Section 1 - Council requirements

City of Moreton Bay requests Suppliers of all raw organic materials e.g. mulch, soil, quarry products, turf, potted plants etc, confirm the company is meeting / exceeding Biosecurity QLD's Fire Ant Compliance. Verification documentation confirming Fire Ant Compliance **MUST** be supplied to Council PRIOR to the delivery of any raw organic material to any Council site.

The below completed and signed verification documentation is required.

Section 2 - Fire Ant Zone

Is the raw organic material being supplied, coming from, or has it been stored at any period, in a declared Fire Ant Zone?

- Yes - Complete Section 3 and 4
- No - As an authorised agent of the below company, I confirm the raw organic material being supplied to Council has **not** been sourced from or stockpiled in a Fire Ant Zone.

Company name: Authorised agent's name:

Signature: Date:

Section 3 - Raw organic material information

Description of raw organic material:

Address the raw organic material was sourced from or stockpiled at prior to delivery must be noted below:

NOTE: This address must also appear on Delivery dockets

Date raw organic material was stockpiled at this address:

Delivery address:

Date raw organic material was delivered to this address:

Section 4 - Supplier confirmation

Supplier's must confirm that they have a Fire Ant Management Plan in place and are complying with Biosecurity QLD's Fire Ant Management requirements. Please attach a copy of your Fire Ant Management Plan and complete the following statement:

Supplier's company name:

Authorised agent's name:

Copy of Fire Ant Management Plan attached.

As an authorised agent of the above company, I confirm that we have in place and are compliant with Biosecurity QLD's Fire Ant Management requirements.

Signature: Date:
