <li>b. provide replacement fauna nesting boxes in the event of habitat tree loss in accordance with Planning scheme policy - Environmental areas;</li> <li>c. undertake rehabilitation, revegetation and restoration in accordance with the South East Queensland Ecological Restoration Framework.</li> </ul>	
<p><b>PO108</b></p> <p>Development ensures safe, unimpeded, convenient and ongoing wildlife movement and habitat connectivity by:</p> <ul style="list-style-type: none"> <li>a. providing contiguous patches of habitat;</li> <li>b. avoiding the creation of fragmented and isolated patches of habitat;</li> <li>c. providing wildlife movement infrastructure;</li> <li>d. providing replacement and rehabilitation planting to improve connectivity.</li> </ul>	No example provided.
<b>Vegetation clearing and soil resource stability</b>	
<p><b>PO109</b></p> <p>Development does not:</p> <ul style="list-style-type: none"> <li>a. result in soil erosion or land degradation;</li> <li>b. leave cleared land exposed for an unreasonable period of time but is rehabilitated in a timely manner.</li> </ul>	No example provided.
<b>Vegetation clearing and water quality</b>	
<p><b>PO110</b></p> <p>Development maintains or improves the quality of groundwater and surface water within, and downstream, of a site by:</p> <ul style="list-style-type: none"> <li>a. ensuring an effective vegetated buffers and setbacks from waterbodies is retained to achieve natural filtration and reduce sediment loads;</li> <li>b. avoiding or minimising changes to landforms to maintain hydrological water flows;</li> <li>c. adopting suitable measures to exclude livestock from entering a waterbody where a site is being used for animal husbandry<sup>(4)</sup> and animal keeping<sup>(5)</sup> activities.</li> </ul>	No example provided.
<p><b>PO111</b></p> <p>Development minimises adverse impacts of stormwater run-off on water quality by:</p> <ul style="list-style-type: none"> <li>a. minimising flow velocity to reduce erosion;</li> <li>b. minimising hard surface areas;</li> <li>c. maximising the use of permeable surfaces;</li> <li>d. incorporating sediment retention devices;</li> <li>e. minimising channelled flow.</li> </ul>	No example provided.

## 6 Zones

<b>Vegetation clearing and access, edge effects and urban heat island effects</b>	
<p><b>PO112</b></p> <p>Development retains safe and convenient public access in a manner that does not result in the adverse edge effects or the loss or degradation of biodiversity values within the environment.</p>	No example provided.
<p><b>PO113</b></p> <p>Development minimises potential adverse 'edge effects' on ecological values by:</p> <ol style="list-style-type: none"> <li>providing dense planting buffers of native vegetation between a development and environmental areas;</li> <li>retaining patches of native vegetation of greatest possible size where located between a development and environmental areas ;</li> <li>restoring, rehabilitating and increasing the size of existing patches of native vegetation;</li> <li>ensuring that buildings and access (public and vehicle) are setback as far as possible from environmental areas and corridors;</li> <li>landscaping with native plants of local origin.</li> </ol> <p>Editor's note - Edge effects are factors of development that go to detrimentally affecting the composition and density of natural populations at the fringe of natural areas. Factors include weed invasion, pets, public and vehicle access, nutrient loads, noise and light pollution, increased fire frequency and changes in the groundwater and surface water flow.</p>	No example provided.
<p><b>PO114</b></p> <p>Development avoids adverse microclimate change and does not result in increased urban heat island effects. Adverse urban heat island effects are minimised by:</p> <ol style="list-style-type: none"> <li>pervious surfaces;</li> <li>providing deeply planted vegetation buffers and green linkage opportunities;</li> <li>landscaping with local native plant species to achieve well-shaded urban places;</li> <li>increasing the service extent of the urban forest canopy.</li> </ol>	No example provided.
<b>Vegetation clearing and Matters of Local Environmental Significance (MLES) environmental offsets</b>	
<p><b>PO115</b></p> <p>Where development results in the unavoidable loss of native vegetation within a Value Offset Area MLES waterway buffer or a Value Offset Area MLES wetland buffer, an environmental offset is required</p>	No example provided.

<p>in accordance with the environmental offset requirements identified in Planning scheme policy - Environmental areas.</p> <p>Editor's note - For MSES Koala Offsets, the environmental offset provisions in schedule 11 of the Regulation, in combination with the requirements of the Environmental Offset Act 2014, apply.</p>	
<p><b>Extractive resources separation area (refer Overlay map - Extractive resources (separation area) to determine if the following assessment criteria apply)</b></p> <p>Note - To demonstrate achievement of the performance outcomes, a noise impact assessment report is prepared by a suitably qualified person. Guidance to preparing noise impact assessment report is provided in Planning scheme policy – Noise.</p>	
<p><b>PO116</b></p> <p>Development does not increase the number of people living in the Extractive Resources separation area.</p>	<p><b>E116</b></p> <p>One dwelling house<sup>(22)</sup> permitted per lot within separation area.</p>
<p><b>PO117</b></p> <p>Development:</p> <ol style="list-style-type: none"> <li>does not introduce or increase uses that are sensitive to the impacts of an Extractive industry<sup>(27)</sup>;</li> <li>is compatible with the operation of an Extractive industry<sup>(27)</sup>;</li> <li>does not comprise or undermine the function and integrity of the separation area in providing a buffer between key extractive and processing activities and sensitive, incompatible uses outside the separation area.</li> </ol>	<p><b>E117</b></p> <p>Development within the separation area does not include the following activities:</p> <ol style="list-style-type: none"> <li>Caretaker's accommodation<sup>(10)</sup>;</li> <li>Community residence<sup>(16)</sup>;</li> <li>Dual occupancy<sup>(21)</sup>;</li> <li>Dwelling unit<sup>(23)</sup>;</li> <li>Hospital<sup>(36)</sup>;</li> <li>Rooming accommodation<sup>(69)</sup>;</li> <li>Multiple dwelling<sup>(49)</sup>;</li> <li>Non-resident workforce accommodation<sup>(52)</sup>;</li> <li>Relocatable home park<sup>(62)</sup>;</li> <li>Residential care facility<sup>(65)</sup>;</li> <li>Resort complex<sup>(66)</sup>;</li> <li>Retirement facility<sup>(67)</sup>;</li> <li>Rural workers' accommodation<sup>(71)</sup>;</li> <li>Short-term accommodation<sup>(77)</sup>;</li> <li>Tourist park<sup>(84)</sup>.</li> </ol>
<p><b>PO118</b></p> <p>Habitable rooms achieve the noise levels listed in Schedule 1 Acoustic Quality Objectives, Environmental Protection (Noise) Policy 2008 and provides a safe, healthy and disturbance free living environment.</p>	<p><b>E118</b></p> <p>All habitable rooms within the separation area are:</p> <ol style="list-style-type: none"> <li>acoustically insulated to achieve the noise levels listed in Schedule 1 Acoustic Quality Objectives, Environmental Protection (Noise) Policy 2008;</li> <li>provided with mechanical ventilation.</li> </ol>
<p><b>PO119</b></p> <p>Development provides open space areas for passive recreation in a manner where impacts from key extractive/processing activities, particularly noise, is minimised.</p>	<p><b>E119</b></p> <p>Private open space areas are separated from the resource processing area by buildings or a 1.8m high solid structure.</p>

## 6 Zones

<b>Extractive resources transport routes (refer Overlay map - Extractive resources (transport route and buffer) to determine if the following assessment criteria apply)</b>	
<p><b>PO120</b></p> <p>Development:</p> <ul style="list-style-type: none"> <li>a. does not increase in the number of people living in close proximity to a transport route and being subject to the adverse effects from the transportation route;</li> <li>b. does not result in the establishment of uses that are incompatible with the operation of Extractive resources transport routes;</li> <li>c. adopts design and location measures to satisfactorily mitigate the potential adverse impacts associated with transportation routes on sensitive land uses. Such measures include, but are not limited to:               <ul style="list-style-type: none"> <li>i. locating the furthest distance possible from the transportation route;</li> <li>ii. habitable rooms being located the furthest from the transportation route;</li> <li>iii. shielding and screening private outdoor recreation space from the transportation routes.</li> </ul> </li> </ul>	<p><b>E120</b></p> <p>The following uses are not located within the 100m wide transport route buffer:</p> <ul style="list-style-type: none"> <li>a. Caretaker's accommodation<sup>(10)</sup>, except where located in the Extractive industry zone;</li> <li>b. Community residence<sup>(16)</sup>;</li> <li>c. Dual occupancy<sup>(21)</sup>;</li> <li>d. Dwelling house<sup>(22)</sup>;</li> <li>e. Dwelling unit<sup>(23)</sup>;</li> <li>f. Hospital<sup>(36)</sup>;</li> <li>g. Rooming accommodation<sup>(69)</sup>;</li> <li>h. Multiple dwelling<sup>(49)</sup>;</li> <li>i. Non-resident workforce accommodation<sup>(52)</sup>;</li> <li>j. Relocatable home park<sup>(62)</sup>;</li> <li>k. Residential care facility<sup>(65)</sup>;</li> <li>l. Resort complex<sup>(66)</sup>;</li> <li>m. Retirement facility<sup>(67)</sup>;</li> <li>n. Rural workers' accommodation<sup>(71)</sup>;</li> <li>o. Short-term accommodation<sup>(77)</sup>;</li> <li>p. Tourist park<sup>(84)</sup>.</li> </ul>
<p><b>PO121</b></p> <p>Development:</p> <ul style="list-style-type: none"> <li>a. does not adversely impact upon the efficient and effective transportation of extractive material along a transportation route;</li> <li>b. ensures vehicle access and egress along transportation routes are designed and located to achieve a high degree of safety, having good visibility;</li> <li>c. utilises existing vehicle access points and where existing vehicle access points are sub-standard or poorly formed, they are upgraded to an appropriate standard.</li> </ul>	<p><b>E121.1</b></p> <p>Development does not create a new vehicle access point onto an Extractive resources transport route.</p> <hr/> <p><b>E121.2</b></p> <p>A vehicle access point is located, designed and constructed in accordance with Planning scheme policy - Integrated design.</p>
<p><b>Heritage and landscape character (refer Overlay map - Heritage and landscape character to determine if the following assessment criteria apply)</b></p> <p>Note - Places, including sites, objects and buildings having local cultural heritage significance, are identified on Overlay map - Heritage and landscape character and listed in Schedule 1 of Planning scheme policy - Heritage and landscape character. Places also having cultural heritage significance at a State level and being entered in the Queensland Heritage Register, are also identified in Schedule 1 of Planning scheme policy - Heritage and landscape character.</p>	
<p><b>PO122</b></p> <p>Development will:</p> <ul style="list-style-type: none"> <li>a. not diminish or cause irreversible damage to the cultural heritage values present on the site,</li> </ul>	<p><b>E122</b></p> <p>Development is for the preservation, maintenance, repair and restoration of a site, object or building of cultural heritage value.</p>

<p>and associated with a heritage site, object or building;</p> <ul style="list-style-type: none"> <li>b. protect the fabric and setting of the heritage site, object or building;</li> <li>c. be consistent with the form, scale and style of the heritage site, object or building;</li> <li>d. utilise similar materials to those existing, or where this is not reasonable or practicable, neutral materials and finishes;</li> <li>e. incorporate complementary elements, detailing and ornamentation to those present on the heritage site, object or building;</li> <li>f. retain public access where this is currently provided.</li> </ul>	<p>Note - A cultural heritage conservation management plan for the preservation, maintenance, repair and restoration of a site, object or building of cultural heritage value is prepared in accordance with Planning scheme policy - Heritage and landscape character. The plan is sent to, and approved by Council prior to the commencement of any preservation, maintenance, repair and restoration works.</p>
<p><b>PO123</b></p> <p>Demolition and removal is only considered where:</p> <ul style="list-style-type: none"> <li>a. a report prepared by a suitably qualified conservation architect or conservation engineer demonstrates that the building is structurally unsound and is not reasonably capable of economic repair; or</li> <li>b. demolition is confined to the removal of outbuildings, extensions and alterations that are not part of the original structure; or</li> <li>c. limited demolition is performed in the course of repairs, maintenance or restoration; or</li> <li>d. demolition is performed following a catastrophic event which substantially destroys the building or object.</li> </ul>	<p>No example provided.</p>
<p><b>PO124</b></p> <p>Where development is occurring on land adjoining a site of cultural heritage value, the development is to be sympathetic to and consistent with the cultural heritage values present on the site and not result in their values being eroded, degraded or unreasonably obscured from public view.</p>	<p>No example provided.</p>
<p><b>PO125</b></p> <p>Development does not adversely impact upon the health and vitality of significant trees. Where development occurs in proximity to a significant tree, construction measures and techniques as detailed in AS 4970-2009 Protection of trees on development sites are adopted to ensure a significant tree's health, wellbeing and vitality.</p> <p>Significant trees are only removed where they are in a poor state of health or where they pose a health and safety risk to persons or property. A Tree Assessment report prepared by a suitably qualified arborist confirming a tree's state of health is required to demonstrate achievement of this performance outcome.</p>	<p><b>E125</b></p> <p>Development does:</p> <ul style="list-style-type: none"> <li>a. not result in the removal of a significant tree;</li> <li>b. not occur within 20m of a protected tree;</li> <li>c. involve pruning of a tree in accordance with Australian Standard AS 4373-2007 – Pruning of Amenity Trees.</li> </ul>

## 6 Zones

### Landslide hazard (refer Overlay map - Landslide hazard to determine if the following assessment criteria apply)

Note - To demonstrate achievement of the performance outcomes, a site-specific geotechnical assessment report is prepared by a qualified engineer. Guidance for the preparation of a geotechnical assessment report is provided in Planning scheme policy – Landslide hazard.

<p><b>PO126</b></p> <p>Development:</p> <ul style="list-style-type: none"> <li>a. maintains the safety of people and property on a site and neighbouring sites from landslides;</li> <li>b. ensures the long-term stability of the site considering the full nature and end use of the development;</li> <li>c. ensures site stability during all phases of construction and development;</li> <li>d. minimises disturbance of natural drainage patterns of the site and does not result in the redirection or alteration of the existing flow if surface or groundwater</li> <li>e. minimises adverse visual impacts on the amenity of adjoining residents and provides a positive interface with the streetscape.</li> </ul>	<p><b>E126</b></p> <p>Development does not:</p> <ul style="list-style-type: none"> <li>a. involve earthworks exceeding 50m<sup>3</sup>;</li> <li>b. involve cut and fill having a height greater than 600mm;</li> <li>c. involve any retaining wall having a height greater than 600mm;</li> <li>d. redirect or alter the existing flow of surface or groundwater.</li> </ul>
<p><b>PO127</b></p> <p>Buildings are designed to respond to sloping topography in the siting, design and form of buildings and structures by:</p> <ul style="list-style-type: none"> <li>a. minimising overuse of cut and fill to create single flat pads and benching;</li> <li>b. avoiding expanses of retaining walls, loss of trees and vegetation and interference with natural drainage systems;</li> <li>c. minimising any adverse visual impact on the landscape character ;</li> <li>d. Protect the amenity of adjoining properties.</li> </ul>	<p><b>E127</b></p> <p>Buildings, excluding domestic outbuildings:</p> <ul style="list-style-type: none"> <li>a. are split-level, multiple-slab, pier or pole construction;</li> <li>b. are not single plane slab on ground.</li> </ul>
<p><b>PO128</b></p> <p>Development protects the safety of people, property and the environment from the impacts of landslide on hazardous chemicals manufactured, handled or stored by incorporating design measures to ensure:</p> <ul style="list-style-type: none"> <li>a. the long-term stability of the development site considering the full nature and end use of the development;</li> <li>b. site stability during all phases of construction and development;</li> <li>c. the development is not adversely affected by landslide activity originating on sloping land above the site;</li> <li>d. emergency access and access from the site for the public and emergency vehicles is available and is not at risk from landslide.</li> </ul>	<p><b>E128</b></p> <p>Development does not involve the manufacture, handling or storage of hazardous chemicals.</p>

Infrastructure buffers (refer Overlay map - Infrastructure buffers to determine if the following assessment criteria apply)	
<p><b>PO129</b></p> <p>Odour sensitive development is separated from Wastewater treatment plants so they are not adversely affected by odour emission or other air pollutant impacts.</p>	<p><b>E129</b></p> <p>The following uses are not located within a wastewater treatment site buffer:</p> <ul style="list-style-type: none"> <li>a. Caretaker's accommodation<sup>(10)</sup>;</li> <li>b. Community residence<sup>(16)</sup>;</li> <li>c. Dual occupancy<sup>(21)</sup>;</li> <li>d. Dwelling house<sup>(22)</sup></li> <li>e. Dwelling unit<sup>(23)</sup>;</li> <li>f. Hospital<sup>(36)</sup>;</li> <li>g. Rooming accommodation<sup>(69)</sup>;</li> <li>h. Multiple dwelling<sup>(49)</sup>;</li> <li>i. Non-resident workforce accommodation<sup>(52)</sup>;</li> <li>j. Relocatable home park<sup>(62)</sup>;</li> <li>k. Residential care facility<sup>(65)</sup>;</li> <li>l. Resort complex<sup>(66)</sup>;</li> <li>m. Retirement facility<sup>(67)</sup>;</li> <li>n. Rural workers' accommodation<sup>(71)</sup>;</li> <li>o. Short-term accommodation<sup>(77)</sup>;</li> <li>p. Tourist park<sup>(84)</sup>.</li> </ul>
<p><b>PO130</b></p> <p>Development within a Water supply buffer captures solid or liquid waste from all land use, development and activities is designed, constructed and managed to prevent the release of contaminants to surface water or groundwater bodies.</p>	<p><b>E130.1</b></p> <p>Run-off and sediment from roadways and impervious surfaces within a Water supply buffer are intercepted and treated on-site to remove oil, grease, chemicals, silt, trace metals and nutrients such as nitrogen and phosphorous.</p>
	<p><b>E130.2</b></p> <p>Incineration or burial of waste within a Water supply buffer is not undertaken onsite.</p>
	<p><b>E130.3</b></p> <p>Solid waste within a Water supply buffer is collected and stored in weather proof, sealed waste receptacles, located in roofed and bunded areas, for disposal by a licenced contractor.</p>
	<p><b>E130.4</b></p> <p>Holding tanks within a Water supply buffer are used for all liquid waste and provide for the separation of oils/solvents and solids prior to pump-out and collection by a licenced contractor.</p>
	<p><b>E130.5</b></p> <p>Management, handling and storage of hazardous chemicals (including fuelling of vehicles) within a Water supply buffer, is undertaken in secured, climate controlled, weather proof, level and bunded enclosures.</p>

## 6 Zones

<p><b>PO131</b></p> <p>On-site sewerage systems within a Water supply buffer are designed and operated to ensure there is no worsening or adverse impacts to health risks, environmental risks and water quality.</p> <p>Editor's Note - For guidance refer to the Seq water Development Guidelines: Development Guidelines for Water Quality Management in Drinking Water Catchments 2012.</p>	<p><b>E131</b></p> <p>Secondary treated wastewater treatment systems within a Water supply buffer include:</p> <ol style="list-style-type: none"> <li>emergency storage capable of holding 3-6 hours peak flow of treated effluent in the event of emergencies or overload with provision for de-sludging;</li> <li>back up pump installation and backup power;</li> <li>MEDLI modelling to determine irrigation rates and sizing of irrigation areas;</li> <li>vegetated land application areas are not located in overland flow paths or on areas that perform groundwater recharge or discharge functions; and</li> <li>wastewater collection and storage systems have a capacity to accommodate full load at peak times and includes temporary facilities.</li> </ol>
<p><b>PO132</b></p> <p>Development within a Bulk water supply infrastructure buffer is located, designed and constructed to:</p> <ol style="list-style-type: none"> <li>protect the integrity of the water supply pipeline;</li> <li>maintain adequate access for any required maintenance or upgrading work to the water supply pipeline;</li> </ol>	<p><b>E132</b></p> <p>Development:</p> <ol style="list-style-type: none"> <li>does not involve the construction of any buildings or structures within a Bulk water supply infrastructure buffer;</li> <li>involving a major hazard facility or environmentally relevant activity (ERA) is setback 30m from a Bulk water supply infrastructure buffer.</li> </ol>
<p><b>PO133</b></p> <p>Development is located and designed to maintain required access to Bulk water supply infrastructure.</p>	<p><b>E133</b></p> <p>Development does not restrict access to Bulk water supply infrastructure of any type or size, having regard to (among other things):</p> <ol style="list-style-type: none"> <li>buildings or structures;</li> <li>gates and fences;</li> <li>storage of equipment or materials;</li> <li>landscaping or earthworks or stormwater or other infrastructure.</li> </ol>
<p><b>PO134</b></p> <p>Development within the Gas pipeline buffer:</p> <ol style="list-style-type: none"> <li>avoids attracting people in large numbers to live, work or congregate;</li> <li>avoids the storage of hazardous chemicals;</li> <li>maintains adequate access for any required maintenance or upgrading work;</li> <li>minimises risk of harm to people and property.</li> </ol> <p>Editor's note - The <i>Petroleum and Gas (Production and Safety) Act 2004</i> (sections 807 and 808) requires that building or changes in surface level on pipeline land must not occur unless all the pipeline licence holders consent.</p>	<p><b>E134</b></p> <p>Development does not involve the construction of any buildings or structures within the Gas pipeline buffer.</p> <p>Editor's note - The <i>Petroleum and Gas (Production and Safety) Act 2004</i> (sections 807 and 808) requires that building or changes in surface level on pipeline land must not occur unless all the pipeline licence holders consent.</p>

<p><b>PO135</b></p> <p>Habitable rooms within an Electricity supply substation buffer are located a sufficient distance from substations<sup>(80)</sup> to avoid any potential adverse impacts on personal health and wellbeing from electromagnetic fields.</p> <p>Note - Habitable room is defined in the Building Code of Australia (Volume 1)</p>	<p><b>E135</b></p> <p>Habitable rooms:</p> <ol style="list-style-type: none"> <li>a. are not located within an Electricity supply substation buffer; and</li> <li>b. proposed on a site subject to an Electricity supply substation<sup>(80)</sup> are acoustically insulated to achieve the noise levels listed in Schedule 1, Acoustic Quality Objectives, Environmental Protection (Noise) Policy 2008.</li> </ol> <p>Note - Habitable room is defined in the Building Code of Australia (Volume 1)</p>
<p><b>PO136</b></p> <p>Habitable rooms within an Electricity supply substation buffer are acoustically insulated from the noise of a substation<sup>(80)</sup> to achieve the noise levels listed in Schedule 1 Acoustic Quality Objectives, Environmental Protection (Noise) Policy 2008 and provides a safe, healthy and disturbance free living environment.</p> <p>Note - To demonstrate achievement of the performance outcome, a noise impact assessment report is prepared by a suitably qualified person. Guidance to preparing a noise impact assessment report is provided in Planning scheme policy – Noise.</p> <p>Note - Habitable room is defined in the Building Code of Australia (Volume 1)</p>	<p>No example provided.</p>
<p><b>PO137</b></p> <p>Development within a High voltage electricity line buffer provides adequate buffers to high voltage electricity lines to protect amenity and health by ensuring development:</p> <ol style="list-style-type: none"> <li>a. is located and designed to avoid any potential adverse impacts on personal health and wellbeing from electromagnetic fields in accordance with the principle of prudent avoidance;</li> <li>b. is located and designed in a manner that maintains a high level of security of supply;</li> <li>c. is located and design so not to impede upon the functioning and maintenance of high voltage electrical infrastructure.</li> </ol>	<p><b>E137</b></p> <p>Development does not involve the construction of any buildings or structures within a High voltage electricity line buffer.</p>
<p><b>PO138</b></p> <p>Development within a Pumping station buffer is located, designed and constructed to:</p>	<p><b>E138</b></p> <p>Development does not involve the construction of any buildings or structures within a Pumping station buffer.</p>

## 6 Zones

<p>a. ensure that odour or other air pollutant impacts on the amenity of the development met the air quality of objectives in the Environmental Protection (Air) Policy 2008;</p> <p>b. ensure that noise impacts on the amenity of the development met the indoor noise objectives set out in the Environmental Protection (Noise) Policy 2008.</p>	
<p><b>Overland flow path (refer Overlay map - Overland flow path to determine if the following assessment criteria apply)</b></p> <p>Note - The applicable river and creek flood planning levels associated with defined flood event (DFE) within the inundation area can be obtained by requesting a flood check property report from Council.</p>	
<p><b>PO139</b></p> <p>Development:</p> <p>a. minimises the risk to persons from overland flow;</p> <p>b. does not increase the potential for damage from overland flow either on the premises or other premises, public land, watercourses, roads or infrastructure.</p>	<p>No example provided.</p>
<p><b>PO140</b></p> <p>Development:</p> <p>a. maintains the conveyance of overland flow predominantly unimpeded through the premises for any event up to and including the 1% AEP for the fully developed upstream catchment;</p> <p>b. does not concentrate, intensify or divert overland flow onto an upstream, downstream or surrounding property.</p> <p>Note - A report from a suitably qualified Registered Professional Engineer Queensland is required certifying that the development does not increase the potential for significant adverse impacts on an upstream, downstream or surrounding premises.</p> <p>Note - Reporting to be prepared in accordance with Planning scheme policy – Flood hazard, Coastal hazard and Overland flow.</p>	<p>No example provided.</p>
<p><b>PO141</b></p> <p>Development does not:</p> <p>a. directly, indirectly or cumulatively cause any increase in overland flow velocity or level;</p> <p>b. increase the potential for flood damage from overland flow either on the premises or other</p>	<p>No example provided.</p>

<p>premises, public lands, watercourses, roads or infrastructure.</p> <p>Note - Open concrete drains greater than 1m in width are not an acceptable outcome, nor are any other design options that may increase scouring.</p>	
<p><b>PO142</b></p> <p>Development ensures that public safety and the risk to the environment are not adversely affected by a detrimental impact of overland flow on a hazardous chemical located or stored on the premises.</p>	<p><b>E142</b></p> <p>Development ensures that a hazardous chemical is not located or stored in an Overland flow path area.</p> <p>Note - Refer to the Work Health and Safety Act 2011 and associated Regulation and Guidelines, the Environmental Protection Act 1994 and the relevant building assessment provisions under the Building Act 1975 for requirements related to the manufacture and storage of hazardous substances.</p>
<p><b>PO143</b></p> <p>Development which is not in a Rural zone ensures that overland flow is not conveyed from a road or public open space onto a private lot.</p>	<p><b>E143</b></p> <p>Development which is not in a Rural zone that an overland flow paths and drainage infrastructure is provided to convey overland flow from a road or public open space area away from a private lot.</p>
<p><b>PO144</b></p> <p>Development ensures that inter-allotment drainage infrastructure, overland flow paths and open drains through private property cater for overland flows for a fully developed upstream catchment and are able to be easily maintained.</p> <p>Note - A report from a suitably qualified Registered Professional Engineer Queensland is required certifying that the development does not increase the potential for significant adverse impacts on an upstream, downstream or surrounding premises.</p> <p>Note - Reporting to be prepared in accordance with Planning scheme policy – Flood hazard, Coastal hazard and Overland flow</p>	<p><b>E144.1</b></p> <p>Development ensures that roof and allotment drainage infrastructure is provided in accordance with the following relevant level as identified in QUDM:</p> <ol style="list-style-type: none"> <li>Urban area – Level III;</li> <li>Rural area – N/A;</li> <li>Industrial area – Level V;</li> <li>Commercial area – Level V.</li> </ol> <p><b>PO144.2</b></p> <p>Development ensures that inter-allotment drainage infrastructure is designed to accommodate any event up to and including the 1% AEP for the fully developed upstream catchment.</p>
<p><b>PO145</b></p> <p>Development protects the conveyance of overland flow such that an easement for drainage purposes is provided over:</p> <ol style="list-style-type: none"> <li>a stormwater pipe if the nominal pipe diameter exceeds 300mm;</li> <li>an overland flow path where it crosses more than one premises;</li> <li>inter-allotment drainage infrastructure.</li> </ol>	<p>No example provided.</p>

## 6 Zones

<p>Note - Refer to Planning scheme policy - Integrated design for details and examples.</p> <p>Note - Stormwater Drainage easement dimensions are provided in accordance with Section 3.8.5 of QUDM.</p>	
<p><b>Additional criteria for development for a Park<sup>(57)</sup></b></p>	
<p><b>PO146</b></p> <p>Development for a Park<sup>(57)</sup> ensures that the design and layout responds to the nature of the overland flow affecting the premises such that:</p> <ol style="list-style-type: none"> <li>a. public benefit and enjoyment is maximised;</li> <li>b. impacts on the asset life and integrity of park structures is minimised;</li> <li>c. maintenance and replacement costs are minimised.</li> </ol>	<p><b>PO146</b></p> <p>Development for a Park<sup>(57)</sup> ensures works are provided in accordance with the requirements set out in Appendix B of the Planning scheme policy - Integrated design.</p>
<p><b>Riparian and wetland setbacks</b></p>	
<p><b>PO147</b></p> <p>Development provides and maintains a suitable setback from waterways and wetlands that protects natural and environmental values. This is achieved by recognising and responding to the following matters:</p> <ol style="list-style-type: none"> <li>a. impact on fauna habitats;</li> <li>b. impact on wildlife corridors and connectivity;</li> <li>c. impact on stream integrity;</li> <li>d. impact of opportunities for revegetation and rehabilitation planting;</li> <li>e. edge effects.</li> </ol>	<p><b>E147</b></p> <p>Development does not occur within:</p> <ol style="list-style-type: none"> <li>a. 50m from top of bank for W1 waterway and drainage line</li> <li>b. 30m from top of bank for W2 waterway and drainage line</li> <li>c. 20m from top of bank for W3 waterway and drainage line</li> <li>d. 100m from the edge of a Ramsar wetland, 50m from all other wetlands.</li> </ol> <p>Note - W1, W2 and W3 waterway and drainage lines, and wetlands are mapped on Schedule 2, Section 2.5 Overlay Maps – Riparian and wetland setbacks.</p>
<p><b>Scenic amenity - Regionally significant (Hills) and Locally important (Coast) (refer Overlay map - Scenic amenity to determine if the following assessment criteria apply)</b></p> <p>Note - In the Rural zone, netting, shade cloth and similar coverings associated with agricultural operations are exempt.</p>	
<p><b>PO148</b></p> <p>Development:</p> <ol style="list-style-type: none"> <li>a. avoids being viewed as a visually conspicuous built form on a hill top or ridgeline;</li> </ol>	<p><b>E148</b></p> <p>Where located in the Regionally significant (Hills) scenic amenity overlay, buildings and structures are not:</p>

<p>b. retain the natural character or bushland settings as the dominant landscape characteristic;</p> <p>c. is viewed as being visually consistent with the natural landscape setting and does not diminish the scenic and visual qualities present in the environment.</p>	<p>a. located on a hill top or ridge line;</p> <p>b. all parts of the building and structure are located below the hill top or ridge line.</p>																																													
<p><b>PO149</b></p> <p>Development:</p> <p>a. does not adversely detract or degrade the quality of views, vista or key landmarks;</p> <p>b. retains the natural character or bushland settings as the dominant landscape characteristic.</p>	<p><b>E149</b></p> <p>Where located in the Regionally significant (Hills) scenic amenity overlay, driveways and accessways:</p> <p>a. go across land contours, and do not cut straight up slopes;</p> <p>b. follow natural contours, not resulting in batters or retaining walls being greater than 900mm in height.</p>																																													
<p><b>PO150</b></p> <p>Buildings and structures incorporate colours and finishes that:</p> <p>a. are consistent with a natural, open space character and bushland environment;</p> <p>b. do not produce glare or appear visual incompatible with the surrounding natural character and bushland environment;</p> <p>c. are not visually dominant or detract from the natural qualities of the landscape.</p> <p>Note - Netting, shade cloth and similar coverings associated with agricultural operations are excluded from this performance outcome.</p>	<p><b>E150.1</b></p> <p>Where located in the Regionally significant (hills) scenic amenity overlay, roofs and wall surfaces of buildings and structures adopt the following colours:</p> <table border="1" data-bbox="762 913 1469 1742"> <thead> <tr> <th colspan="3">Colours from Australian Standard AS2700s – 1996</th> </tr> </thead> <tbody> <tr> <td>G12 – Holly</td> <td>G54 – Mist Green</td> <td>N 44 – Bridge Grey</td> </tr> <tr> <td>G13 – Emerald</td> <td>G55 – Lichen</td> <td>N45 – Koala Grey</td> </tr> <tr> <td>G14 – Moss Green</td> <td>G56 – Sage Green</td> <td>N52 – Mid Grey</td> </tr> <tr> <td>G15 – Rainforest Green</td> <td>G62 – Rivergum</td> <td>N54 – Basalt</td> </tr> <tr> <td>G16 – Traffic Green</td> <td>G64 – Slate</td> <td>N55 – Lead Grey</td> </tr> <tr> <td>G17 – Mint Green</td> <td>G65 – Ti Tree</td> <td>X54 – Brown</td> </tr> <tr> <td>G21 – Jade</td> <td>N25 – Birch Grey</td> <td>X61 – Wombat</td> </tr> <tr> <td>G22 – Serpentine</td> <td>N32 – Green Grey</td> <td>X62 – Dark Earth</td> </tr> <tr> <td>G23 – Shamrock</td> <td>N33 – Lightbox Grey</td> <td>X63 – Iron Bark</td> </tr> <tr> <td>G24 – Fern Green</td> <td>N35 – Light Grey</td> <td>Y51 – Bronze Olive</td> </tr> <tr> <td>G25 – Olive</td> <td>N41 – Oyster</td> <td>Y61 – Black Olive</td> </tr> <tr> <td>G34 – Avocado</td> <td>N42 – Storm Grey</td> <td>Y63 – Khaki</td> </tr> <tr> <td>G52 – Eucalyptus</td> <td>N43 – Pipeline Grey</td> <td>Y66 – Mudstone</td> </tr> <tr> <td>G53 – Banksia</td> <td></td> <td></td> </tr> </tbody> </table> <p><b>E150.2</b></p> <p>Where located in the Regionally significant (hills) scenic amenity overlay, roofs and wall surfaces of buildings and structures are painted or finished such that reflectivity is less than 35%.</p>	Colours from Australian Standard AS2700s – 1996			G12 – Holly	G54 – Mist Green	N 44 – Bridge Grey	G13 – Emerald	G55 – Lichen	N45 – Koala Grey	G14 – Moss Green	G56 – Sage Green	N52 – Mid Grey	G15 – Rainforest Green	G62 – Rivergum	N54 – Basalt	G16 – Traffic Green	G64 – Slate	N55 – Lead Grey	G17 – Mint Green	G65 – Ti Tree	X54 – Brown	G21 – Jade	N25 – Birch Grey	X61 – Wombat	G22 – Serpentine	N32 – Green Grey	X62 – Dark Earth	G23 – Shamrock	N33 – Lightbox Grey	X63 – Iron Bark	G24 – Fern Green	N35 – Light Grey	Y51 – Bronze Olive	G25 – Olive	N41 – Oyster	Y61 – Black Olive	G34 – Avocado	N42 – Storm Grey	Y63 – Khaki	G52 – Eucalyptus	N43 – Pipeline Grey	Y66 – Mudstone	G53 – Banksia

<p><b>Transport noise corridors (refer Overlay map - Transport noise corridors to determine if the following assessment criteria apply)</b></p>																																														

## 6 Zones

---

This is for information purposes only. No requirements for accepted development or criteria for assessable development apply. Development located within a Transport Noise Corridor must satisfy the requirements of the Queensland Development Code.

**TABLE A – CEDARTON FORESTER’S COOPERATIVE – LAND MANAGEMENT PLAN**

**Development in the Cedarton Forester’s Cooperative site subject to a land management plan**

**(see Figures 1 – 6)**

**1.1 Purpose of the land management plan**

The site is situated at 1965 Maleny Stanley River Road, Booroobin on land described as Lot 357 SP119036.

The purpose of the land management plan is to achieve the following identification of:

- a. The nature and extent of development permitted to occur on the site, subject to a land management plan process, namely:
  - i. A maximum of 22 dwelling sites, associated dwellings and driveways;
  - ii. outbuildings associated with dwellings;
  - iii. 1 community hall for the exclusive use of Cedarton Forester’s Cooperative members only and is not available to members of the public for public use or hire;
  - iv. 1 plant nursery for the exclusive use of Cedarton Forester’s Cooperative members only and the propagation of plants for use on the land management plan site only. The plant nursery is not to be available to the public or sell to the public;
  - v. 1 recycling centre exclusive use of Cedarton Forester’s Cooperative members only;
  - vi. Accessways and associated passing bays throughout the land management plan site.
- b. The location of development, except for outbuildings listed in (a)(ii) above.
- c. Any additional works required to facilitate and support the development listed in (a) above.

**1.2 Outcomes sought**

The outcomes sought by the land management plan are as follows:

- a. To acknowledge the presence of a multiple dwelling of 22 units associated with the Cedarton Forester’s Cooperative site;
- b. To limit development to that which existed on the day the planning scheme is adopted. Expansion or addition of land use and building is avoided;
- c. To ensure that any recognised development occurs in accordance with a land management plan.

Note - Development permitted to occur on the site - This is based on unlawful development currently existing on the site.

Note - The exact location and number of outbuildings to remain on site is unknown at time of preparing the land management plan. At this stage the Cedarton Forester’s Cooperative members have yet to determine which outbuildings are to be retained and upgrade to the necessary standard to obtain building consent. Any outbuilding that has not applied for a building consent to upgrade the building or structure to the necessary standard under the Building Act within the timeframes specified in the land management plan is to be demolished and removed from the site. Failing this, enforcement action will be taken by Council.

## 6 Zones

Note - Figures 1 – 6 form the Land management plan for the site

**Table 1 - Land management plan outcomes to be achieved**

No	Subject	Applicability	Outcome to be achieved
1.	Development subject to land management plan	The land management plan site	<ol style="list-style-type: none"> <li>1. Development comprises the following:               <ol style="list-style-type: none"> <li>a. A maximum of 22 dwelling sites, associated dwellings, and driveways.</li> <li>b. Outbuildings associated with dwellings.</li> <li>c. 1 community hall for the exclusive use of Cedarton Forester's Cooperative members only and is not available to members of the public for public use or hire.</li> <li>d. 1 plant nursery for the exclusive use of Cedarton Forester's Cooperative members only and the propagation of plants for use on the land management plan site only. The plant nursery is not to be available to the public or sell to the public.</li> <li>e. 1 recycling centre exclusive use of Cedarton Forester's Cooperative members only.</li> <li>f. Accessways and associated passing bays throughout the land management site.</li> </ol> </li> <li>2. Development is to occur in accordance with Figure 1 Cedarton Forester's Cooperative land management plan – Dwelling and building location.</li> </ol>
2.	Accessways	The land management plan site	<ol style="list-style-type: none"> <li>1. Within 2 years of the adoption of the Moreton Bay Planning scheme, the Cedarton Forester's Cooperative will:               <ol style="list-style-type: none"> <li>a. Undertake all necessary remedial work to the accessway.</li> <li>b. Construct the passing bays PB1 – PB8 as identified on Figure 3 Cedarton Forester's Cooperative land management plan – Accessway and driveway improvement areas. Passing bays have a minimum length of 20m and a 6m minimum trafficable width measured at the passing bay;</li> <li>c. Seal accessway sections as identified on Figure 3 Cedarton Forester's Cooperative land management plan – Accessway and driveway improvement areas. Accessways are to be sealed in accordance with Council's access standards.</li> </ol> </li> </ol>
3.	Energy	The land management plan site	Electricity is provided by means of solar power.
4.	Water course separation	The land management plan site	No development is located closer than 40m from the top of the bank of a water course identified on Figure 4 – Cedarton Forester's Cooperative land management plan – Contours, accessway and water courses.

No	Subject	Applicability	Outcome to be achieved
5.	Northern vinculum-connected	The land management plan site	<ol style="list-style-type: none"> <li>1. Residential development is limited to that part of the site lying south of the Maleny-Stanley River Road.</li> <li>2. The area lying north of the Maleny-Stanley River Road is to be retained in its natural state or re-vegetated with local native species.</li> </ol>
6.	Dwellings and dwelling sites	22 Dwelling and dwelling sites	<ol style="list-style-type: none"> <li>1. Dwellings are to be located on sites in accordance with Figure 1 Cedarton Forester's Cooperative land management plan – Dwelling and building location.</li> <li>2. Dwellings are to be designed and constructed to comply with the Building Act 1975 and the Building Code of Australia.</li> <li>3. Dwellings do not exceed their current building height at time of adopting the scheme and any new dwellings do not exceed a height of 8m.</li> <li>4. The gross floor area of a dwelling is to remain as it is at time of adopting the scheme, or at a maximum of 100m<sup>2</sup>, whichever is the greater.</li> <li>5. Development applications are to be accompanied by the reports and study requirements identified in Table 2.</li> </ol>
7.	Driveways	22 Dwelling and dwelling sites	Driveways are located on longitudinal gradients not exceeding 1:6 with short sections of no more than 20m length up to 1:4 and constructed driveway cross fall of not more than 1:20.
8.	Out buildings, including nursery and recycling station	All existing out buildings, nursery and recycling station	<ol style="list-style-type: none"> <li>1. All outbuildings, including nursery and recycling station are to be designed and constructed to comply with the Building Act 1975 and the Building Code of Australia.</li> <li>2. ### **Background information**

The following documents assisted to inform the detail and content of the land management plan:

- Cedarton Forester's Cooperative Land Management Plan August 2013, prepared by Planning Strategies, printed 2 August 2013.
- Bushfire Risk Assessment and Bushfire Risk Land Management plan for Cedarton Forester's Cooperative (Lot 357 on SP119036) – Revision 6, prepared by Ecological Natural Area Management July 2013.

A copy of these documents can be obtained from Council.

## TABLE B – MT NEBO PLANT NURSERY – LAND MANAGEMENT PLAN

Development in the Mt Nebo Plant Nursery site subject to a land management plan (see Figure 1)

### 1.2 Purpose of the land management plan

The site is situated at 1871 Mt Nebo Road, Mt Nebo, on land described as Lot 2 RP139965.

The purpose of the land management plan is to achieve the following identification of:

- a. The nature and extent of development permitted to occur on the site, subject to a land management plan process, namely:
  - i. A maximum of 16 dwelling sites, associated dwellings and driveways;
  - ii. Outbuildings associated with dwellings;
  - iii. Community building comprising the following:
    - A. 1 community hall for the exclusive use of shareholders only and is not available to members of the public for public use or hire;
    - B. 1 plant nursery for the exclusive use of shareholders only and the propagation of plants for use on the land management plan site only. The plant nursery is not to be available to the public or sell to the public;
    - C. 1 administration/office building for the exclusive use of shareholders only;
    - D. 1 water tank.
  - iv. Accessway throughout the land management plan site.
- b. The location of development identified in (I) – (IV) above;
- c. Any additional works required to facilitate and support the development listed in (a) above;

### 1.2 Outcomes sought

The outcomes sought by the land management plan are as follows:

- a. To acknowledge the presence of a multiple dwelling of 16 units associated with the Mt Nebo Plant Nursery site;
- b. To limit development to that which existed on the day the planning scheme is adopted. Expansion or addition of land use and building is avoided;
- c. To ensure that any recognised development occurs in accordance with a land management plan.

Note - Figure 1 forms the land management plan for the site

Table 1 - Land management plan outcomes to be achieved

No	Subject	Applicability	Outcome to be achieved
1.	Development subject to land management plan	The land management plan site	1. Development comprises the following: <ol style="list-style-type: none"> <li>a. A maximum of 16 dwellings and associated dwelling sites.</li> <li>b. Out buildings associated with dwellings.</li> <li>c. Community building comprising the following:               <ol style="list-style-type: none"> <li>i. 1 community hall for the exclusive use of shareholders only and is not available to members of the public for public use or hire;</li> </ol> </li> </ol>

No	Subject	Applicability	Outcome to be achieved
			<ul style="list-style-type: none"> <li>ii. 1 plant nursery for the exclusive use of shareholders only and the propagation of plants for use on the land management plan site only. The plant nursery is not to be available to the public or sell to the public;</li> <li>iii. 1 administration/office building for the exclusive use of shareholders only;</li> <li>iv. 1 water tank.</li> </ul> <p>d. Accessway throughout the land management plan site.</p> <p>2. Development is to occur in accordance with Figure 1 Mt Nebo plant nursery land management plan – Dwelling and building location.</p>
2.	Dwellings and dwelling sites D1 – D13 and D15	14 Dwellings and dwelling sites	<ol style="list-style-type: none"> <li>1. Dwellings D1 – D13, D15 are to be located on sites in accordance with Figure 1 Mt Nebo Plant Nursery land management plan – Dwelling and building location.</li> <li>2. Dwellings are to be designed and constructed to comply with the Building Act 1975 and the Building Code of Australia.</li> <li>3. Dwellings do not exceed their current building height at time of planning scheme adoption and any new structures not exceed a height of 8m.</li> <li>4. Dwellings retain their existing gross floor area, or a maximum of 100m<sup>2</sup>, whichever the greater (see Table 2).</li> </ol>
3.	Alternate location for dwellings and dwelling site for D14 and D16	D14 and D16	<ol style="list-style-type: none"> <li>1. Dwelling D14 is located to a cleared position downslope or to the north of its current position.</li> <li>2. Dwelling D16 may locate in any position along the existing platform already create by a cut in that location.</li> <li>3. Dwellings are to be designed and constructed to comply with the Building Act 1975 and the Building Code of Australia.</li> <li>4. Dwellings do not exceed their current building height at time of planning scheme adoption and any new structures not exceed a height of 8m.</li> <li>5. Geotechnical and bush fire reports, as identified in Table 5, are required to confirm suitability of dwelling and dwelling site.</li> </ol>
