Please read the following notes about this overlay map:
This overlay map only affects you if you are planning to clear native vegetation on your property and your property is located in a High Value Area or Value Offset Area.

Under State Government requirements, planning schemes must identify areas of national, state and local environmental significance where environmental planning controls apply. This overlay map shows land important to the health and resilience of biodiversity of the environment for the Moreton Bay region. There are separate overlay maps which show preferred environmental offset receiving areas and riparian and wetland setbacks.

This map has been prepared using the latest information provided by the state government as well as a number of independent studies commissioned by Council to reflect state and local environmental interests.

It should be noted that not all native trees are captured in this map. Should you be clearing habitat trees outside of the areas captured in this map, refer to planning scheme factsheets or contact council.

Refer to the relevant zone, local plan and/or development codes for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Environmental Areas information sheet on Council's website (www.moretonbay.qld.gov.au/mbr/planningscheme) or contact council on 3205 0555.

Please read the following notes about this overlay map:
This overlay map only affects you if you are planning to clear native vegetation on your property and your property is located in a High Value Area or Value Offset Area.

Under State Government requirements, planning schemes must identify areas of national, state and local environmental significance where environmental planning controls apply. This overlay map shows land important to the health and resilience of biodiversity of the environment for the Moreton Bay region. There are separate overlay maps which show preferred environmental offset receiving areas and riparian and wetland setbacks.

This map has been prepared using the latest information provided by the state government as well as a number of independent studies commissioned by Council to reflect state and local environmental interests.

It should be noted that not all native trees are captured in this map. Should you be clearing habitat trees outside of the areas captured in this map, refer to planning scheme factsheets or contact council.

Refer to the relevant zone, local plan and/or development codes for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Environmental Areas information sheet on Council's website (www.moretonbay.qld.gov.au/mbr/planningscheme) or contact council on 3205 0555.

Please read the following notes about this overlay map:

This overlay map only affects you if you are planning to clear native vegetation on your property and your property is located in a High Value Area or Value Offset Area.

Under State Government requirements, planning schemes must identify areas of national, state and local environmental significance where environmental planning controls apply. This overlay map shows land important to the health and resilience of biodiversity of the environment for the Moreton Bay region. There are separate overlay maps which show preferred environmental offset receiving areas and riparian and wetland setbacks.

This map has been prepared using the latest information provided by the state government as well as a number of independent studies commissioned by Council to reflect state and local environmental interests.

It should be noted that not all native trees are captured in this map. Should you be clearing habitat trees outside of the areas captured in this map, refer to planning scheme factsheets or contact council.

Refer to the relevant zone, local plan and/or development codes for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Environmental Areas information sheet on Council's website (www.moretonbay.qld.gov.au/mbr/planningscheme) or contact council on 3205 0555.

Effective from 20 June 2016

Please read the following notes about this overlay map:
This overlay map only affects you if you are planning to clear native vegetation on your property and your property is located in a High Value Area or Value Offset Area.

Under State Government requirements, planning schemes must identify areas of national, state and local environmental significance where environmental planning controls apply. This overlay map shows land important to the health and resilience of biodiversity of the environment for the Moreton Bay region. There are separate overlay maps which show preferred environmental offset receiving areas and riparian and wetland setbacks.

This map has been prepared using the latest information provided by the state government as well as a number of independent studies commissioned by Council to reflect state and local environmental interests.

It should be noted that not all native trees are captured in this map. Should you be clearing habitat trees outside of the areas captured in this map, refer to planning scheme factsheets or contact council.

Refer to the relevant zone, local plan and/or development codes for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Environmental Areas information sheet on Council's website (www.moretonbay.qld.gov.au/mbr/planningscheme) or contact council on 3205 0555.

Effective from 20 June 2016

Please read the following notes about this overlay map:
This overlay map only affects you if you are planning to clear native vegetation on your property and your property is located in a High Value Area or Value Offset Area.

Under State Government requirements, planning schemes must identify areas of national, state and local environmental significance where environmental planning controls apply. This overlay map shows land important to the health and resilience of biodiversity of the environment for the Moreton Bay region. There are separate overlay maps which show preferred environmental offset receiving areas and riparian and wetland setbacks.

This map has been prepared using the latest information provided by the state government as well as a number of independent studies commissioned by Council to reflect state and local environmental interests.

It should be noted that not all native trees are captured in this map. Should you be clearing habitat trees outside of the areas captured in this map, refer to planning scheme factsheets or contact council.

Refer to the relevant zone, local plan and/or development codes for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Environmental Areas information sheet on Council's website (www.moretonbay.qld.gov.au/mbr/planningscheme) or contact council on 3205 0555.

-  W2 - Waterway
-  W3 - Waterway

Please read the following notes about this overlay map:

This overlay map only affects you if you are planning to clear native vegetation on your property and your property is located in a High Value Area or Value Offset Area.

Under State Government requirements, planning schemes must identify areas of national, state and local environmental significance where environmental planning controls apply. This overlay map shows land important to the health and resilience of biodiversity of the environment for the Moreton Bay region. There are separate overlay maps which show preferred environmental offset receiving areas and riparian and wetland setbacks.

This map has been prepared using the latest information provided by the state government as well as a number of independent studies commissioned by Council to reflect state and local environmental interests.

It should be noted that not all native trees are captured in this map. Should you be clearing habitat trees outside of the areas captured in this map, refer to planning scheme factsheets or contact council.

Refer to the relevant zone, local plan and/or development codes for requirements associated with this overlay map.

For further information regarding this overlay, please refer to the Environmental Areas information sheet on Council's website (www.moretonbay.qld.gov.au/mbr/planningscheme) or contact council on 3205 0555.

Effective from 20 June 2016
